PRELIMINARY

This Prospectus has been prepared in connection with the offer in Singapore of units in the Sub-Funds (“**Units**”) under the Phillip Legacy Funds (the “**Trust**”), an umbrella unit trust established under Singapore law by the deed of trust relating to the Trust (the “**Trust Deed**”).

The directors of the Manager individually and collectively accept full responsibility for the accuracy of information contained herein and confirm, having made all reasonable enquiries, that to the best of their knowledge and belief, the facts stated and the opinions expressed in this Prospectus are fair and accurate in all material respects as at the date of this Prospectus and that there are no material facts the omission of which would make any statements in this Prospectus misleading. Where information in this Prospectus has been extracted from published or otherwise publicly available sources or obtained from a named source, the sole responsibility of the directors of the Manager has been to ensure that such information has been accurately and correctly extracted from those sources and/or reproduced in this Prospectus in its proper form and context.

The collective investment schemes offered in this Prospectus, the Sub-Funds, are authorised schemes under the Securities and Futures Act, Chapter 289 of Singapore (the “**Securities and Futures Act**”). A copy of this Prospectus has been lodged with and registered by the Monetary Authority of Singapore (the “**MAS**”). The MAS assumes no responsibility for the contents of this Prospectus. Registration of this Prospectus with the MAS does not imply that the Securities and Futures Act, or any other legal or regulatory requirements have been complied with. The MAS has not, in any way, considered the investment merits of the Sub-Funds.

Applicants for Units should consult their financial advisers and take legal advice as appropriate as to whether any governmental or other consents are required, or other formalities need to be observed, to enable them to acquire Units and as to whether any taxation effects, foreign exchange restrictions or exchange control requirements are applicable.

Units are traded on SGX-ST at market prices throughout the trading day. Market prices for Units may, however, be different from their net asset value. Listing for quotation of the Units on the SGX-ST does not guarantee a liquid market for the Units.

The distribution of this Prospectus and the offering, subscription, purchase, sale or transfer of the Units in certain jurisdictions may be restricted by law. The Manager requires persons into whose possession this Prospectus comes to inform themselves about and to observe any such restrictions at their own expense and without liability to the Manager. This Prospectus does not constitute an offer of, or an invitation to subscribe for or purchase, any of the Units in any jurisdiction in which such offer or invitation would be unlawful. Persons to whom a copy of this Prospectus has been issued shall not circulate to any other person, reproduce or otherwise distribute this Prospectus or any information herein for any purpose whatsoever nor permit or cause the same to occur.

Phillip SGD Money Market ETF

The Phillip SGD Money Market ETF is a money market fund. The purchase of a unit in a money market fund is not the same as placing funds on deposit with a bank or deposit-taking company. Although the Manager may seek to maintain or preserve the principal value of the money market fund, there can be no assurance that the money market fund will be able to meet this objective. The Phillip SGD Money Market ETF is not a guaranteed fund, in that there is no guarantee as to the amount of capital invested or return received.

Restriction on U.S. Persons on subscribing to the Sub-Funds

Persons to whom a copy of this Prospectus has been issued shall not circulate to any other person, reproduce or otherwise distribute this Prospectus or any information herein for any purpose whatsoever nor permit or cause the same to occur. In particular, please note that the Units have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the “**U.S. Securities Act**”) or any other applicable law of the United States. The Sub-Funds have not been and will not be registered as an investment company under the U.S. Investment Company Act of 1940, as amended. The Units are being offered and sold outside the United States to persons that are not “U.S. persons” (as defined in Regulation S promulgated under the U.S. Securities Act) in reliance on Regulation S promulgated under the U.S. Securities Act. The Units are not being offered or made available to U.S. persons and nothing in this Prospectus is directed to or is intended for U.S. persons.

For the purposes of the U.S. Securities Act, the term “U.S. person” means: (i) any natural person resident in the United States; (ii) any partnership or corporation organized or incorporated under the laws of the United States; (iii) any estate of which any executor or administrator is a U.S. person; (iv) any trust of which any trustee is a U.S. person; (v) any agency or branch of a non-United States entity located in the United States; (vi) any non-discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary for the benefit or account of a U.S. person; (vii) any discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary organized, incorporated, or (if an individual) resident in the United States; and (viii) any partnership or corporation if (a) organized or incorporated under the laws of any non-United States jurisdiction and (b) formed by a U.S. person principally for the purpose of investing in securities not registered under the Securities Act, unless it is organized or incorporated, and owned, by “accredited investors” (as defined in Regulation D promulgated under the U.S. Securities Act) who are not natural persons, estates or trusts.

For the purposes of the U.S. Securities Act, the term “U.S. person” does not include: (i) any discretionary account or similar account (other than an estate or trust) held for the benefit or account of a non-U.S. person by a dealer or other professional fiduciary organized, incorporated, or (if an individual), resident in the United States; (ii) any estate of which any professional fiduciary acting as executor or administrator is a U.S. person if (a) an executor or administrator of the estate who is not a U.S. person has sole or shared investment discretion with respect to the assets of the estate and (b) the estate is governed by non-United States law; (iii) any trust of which any professional fiduciary acting as trustee is a U.S. person, if a trustee who is not a U.S. person has sole or shared investment discretion with respect to the trust assets, and no beneficiary of the trust (and no settler if the trust is revocable) is a U.S. person; (iv) an employee benefit plan established and administered in accordance with the law of a country other than the United States; (v) an agency or branch of a U.S. person located outside the United States if (a) the agency or branch operates for valid business reasons and (b) the agency or branch is engaged in the business of insurance or banking and is subject to substantive insurance or banking regulation, respectively, in the jurisdiction where located; and (vi) the International Monetary Fund, the International Bank for Reconstruction and Development, the Inter-American Development Bank, the Asian Development Bank, the African Development Bank, the United Nations, any other similar international organizations, and their respective agencies, affiliates and pension plans.

Foreign Account Tax Compliance Act

The Foreign Account Tax Compliance Act (“**FATCA**”) includes provisions under which the Manager as a Foreign Financial institution (“**FFI**”) may be required to report to the U.S. Internal Revenue Service (“**IRS**”) certain information about Units held by U.S. persons for the purposes of FATCA and to collect additional identification information for this purpose.

The Trust and/or the Sub-Funds are obliged to comply with the provisions of FATCA under the terms of the inter-governmental agreement (“**IGA**”) Model 1 signed between the U.S. Government and the Singapore Government and under the terms of Singapore legislation implementing the IGA.

Distributors and investors should note that it is the existing policy of the Manager that Units are not being offered or sold for the account of U.S. Persons and that subsequent transfers of Units to such U.S. Persons are prohibited. If Units are beneficially owned by such U.S. Person, the Manager or the Trustee may compulsorily redeem such Units. Investors should note that under the FATCA legislation, the definition of “Specified U.S. Persons” will include a wider range of investors than the current U.S. Person definition.

