

Phillip Income Fund

JANUARY 2018

INVESTMENT OBJECTIVE & FOCUS

The investment objective of the Phillip Income Fund is to seek to provide investors with balanced exposure to multiple asset classes. The Sub-Fund aims to deliver regular distributions and long-term growth through investments in global equities, global fixed income and money market instruments. To maximize returns, the Sub-Fund may also invest in convertible bonds, growth stocks and other instruments.

Subject to the provisions of the Code on Collective Investment Schemes ("Code") and the Standards of Qualifying CIS, the Managers may also invest the deposited property of the Sub-Fund into money market funds and collective investment schemes, including money market funds and collective investment schemes managed by the Managers during such time or times and on such terms as the Managers think fit in accordance with the investment objective and focus of the Sub-Fund. The management fees charged by the money market funds and collective investment schemes managed by the Managers will be rebated to the Sub-Fund, as may be agreed between the Managers and the Trustee.

As long as the Phillip Income Fund is a Qualifying CIS, it will not participate in securities lending and repurchase transactions. The Managers may only use Financial Derivative Instruments ("FDIs") for such purposes as may be permitted under the Code, and for so long as the Phillip Income Fund is a Qualifying CIS, for such purposes as may be permitted under the Standards of Qualifying CIS.

The Sub-Fund intends to offer regular dividends through semi-annual distributions. Investors should note that such distribution is not guaranteed and is subject to all times to the discretion of the Managers.

** The Fund was restructured on 1 March 2011 to focus on income generation and distribution. The Fund invests mainly in high quality credits and high-yielding equities.*
