KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of an umbrella fund constituted in Singapore. The Fund aims to invest its assets as stated in the Investment Strategy. The Fund intends to distribute dividends quarterly, payable within three months after the end of March, June, September and December, subject to the sole discretion of the Manager. Any distributions made may reduce the net asset value of the Fund.

The declaration and/or payment of distributions (whether out of income and/or capital) made in respect of the Fund may have the effect of lowering the Net Asset Value of the Fund. Moreover, distributions out of capital may amount to a reduction of an investor’s original investment.

The Fund is a Qualifying CIS under the ASEAN CIS Framework.

Refer to Section 7 on Page 6, Section 20.3 on Page 23 and Appendix 1 of the Prospectus for further information on product suitability.

Investment Strategy

The Fund will primarily invest in REITs listed in Singapore, including warrants, bonds and convertible bonds issued by the REITs. The Fund may also invest up to 10% of its Net Asset Value (“NAV”) into REITs listed outside Singapore.

The Fund will invest in REITs that demonstrate capital appreciation opportunities and sustainable dividend growth potential.

Refer to Section 7 on Page 6, Section 9.2.11 on Page 9 and Appendix 1 of the Prospectus for further information on investment objective, focus and approach of the product.

KEY RISKS

WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

The value of the product or its dividends may rise or fall. Factors that may cause you to lose some or all of your investment include without limitation, market movements, fluctuations in interest rates and activities in derivative transactions. Some of the key risks associated with the Fund are described below.

Refer to Section 9 on Page 7 of the Prospectus for further information on risks of the product.

Market and Credit Risks

- **You are exposed to market risks**
The prices of the listed REITs may be adversely affected by changes in the economic conditions, interest rates and the market perception of the REITs which in turn affect the price of the Fund.
- **You are exposed to credit risks**
Adverse changes in the financial condition of the issuer of the debt securities which the Fund is invested in, or in general economic conditions, or both, or an unanticipated rise in interest rate, may increase the potential for default and investors may suffer a substantial loss as a result.

Refer to Sections 9.2 and 9.3 on Pages 8 and 13 of the Prospectus for further information on risks relating to the Fund.

Liquidity Risks

- **The Fund is not listed and you can redeem only on dealing days.**
- There is no secondary market for the Fund. All redemption requests should be made to the Manager.
- The Manager, with the approval of the Trustee, may suspend the issue, cancellation and realization of units during certain circumstances specified in the Prospectus and Trust Deed.

Refer to Sections 12 and 15 on Pages 18 and 21 of the Prospectus for further information on realisation and suspension of dealing in the product.

Product Specific Risks

- **You are exposed to risks of investing in REITs**
REITs depend generally on their ability to generate cash flows to make distributions to shareholders or unitholders, and may be subject to defaults by borrowers and tenants of properties owned by such REITs. REITs may also be subject to financial covenants and/or borrowing/gearing ratios and their ability to comply with such ratios could be adversely affected if the REITs are unable to obtain funds from investors or loans or re-finance existing debt. Investments in REITs expose the Fund to risks similar to investing directly in real estate.
- **You are exposed to concentration risk**
The Fund focuses on REITs listed in Singapore and may be less diversified and the performance may be more adversely affected in negative market conditions compared to a regional equity fund or a fund which invests into REITs listed regionally in various jurisdictions. Investments in REITs and other issuers that invest, deal or otherwise engage in transactions in or hold real estate or interests therein expose the Fund to risks similar to investing directly in real estate.

Refer to Sections 9.2 and 9.3 on Pages 8 and 13 of the Prospectus for further information on risks relating to the Fund.

• **You are exposed to derivative risks**

The Manager may use financial derivative instruments for such purposes as may be permitted under the Code, and for so long as the Fund is a Qualifying CIS, for such purposes as may be permitted under the Standards of Qualifying CIS. The use of derivatives may negatively impact the value of the Fund and the Fund may suffer greater losses than if the Fund had not used derivatives.

• **You are exposed to currency risk**

Investments by the Fund are made in SGD and may be made in a variety of other currencies, whereas the NAV of the Fund will be computed in its SGD base currency. The value of the Fund may be affected favorably or unfavorably by currency exchange rates. The Manager does not intend to hedge such foreign currency exposure. Accordingly, investors will be exposed to exchange rate risk.

The Fund is valued every Business Day. Pricing may be available on The Business Times, Bloomberg, Reuters and websites of the appointed distributors, or such other sources as the Manager may decide upon.

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS OF DOING SO?

- You may realise your Units on any Dealing Day subject to any applicable realisation fee.
- If the redemption form is received and accepted by the Manager by 3.30 p.m. Singapore time on a dealing day, your Unit is valued at the net asset value per Unit of such class (Singapore dollar or US dollar) of the Fund as at the close of the Dealing Day less any realisation fee.
- You will normally receive the sale proceeds within 6 business days of receipt and acceptance of the realisation form by the Manager unless the realisation of Units has been suspended in accordance to paragraph 15 of the Prospectus.
- Numerical example of how the amount paid to an investor is calculated based on the sale of 1,000 Units and based on a notional realization price of SGD1.0000:
 $1000 \text{ Units} \times \text{SGD}1.0000 = \text{SGD}1,000 - \text{SGD} 0 = \text{SGD} 1,000$