Common Reporting Standard and Automatic Exchange of Information

Following the development by the Organisation for Economic Cooperation and Development (“**OECD**”) of a common reporting standard (“**CRS**”) to achieve a comprehensive and multilateral automatic exchange of information (“**AEOI**”), the Income Tax (International Tax Compliance Agreements) (Common Reporting Standard) Regulations 2016 (the “**CRS Regulations**”) have been promulgated to allow Singapore to implement the CRS with effect from 1 January 2017.

The CRS Regulations require certain Singapore financial institutions (as defined in the CRS Regulations) to identify financial asset holders and establish if they are resident for tax purposes in countries with which Singapore has a tax information sharing agreement. Singapore financial institutions will report financial account information of the asset holder to the Singapore tax authorities, which will thereafter automatically transfer this information to certain competent foreign tax authorities on a yearly basis.

Accordingly, the Manager and/or the Trustee will require investors to provide, amongst other things, information in relation to their identities and tax residences of their accounts (and the controlling persons, if any), account details, reporting entity, account balance/value and income/sale or redemption proceeds and any additional documentation or information, which will be reported to the Inland Revenue Authority of Singapore (“**IRAS**”) and the other relevant tax authorities for purposes of complying with FATCA, the CRS Regulations and any similar automatic exchange of tax information regimes.

Data Protection

For the purposes of, and subject to the provisions in, the Personal Data Protection Act 2012 (No. 26 of 2012) (“**PDPA**”) and its regulations, each investor consents and acknowledges that all personal data of the investor provided to the Trust, the Sub-Funds, the Manager, the Trustee or any delegate, agent or distributor appointed by the Manager or Trustee (including but not limited to the administrator, custodian, sub-custodians, registrar and any other third party service provider which may be applied), may be collected, used, disclosed or otherwise processed to enable each of the aforesaid entities to carry out their respective duties and obligations, or to enforce their respective rights and remedies, in connection with any investment by the investor into the Sub-Funds or any law applicable to the respective parties.

All enquiries in relation to the Trust should be directed to the Manager, Phillip Capital Management (S) Ltd.

The Trust will consist of a number of Sub-Funds. The Trust currently has 2 Sub-Funds established under it. The parties to the Trust Deed are Phillip Capital Management (S) Ltd, as the manager (the “**Manager**”) and HSBC Institutional Trust Services (Singapore) Limited, as the trustee (the “**Trustee**”). A copy of the Trust Deed is available for inspection by Holders and potential investors at the registered office of the Manager during usual business hours. The Manager may select other stock exchanges in addition to the SGX-ST, for the listing of the Units of each Sub-Fund, as it may determine from time to time.

2. REGISTRATION AND EXPIRY DATE

The date of registration of this Prospectus by the MAS is 22 September 2020. This Prospectus shall be valid for a period of 12 months after the date of registration and shall expire on 22 September 2021.

3. INVESTMENT OBJECTIVE

The investment objective of each Sub-Fund is stated in the relevant Appendix.

4. INVESTMENT POLICY OF THE SUB-FUNDS

4.1 Investment Approach

The investment approach of each Sub-Fund is stated in the relevant Appendix.

4.2 Investment Strategy

The investment strategy of each Sub-Fund is stated in the relevant Appendix.

In managing the Sub-Funds, the Manager may adopt a Replication Strategy, Representative Sampling Strategy or Optimisation Strategy, each as described below.

(a) Replication Strategy

Using a Replication Strategy, a Sub-Fund will invest in substantially all the Index Securities in substantially the same weightings (i.e. proportions) as the applicable Index and the Application Basket may comprise odd lots of the Index Securities. For purposes of tracking the Index closely, the Manager may, from time to time, adjust the number of odd lots of Index Securities in each Application Basket.

(b) Representative Sampling Strategy

Using a Representative Sampling Strategy, a Sub-Fund will hold a representative sample of a portfolio of Securities selected by the Manager using quantitative analytical models in a technique known as “portfolio sampling”. Where a Representative Sampling Strategy is employed, Securities that are not constituents of the Index may be held by the Sub-Fund. Such Securities will be expected to have a high level of correlation or a similar valuation or market capitalisation as the relevant Index Securities.

(c) Optimisation Strategy

Using an Optimisation Strategy, a Sub-Fund will invest in a portfolio of assets selected by the Manager featuring a high correlation to the relevant Index and with the aim of minimising index tracking error.

5. INVESTMENT RESTRICTIONS AND BORROWING POLICY

Each Sub-Fund is subject to the investment guidelines, restrictions and borrowing limits set out in the Code, which guidelines, restrictions and borrowing limits may be amended from time to time by the MAS. For so long as the Units are Excluded Investment Products and Prescribed Capital Markets Products, the Sub-Fund will not invest in any product or engage in any transaction which may cause the Units not to be regarded as Excluded Investment Products and Prescribed Capital Markets Products (unless otherwise permitted by the MAS).

Subject to the Code and to the provisions of the Trust Deed, the Trustee may at any time on the written instructions of the Manager make and vary arrangements for the borrowing (including entering into overdraft facilities) by the Trustee for the account of any Sub-Fund of any currency for the purpose of meeting redemptions and bridging requirements or such other purposes as permitted by the Code.

The Manager may from time to time formulate such other investment and borrowing restrictions to apply to the Sub-Fund, as it may in its sole discretion think fit, subject to the investment guidelines, restrictions and borrowing limits set out in the Code.

To the extent that Units of a Sub-Fund are classified as Excluded Investment Products and Prescribed Capital Markets Products, the Manager may engage in securities lending or repurchase transactions for the Sub-Fund, where such securities lending or repurchase transactions are carried out solely for the purpose of efficient portfolio management and do not amount to more than 50% of the Net Asset Value of the Sub-Fund, and is in line with the Securities and Futures (Capital Markets Products) Regulations 2018 issued by the MAS (as may be amended from time to time). Any securities lending or repurchase transactions which the Manager may engage in will be in accordance with Appendix 1 of the Code and Appendix 2 of the Code (where applicable).

6. RISK FACTORS

The Sub-Funds are subject to the following principal risks. The market price of Units and the Net Asset Value per Unit may fall or rise. There can be no assurance that you will achieve a return on your investments in the Units or a return on capital invested. Some or all of the following risks may adversely affect the Sub-Funds' Net Asset Value, yield, total return and/or its ability to achieve its investment objective. Investors should note the following risk factors associated with investing in the Sub-Funds. The following statements are intended to be summaries of some of those risks. They are by no means exhaustive and they do not offer advice on the suitability of investing in the Sub-Funds. Investors should carefully consider the risk factors described below together with all of the other information included in this Prospectus before deciding whether to invest

in Units of the Sub-Funds. You should be aware that an investment in the Sub-Funds may be exposed to other risks of an exceptional nature from time to time.

6.1 Investment Objective Risk

There is no assurance that the investment objective of a Sub-Fund will be achieved. Whilst the Manager will implement strategies it believes are appropriate for the investment objective of each Sub-Fund, there can be no assurance that these strategies will be successful. It is possible that an investor may lose a substantial proportion or all of its investment in a Sub-Fund. As a result, each investor should carefully consider whether you can afford to bear the risks of investing in the relevant Sub-Fund.

6.2 Market Risk

The Net Asset Value of the Units of each Sub-Fund will fluctuate with changes in the market value of the Securities held by the Sub-Fund. The price of Units and the income from them may go down as well as up. Investors may not get back their original investment. The capital return and income of a Sub-Fund is based on the capital appreciation and income of the Securities that it holds, less expenses incurred. A Sub-Fund's return may fluctuate in response to changes in such capital appreciation or income. Furthermore, each Sub-Fund may experience volatility and decline in response to changes in the relevant Index. Investors in a Sub-Fund are exposed to the same risks that investors who invest directly in the underlying Securities would face. These risks include, for example, interest rate risks (risks of falling portfolio values in a rising interest rate market); income risks (risks of falling incomes from a portfolio in a falling interest rate market); and credit risk (risk of a default by the underlying issuer of a Security that forms part of the Index).

6.3 Passive Investment Risk

The Sub-Funds are not actively managed and may be affected by changes in the market segments relating to the relevant Index or Indices. The Manager will not attempt to select Securities individually or to take defensive positions when the Index moves in an unfavourable direction. In such circumstances, investors may lose a significant part of their respective investments. Each Sub-Fund invests (either directly or indirectly) in the Securities included in or representative of the relevant Index regardless of their investment merit, except to the extent of any Representative Sampling Strategy or Optimisation Strategy. Investors should note that the lack of discretion on the part of the Manager to adapt to market changes due to the passive investment nature of a Sub-Fund will mean that falls in the Index or Indices in the case of Sub-Funds tracking the performance of the Index or Indices are expected to result in corresponding falls in the value of the Sub-Funds, and investors may lose substantially all of their investment.

6.4 Tracking Error Risk

Factors such as fees and expenses of a Sub-Fund, imperfect correlation between a Sub-Fund's assets and the Index Securities, changes to the Index and regulatory policies may affect the Manager's ability to achieve close correlation with the performance of the relevant Index. A Sub-Fund's returns may therefore deviate from the relevant Index and there is no assurance that the Sub-Fund will be able to fully track the performance of the relevant Index. A Replication Strategy may be adopted to minimise tracking error, by investing a Sub-Fund's assets in substantially the same weightings as the relevant Index. An Optimisation Strategy may also be adopted to minimise tracking error, by investing a Sub-Fund's assets in a portfolio of assets featuring a high correlation to the relevant Index. A Sub-Fund may invest in Securities which are not constituents of the relevant Index by using the Representative Sampling Strategy or Optimisation Strategy. The Manager will endeavour to manage the tracking error if the Representative Sampling Strategy or Optimisation Strategy is used.

6.5 Concentration Risk

A Sub-Fund which tracks the performance of a single geographical region may be subject to concentration risk. Such a Sub-Fund is likely to be more volatile than a broad-based fund, such as a global or regional equity fund, as it is more susceptible to fluctuations in value resulting from adverse conditions in the relevant region.

6.6 Foreign Exchange Risk

An investment in a Sub-Fund may directly or indirectly involve exchange rate risk. The Index, the Index Securities or the Securities of a Sub-Fund may be denominated in currencies other than the base currency of the Sub-Fund. Fluctuations in the exchange rates between such currency and the base currency may have an adverse impact on the performance of the Sub-Fund.

6.7 Units may trade at prices other than at Net Asset Value

The Net Asset Value of a Sub-Fund represents the fair price for buying or selling Units. As with any listed fund, the secondary market price of Units may sometimes trade above or below this Net Asset Value. There is a risk, therefore, that Holders may not be able to buy or sell at a price close to this Net Asset Value. The deviation from Net Asset Value is dependent on a number of factors, but will be accentuated when there is a large imbalance between market supply and demand for Units on the SGX-ST. However, given that the Units can be created and redeemed in an Application Unit size by Participating Dealers, as applicable, it is not anticipated that large discounts or premiums will be sustained.

6.8 Absence of prior Active Market

Although an application has been made for the Units of a Sub-Fund to be listed for trading on the SGX-ST, there can be no assurance that an active trading market will be developed or be maintained. There is no certain basis for predicting the actual price levels at, or sizes in, which the Units may trade.

6.9 Creation and Redemption through Participating Dealers

Investors may generally not create or redeem Units directly with the Manager and in any event can only create or redeem Units through Participating Dealers if investors are clients of the relevant Participating Dealer (subject to such terms and conditions as the Participating Dealer may impose). Units will normally only be issued or redeemed in an Application Unit size which is the number of Units specified in the relevant Appendix. The Participating Dealers are under no obligation to agree to do so on behalf of any investor and may impose terms and conditions in connection with such creation or redemption orders from investors. Each Participating Dealer may, in its absolute discretion, refuse to accept a creation order from an investor and can charge such fees as it may determine. The willingness of a Participating Dealer to redeem Units may depend upon, but is not limited to, that Participating Dealer's ability to sell the relevant Index Securities as well as any agreement which may be reached between the investor and the Participating Dealer. The Participating Dealer will not be able to create or redeem Units during any period when, amongst other things, dealings on the SGX-ST are restricted or suspended, settlement or clearing of securities through the CDP is disrupted or the Index is not compiled or published. In addition, the Participating Dealer will not be able to create or redeem Units if some other event occurs which impedes the calculation of the Net Asset Value of the Sub-Fund or disposal of the Sub-Fund's Securities cannot be effected.

6.10 Trading in Units on the SGX-ST may be suspended or delisted

Investors will not be able to purchase or sell Units on the SGX-ST during any period when the SGX-ST

suspends trading in the Units. The SGX-ST may suspend the trading of Units whenever, amongst other factors, the SGX-ST determines that it is necessary or expedient in the interest of maintaining a fair, orderly and transparent market. The creation and redemption of Units may also be suspended in the event that the trading of Units on the SGX-ST is suspended. The SGX-ST imposes certain requirements for the continued listing of securities, including the Units, on the SGX-ST. Investors cannot be assured that the Sub-Funds will continue to meet the requirements necessary to maintain the listing of Units on the SGX-ST or that the SGX-ST will not change the listing requirements. The Sub-Funds may be terminated if Units are delisted from the SGX-ST or if the CDP is no longer able to act as the depository for the Units listed on the SGX-ST. Dealings of Units on the SGX-ST may not necessarily be suspended in the event that the creation and redemption of Units is temporarily suspended by the Manager in accordance with the terms of the Trust Deed. If the creation and redemption of Units is temporarily suspended, the trading price of the Units may be adversely affected and differ from the Net Asset Value of the Sub-Funds.

6.11 The Sub-Funds are not typical unit trusts

Investors should note that the Sub-Funds are not like typical unit trusts offered to the public in Singapore. Units may only be created and redeemed in an Application Unit size by Participating Dealers and Units may not be subscribed for, or redeemed, directly by investors. For so long as the Units are listed for quotation on the SGX-ST, investors shall have no right to request the Manager to redeem or purchase their Units. Participating Dealers will not be able to create or redeem Units during any period when, amongst other things, dealings on the SGX-ST are restricted or suspended, settlement or clearing of securities in CDP is disrupted or, the Index is not compiled or published. Investors may generally only realise the value of their Units by selling their Units on the SGX-ST or through Participating Dealers (subject to such terms and conditions as the Participating Dealer may impose). These features are not usually present in a typical unit trust offered to investors in Singapore, where units can generally be purchased and redeemed directly with a manager or its approved distributors.

6.12 Risks related to Borrowings by a Sub-Fund

Subject to the Code, the Manager may pledge the assets of a Sub-Fund if the lender requires security to be provided in connection with any borrowings by the Manager for the account of the Sub-Fund. In the event that the Sub-Fund is unable to repay the principal or interest on such borrowing, the pledged assets may be disposed of by the lender. If the price received by the lender is insufficient to satisfy the outstanding due to the lender in full, the Sub-Fund may have to dispose of its investments to raise cash for payment of the shortfall to the lender. There may be an adverse effect on the Net Asset Value of the Sub-Fund if such disposal is effected during any period when general market conditions are unfavourable.

6.13 Derivatives Risk

(a) Use and risks associated with use of financial derivative instruments ("FDIs")

The Manager may use or invest in FDIs in accordance with the Securities and Futures (Capital Markets Products) Regulations 2018 (to the extent that Units of a Sub-Fund are Excluded Investment Products and Prescribed Capital Markets Products), Appendix 1 of the Code and Appendix 2 of the Code (where applicable). Such FDIs may include, but are not limited to futures, options, warrants, forwards, contract for differences, extended settlement contracts, swaps or swap options. Subject to the Securities and Futures (Capital Markets Products) Regulations 2018 (to the extent that Units of a Sub-Fund are Excluded Investment Products and Prescribed Capital Markets Products), the Manager may use or invest in FDIs for the purposes of hedging, efficient portfolio management, optimising returns or a combination of all three. In the case of a money market fund, the Manager may use or invest in FDIs

only for the purpose of hedging existing positions in the portfolio in accordance with Appendix 2 of the Code.

(b) Risks associated with the use of FDIs

While the judicious use of FDIs can be beneficial, the ability to use such instruments successfully depends on the Manager's ability to accurately predict movements in stock prices, interest rates, currency exchange rates or other economic factors and the availability of liquid markets. If the Manager's predictions are wrong, or if the FDIs do not work as anticipated, the Sub-Fund could suffer greater losses than if the Sub-Fund had not used such FDIs.

In addition to the inherent risks of investing in FDIs, a Sub-Fund will also be exposed to credit risk on the counterparties with which it trades, particularly in relation to FDIs that are not traded on a recognised market. Such instruments are not afforded the same protection as may be afforded to participants trading such FDIs on a recognised market, such as the performance guarantee of an exchange clearing house. The Sub-Fund may be subject to the possibility of insolvency, bankruptcy or default of a counterparty with which that Sub-Fund trades, which could result in substantial losses to the Sub-Fund.

Investments in derivatives may require the deposit of initial margin and additional deposit of margin on short notice if the market moves against the investment positions. If no provision is made for the required margin within the prescribed time, the Sub-Fund's investments may be liquidated at a loss. In cases of FDIs which are derivatives on commodities, such transactions shall be settled in cash at all times.

(c) Exposure to FDIs

The Manager confirms that the global exposure of each Sub-Fund to FDIs or embedded FDIs will not exceed 100%. Such exposure would be calculated using an approach as specified in the relevant Appendix.

(d) Risk Management Process and Compliance Controls

In the event the Manager uses FDIs, it is of the view that it has the necessary expertise to control and manage the risks relating to the use of FDIs.

The Manager will ensure that the risk management and compliance procedures and controls adopted are adequate and have been or will be implemented and that they have the necessary expertise to control and manage the risks relating to the use of FDIs.

6.14 Taxation Risk

Investing in a Sub-Fund may have tax implications for a Holder depending on the particular circumstances of each Holder. Prospective investors are strongly urged to consult their own tax advisers and counsel on the possible tax consequences with respect to an investment in the Sub-Fund. Such tax consequences may differ in respect of different investors.

6.15 Securities Lending or Repurchase Transactions Risk

Securities lending or repurchase transaction involve counterparty risk, credit risk, liquidity risk, sufficiency of collateral risk, collateral investment risk, delivery risk and operational risk, as described below:

(a) Counterparty risk

A counterparty to such securities lending or repurchase transaction may default on its obligations by being insolvent or otherwise being unable to complete a transaction.

(b) Liquidity risk

A counterparty may not be able to settle its obligation under such securities lending or repurchase transaction for the full value when it is due but would be able to settle on some unspecified date thereafter. This may affect the ability of a Sub-Fund to meet its redemption obligations and other payment commitments.

(c) Sufficiency of collateral risk

Following a default by a counterparty, a Sub-Fund can sell its collateral in the market to raise funds to replace the lent securities. It will suffer a loss if the value of the collateral securities falls relative to the lent securities.

(d) Collateral investment risk

The value of the securities in which the Manager invests the cash collateral may decline due to fluctuations in interest rates or other market-related events.

(e) Delivery risk

Delivery risk occurs both when securities have been lent and collateral has not been received at the same time or prior to the loan, and when collateral is being returned but the loan has not been received.

(f) Operational risk

The custodian or the lending agent may not administer the program as agreed. This includes the failure to mark to market the collateralisation levels, call for additional margin or to return excess margin and to post corporate actions and income including all economic benefits of ownership.

6.16 Liquidity Risk

Trading volumes in the underlying investments of a Sub-Fund may fluctuate significantly depending on market sentiment. There is a risk that investments made by a Sub-Fund may become less liquid in response to market developments, adverse investor perceptions or regulatory and government intervention (including the possibility of widespread trading suspensions implemented by domestic regulators). In extreme market conditions, there may be no willing buyer for an investment and so that investment cannot be readily sold at the desired time or price, and consequently the relevant Sub-Fund may have to accept a lower price to sell the relevant investment or may not be able to sell the investment at all. An inability to sell a particular investment or portion of a Sub-Fund's assets can have a negative impact of the value of the relevant Sub-Fund or prevent the relevant Sub-Fund from being able to take advantage of other investment opportunities.

The Manager has established liquidity risk management policies which enables it to identify, monitor and manage the liquidity risks of the Sub-Funds. Such policies, combined with the liquidity management tools available, seeks to achieve fair treatment of Holders and safeguard the interests of remaining Holders against the redemption behaviour of other investors and mitigate against systemic risk.

The Manager's liquidity risk management policies take into account the relevant Sub-Fund's liquidity terms, asset class, liquidity tools and regulatory requirements.

The liquidity risk management tools available to manage liquidity risk include the following:

- (a) a Sub-Fund may borrow up to 10 per cent. of the latest available Net Asset Value of the relevant Sub-Fund (or such other percentage as may be prescribed by the Code) at the time the borrowing is incurred and the borrowing period should not exceed one month provided always and subject to the borrowing restrictions in the Code;
- (b) the Manager may pursuant to the Trust Deed and subject to the provisions of the Code, suspend the redemption of Units of the relevant Class or Sub-Fund, and/or delay the payment of any monies and transfer of any Securities in respect of any Redemption Application;
- (c) in the event redemption requests received represent in aggregate more than 10% of the total number of Units in a Sub-Fund then in issue, the Manager may direct the Trustee to reduce the redemption requests rateably and pro rata amongst all Holders seeking to redeem Units on the relevant Dealing Day and carry out only sufficient redemptions which, in aggregate, amount to 10 per cent (or such higher percentage as the Manager may determine in respect of a Sub-Fund) of the Units in the Sub-Fund then in issue; and
- (d) the Manager conducts regular assessments of the liquidity profiles of the Sub-Funds' assets by reference to both current and anticipated market conditions and testing against the internal liquidity limits of the Sub-Funds. The Manager will exercise professional judgment in determining reasonable and appropriate factors to be considered in assessing liquidity. For example, potential quantitative factors include size, turnover, bid-ask spreads, transaction costs, and a Sub-Fund's holdings as a proportion of the outstanding issue, and, for fixed income securities, time of issuance and time to maturity. Qualitative factors may include currency denomination and credit quality. The Manager may also conduct stress testing to test a Sub-Fund's ability to withstand and meet anticipated redemption requests under both normal and exceptional liquidity conditions.

6.17 Infectious Disease Risk

An outbreak of the highly pathogenic avian influenza caused by the H5N1 virus ("**avian flu**"), the H1N1 virus ("**swine flu**"), the ASF virus ("**African swine fever**"), Severe Acute Respiratory Syndrome ("**SARS**"), Middle East Respiratory Syndrome ("**MERS**"), the Covid-19 disease caused by the SARS-CoV-2 virus ("**COVID – 19**") or other contagious disease may have an adverse effect on the economies of different regions in the world. In the past, large parts of Asia experienced outbreaks of avian flu and swine flu. An effective vaccine may not be discovered in time to protect against a potential avian flu or swine flu pandemic or to mitigate against COVID – 19. In 2003, Hong Kong experienced an outbreak of SARs, a highly contagious form of atypical pneumonia, which seriously interrupted economic activity and the demand for goods throughout Asia. In 2015, South Korea experienced an outbreak of MERS which is a viral respiratory infection with similar clinical features to SARS.

There is currently an outbreak of COVID – 19 globally, which has seriously interrupted economic activity globally. While COVID – 19 is still spreading and the final implications of the pandemic are difficult to estimate at this stage, it is clear that it will affect the lives of a large portion of the global population and cause significant effects. COVID – 19 has so far led to national holidays being extended and personnel being placed in quarantine and/or leave of absence, the closure of transport links for affected regions, and the implementation and enforcement of quarantine and lockdowns of affected regions.

The continued spread of COVID – 19 or an outbreak of avian flu, swine flu, SARS, MERS, or other contagious diseases or the measures taken by the governments of affected countries against the spread of COVID – 19 or such potential outbreaks or the perception that an outbreak of avian flu, swine flu, SARS, MERS or some other contagious disease may occur again, and may have an adverse effect on economic conditions in different regions of the world.

7. RISK FACTORS RELATING TO THE INDICES

7.1 Errors or inaccuracies in the Index

There may be inaccuracies, errors, omissions or mistakes in the compilation or calculation of the Index, which may result in significant deviations between the Net Asset Value of the Units and the Index. The Manager and the Trustee are not responsible or involved in the compilation or calculation of the Index, and thus cannot be held responsible or liable for any inaccuracies, errors, omissions or mistakes in such compilation or calculation. The computation of the Index may be inaccurate or incomplete if, amongst other factors, the information received by the Index provider from the Market on which an Index Security has its primary listing is inaccurate or incomplete. Examples of types of errors which may occur include:

- (a) the closing price of an Index Security on a given day being incorrect;
- (b) a missed corporate event;
- (c) a missed Index methodology event (deviation from what is stated in the methodology document for the Index); and
- (d) a late announcement in respect of an Index Security.

7.2 Index is subject to fluctuations

The performance of the Units should correspond closely with the performance of the Index. The Index may experience periods of volatility in the future. If the Index experiences volatility or declines, the price of the Units will vary or decline accordingly.

7.3 Composition of and weightings in the Index may change

The Securities which comprise the Index may be changed by the Index provider from time to time. The price of the Units may rise or fall as a result of such changes. The composition of the Index may also change if one of the Securities were to be delisted or if a new Security were to be added to the Index. If this happens, the weighting or composition of the Index Securities invested by a Sub-Fund would be changed as considered appropriate by the Manager in order to achieve the investment objective. Thus, an investment in the Sub-Fund will generally reflect the Index as its constituents change from time to time, and not necessarily the way it is comprised at the time of an investment in the Sub-Fund.

7.4 Licence to use the Index may be terminated

The Manager has been granted a licence by the Index provider to use each Index in connection with the operation, marketing and promotion of the relevant Sub-Fund. The Sub-Fund may be terminated if the Index licence agreement is terminated and the Manager is unable to identify or agree with the Index provider or any other index provider terms for the use of a suitable replacement index that gives, in the opinion of the Manager, the same or substantially similar exposure as the Index. In the event that the Index is no longer available for use by a Sub-Fund, the Manager will source for a suitable replacement index that gives, in the opinion of the Manager, the same or substantially similar exposure as the Index. Any such replacement index will be notified to Holders via SGXNET. Accordingly investors should note that the ability of a Sub-Fund to track the Index depends on the continuation in force of the Index licence agreement in respect of the Index or a suitable replacement.

In the event that the licence for the use of the Index is terminated for any reason, the Manager will notify Holders of such termination via an announcement on SGXNET.

7.5 Compilation of the Index

No warranty, representation or guarantee is given as to the accuracy or completeness of the Index and its computation or any information related thereto. The process and the basis of computing and compiling the Index and any of its related formulae, constituent companies and factors may at any time be changed or altered by the Index provider without notice.

9. BROKERAGE TRANSACTIONS

The policy of the Manager regarding purchases and sales of Securities is that primary consideration will be given to obtaining the most favourable prices and best execution of transactions in accordance with the requirements of the Code. Consistent with this policy, when Securities transactions are effected on a stock exchange, the Manager's policy is to pay commissions which are considered fair and reasonable without necessarily determining that the lowest possible commissions are paid in all circumstances.

The Manager believes that a requirement always to seek the lowest possible commission cost may impede effective portfolio management and preclude the Trust, the Sub-Funds and the Manager from obtaining a high quality of brokerage. In seeking to determine the reasonableness of brokerage commissions paid in any transaction, the Manager relies upon its experience and knowledge regarding commissions generally charged by various brokers and on its judgement in evaluating the brokerage services received from the broker effecting the transaction. Such determinations are necessarily subjective and imprecise and, as in most cases, an exact dollar value for those services is not ascertainable.

In seeking to implement the above policies, the Manager effects transactions with those brokers and dealers that the Manager believes provide the most favourable prices and are capable of providing best execution of transactions in accordance with the requirements of the Code. If the Manager believes such price and execution are obtainable from more than one broker or dealer, it may give consideration to placing portfolio transactions with those brokers and dealers who also furnish other services to the Trust, the Sub-Funds or the Manager. Such services may include, but are not limited to, information as to the availability of Securities for purchase or sale, and statistical information pertaining to corporate actions affecting Securities.

None of the Manager, its directors and their associates is entitled to receive any part of any brokerage charged to the Trust and/or the Sub-Funds, or any part of any fees, allowances and benefits (other than soft dollar commissions or arrangements mentioned below) received on purchases charged to the Trust and/or the Sub-Funds.

10. SOFT DOLLAR COMMISSIONS OR ARRANGEMENTS

The Manager may receive or enter into soft dollar commissions or arrangements in respect of the Trust and/or the Sub-Funds. The Manager will comply with applicable regulatory and industry standards on soft dollars.

The soft dollar commissions which the Manager may receive include advisory services, economic and political analyses, portfolio analyses including valuation and performance measurements, market analyses, data and quotation services, computer hardware and software or any other information facilities to the extent that they are used to support the investment decision making process, the giving of advice, or the conduct of analysis and custodial services in relation to the investments managed for clients. The soft dollar credits utilised are not allocated on a specific client basis. The brokers also execute trades for other funds managed by the Manager.

Soft dollar commissions or arrangements shall not include travel, accommodation, entertainment, general administrative goods and services, general office equipment or premises, membership fees, employees' salaries or direct money payment.

The Manager will not accept or enter into soft dollar commissions or arrangements unless such soft dollar commissions or arrangements would, in the opinion of the Manager, be reasonably expected to assist the Manager in their management of the Trust and/or the Sub-Funds, provided that the Manager shall ensure at all times that transactions are executed on a "best execution" basis taking into account the relevant market at the time for transactions of the kind and size concerned, and that no unnecessary trades are entered into in order to qualify for such soft dollar commissions or arrangements.

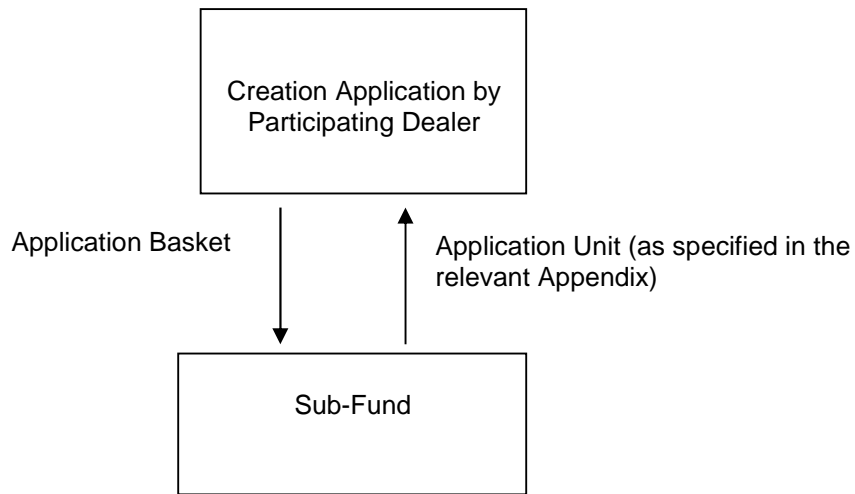

The Manager does not, and is not entitled to, retain cash or commission rebates for their own account in respect of rebates earned when transacting in Securities for account of the Trust and/or the Sub-Funds.

11. OPERATION OF THE SUB-FUNDS

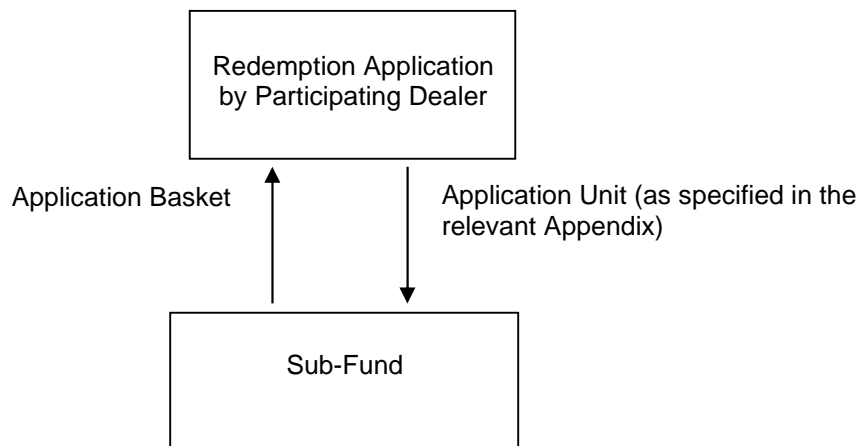

Only a Participating Dealer can create and redeem Units directly with a Sub-Fund. Any person, other than the Participating Dealer, who buys and sells Units of a Sub-Fund will have to effect this on the SGX-ST or through a Participating Dealer (subject to such terms and conditions as may be imposed by the Participating Dealer). The diagrams below illustrate the methods of acquiring and disposing Units in a Sub-Fund after listing:

11.1 Direct creation and redemption by a Participating Dealer:

(i) Direct Creation by a Participating Dealer

(ii) Direct Redemption by a Participating Dealer

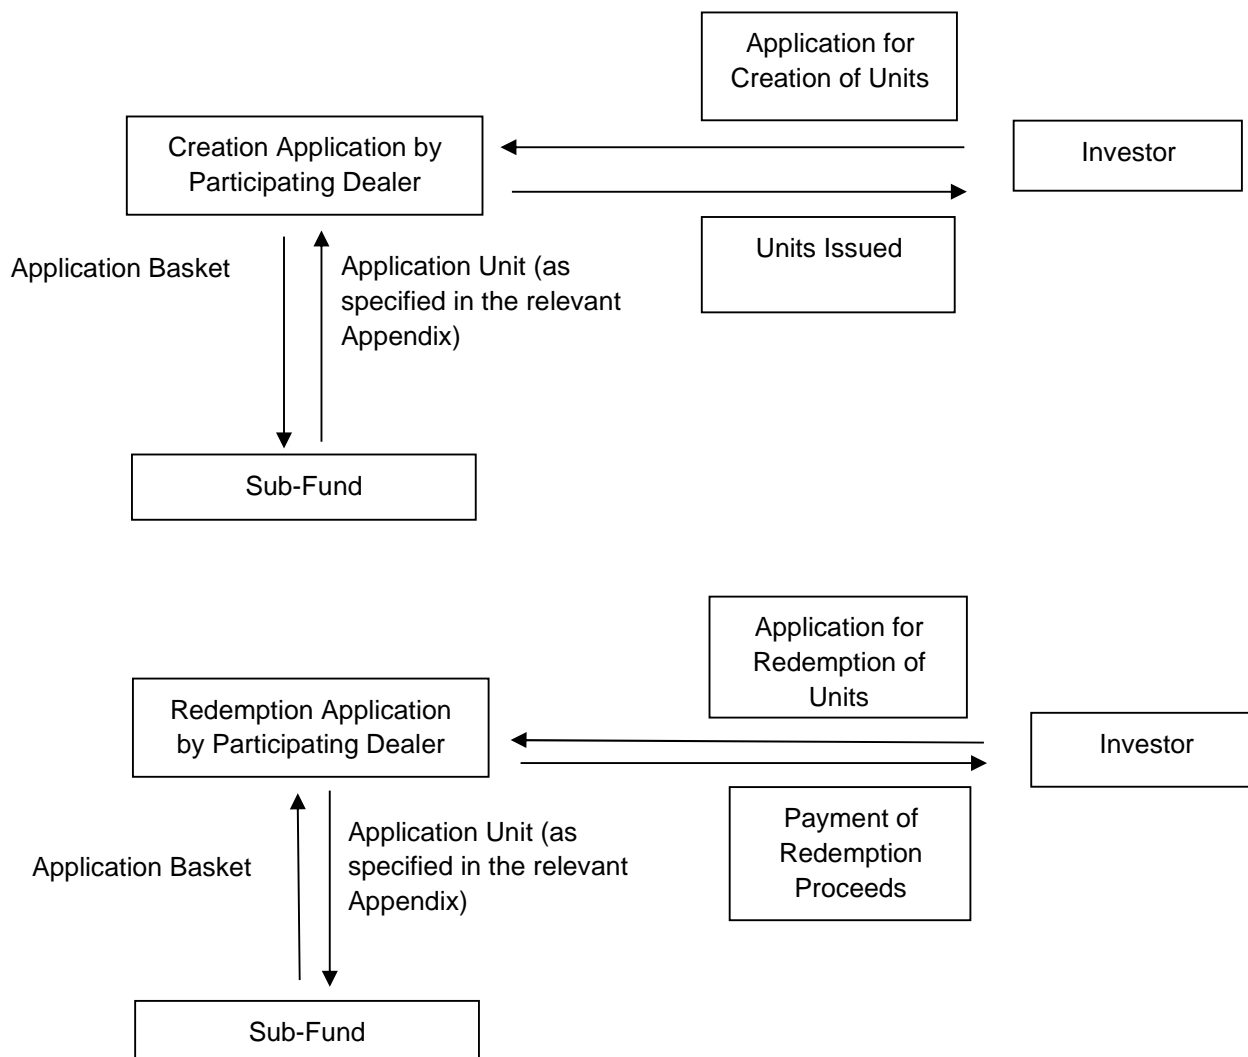

11.2 Investors other than Participating Dealers:

(i) Trading Units in the secondary market on the SGX-ST:

(ii) Subscribing and redeeming Units through a Participating Dealer¹

11.3 Index Rebalancing

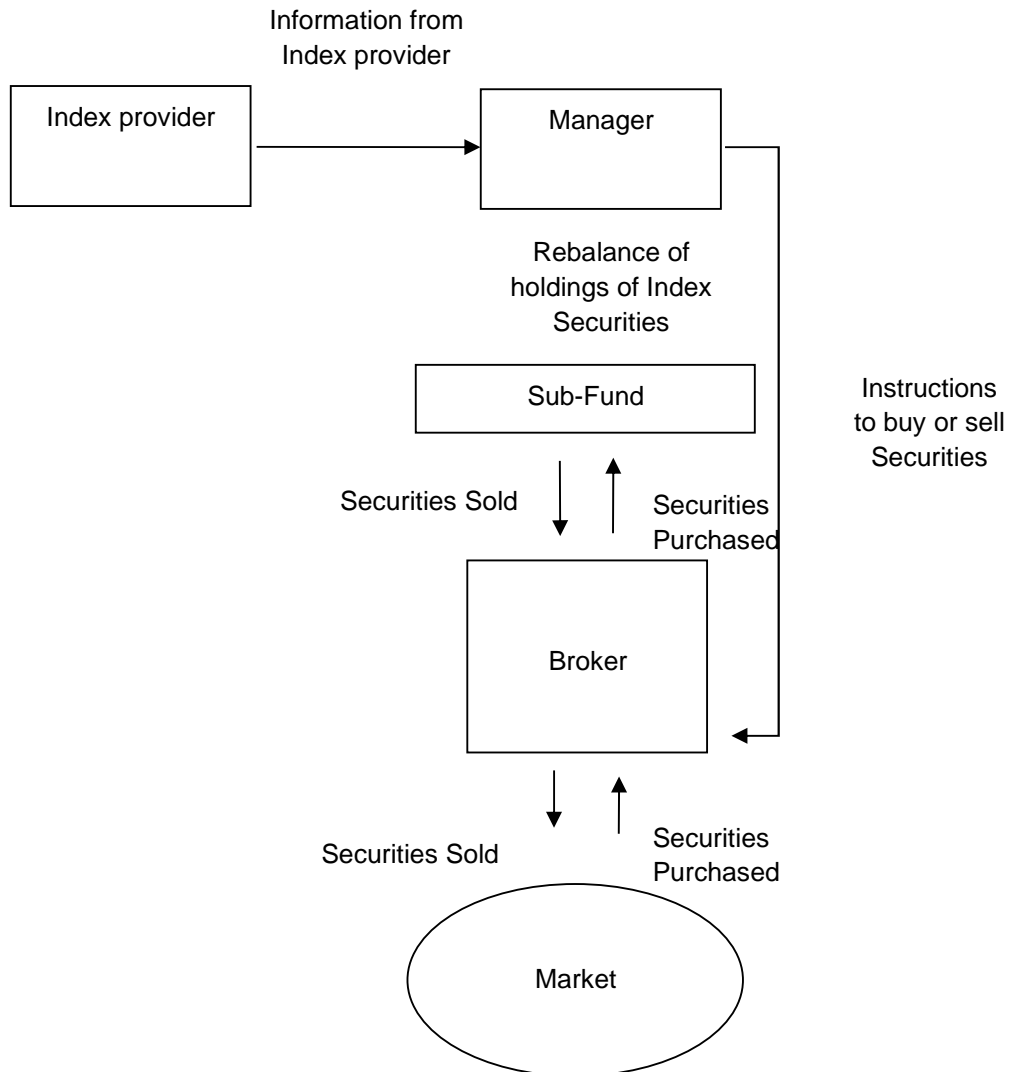

Where a Sub-Fund tracks an Index, the constituent Index Securities and their respective weightings within the Index will change from time to time. In order for the Sub-Fund to achieve its investment objective of tracking the relevant Index, it will accordingly be necessary for the Manager to rebalance the Sub-Fund’s holdings of Index Securities comprised in the relevant Index. The Manager will liaise with the Index provider with regard to such proposed rebalancing and/or derive public information announced by the Index provider and rebalance the holdings of Index Securities accordingly.

An Index will be reviewed on a periodic basis and minor rebalancing will be carried out as and when necessary. For Sub-Funds which adopt a Replication Strategy, it is expected that during the rebalancing, the Sub-Fund’s holding of the Index Securities will be realigned to reflect substantially the Index constituents. Minor rebalancing will only be carried out after cost considerations have been taken into account. For Sub-Funds which adopt a Representative Sampling Strategy or a Optimisation Strategy, the Manager will monitor the tracking error daily and rebalance such Sub-Fund’s holdings if considered necessary. You may obtain

¹ Only for clients of Participating Dealers and subject to such terms and conditions as may be imposed by the relevant Participating Dealer.

information on the tracking error of the relevant Sub-Fund (once available) from the Manager's website at www.phillipfunds.com.

The diagram below represents the rebalancing of a Sub-Fund's holdings of Index Securities following the rebalancing of the Index:

11.4 Market Maker

A market maker is a broker or a dealer registered by the SGX-ST as a designated market maker to act as such by making a market for the Units in the secondary market on the SGX-ST. A designated market maker's obligations include quoting bid prices to potential sellers and offer prices to potential buyers when there is a wide spread between the prevailing bid prices and offer prices for Units on the SGX-ST. Designated market makers accordingly facilitate the efficient trading of Units by providing liquidity in the secondary market when it is required in accordance with the market making requirements of the SGX-ST. Subject to applicable regulatory requirements, the Manager intends to ensure that there is at least one designated market maker for each Sub-Fund to facilitate efficient trading.

The market makers for each Sub-Fund are stated in the relevant Appendix.

11.5 Participating Dealer

The role of a Participating Dealer is to facilitate creation and redemption of Units in the Sub-Funds from time to time. Under the terms of the Participation Agreement, only a Participating Dealer may apply to create Units in respect of an Application Unit by the presentation of Index Securities and/or the cash equivalent of the Index Securities where applicable. In its absolute discretion, a Participating Dealer may also apply to create Units on behalf of its clients from time to time, subject to such terms and conditions as may be imposed by the relevant Participating Dealer.

The Participating Dealers for each Sub-Fund are stated in the relevant Appendix.

12. DEALING BY INVESTORS

Investors cannot create or redeem Units directly in a Sub-Fund. However, investors may purchase or sell Units either through Participating Dealers (subject to such terms and conditions as may be imposed by the relevant Participating Dealer) or through the SGX-ST.

For a Sub-Fund listed on the SGX-ST, investors can place an order to buy or sell Units in cash during the trading day through a broker or any trading member of the SGX-ST as one would in the case of a security listed on the SGX-ST, at any time after dealings in the Units commence and for so long as the Units are listed on the SGX-ST. The trading price of Units may differ from the Net Asset Value per Unit and there can be no assurance that a liquid secondary market will exist for the Units.

Investors who wish to use their Supplementary Retirement Scheme (“**SRS**”) monies to purchase Units in a Sub-Fund should check with their broker or SRS operator on the procedures.

Brokerage and other fees may be payable when purchasing and selling Units on the SGX-ST. Please see paragraph 20.4 “Fees and Charges Payable by Investors Dealing in Units on the SGX-ST” below.

13. SUBSCRIPTION AND REDEMPTION

13.1 Minimum Subscription Amount

The minimum subscription amount for a Sub-Fund through a Participating Dealer is 1 Application Unit. The Application Unit size for a Sub-Fund is the number of Units specified in the relevant Appendix. Investors who wish to acquire less than 1 Application Unit may only acquire such Units on the SGX-ST.

13.2 Continuous Offering of Units and Dealing Deadlines

Units in a Sub-Fund will, subject to any suspension of dealings set out in the Trust Deed, be continuously offered to Participating Dealers who may apply for them on any Dealing Day on their own account or for the account of their clients in accordance with the Operating Guidelines. The Dealing Deadline for purposes of subscription or redemption of Units for each Sub-Fund is specified in the relevant Appendix. All dealing requests are dealt with at the same Net Asset Value at the same Valuation Point for the relevant Dealing Day (or such other time as may be determined by the Manager from time to time with the prior approval of the Trustee).

13.3 Procedures for Creation of Application Unit Size

Only Participating Dealers may apply directly to the Manager to create Units in a Sub-Fund. The Manager shall instruct the Trustee in writing to effect, for the account of the relevant Sub-Fund, the creation of Units in Application Unit size in accordance with any of (a) or (b) below (or a combination of both):

- (a) in exchange for a transfer, by the Participating Dealer, to the Trustee for the account of the relevant Sub-Fund, of Securities constituting an Application Basket for the relevant Units, a cash amount equivalent to any Duties and Charges and any incidental costs associated with the creation of Units payable plus, if the Cash Component is a positive value, a cash payment equivalent to the amount of the Cash Component; and if the Cash Component is a negative value, the Manager shall cause the Trustee to make a cash payment equivalent to the amount of the Cash Component (expressed as a positive figure) to the Participating Dealer, provided that in the event that the relevant Sub-Fund has insufficient cash required to pay any Cash Component payable by the relevant Sub-Fund, the Manager may effect the sale of all or some of the Deposited Property of the relevant Sub-Fund, or to borrow monies in accordance with the Trust Deed, to provide the cash required; or
- (b) in exchange for a cash payment equivalent to the relevant Application Basket Value (which shall be accounted for as Deposited Property) for the relevant Units in the Sub-Fund, *plus* an amount equivalent to any Cash Component (if the Cash Component is positive), which the Manager shall use (i) to purchase the Securities comprised in the Application Basket or (ii) to purchase such Securities as the Manager may consider appropriate or (iii) to apply such cash for entry into such contractual agreements (being FDIs or otherwise being in the nature of investments by the Sub-Fund) as the Manager consider appropriate, and if the Cash Component is a negative value, the Trustee shall be required to make a cash payment equivalent to the amount of the Cash Component (expressed as a positive figure) to the Participating Dealer, provided that the Manager shall be entitled in its absolute discretion to (1) charge (for the account of the relevant Sub-Fund) to the Participating Dealer, such additional sum as represents the appropriate provision for Duties and Charges and any incidental costs associated with the creation of Units, and (2) in respect of any difference (if any) between the prices used when valuing the Securities comprising the Application Basket of the relevant Sub-Fund for the purpose of such creation and the purchase prices actually paid or to be paid out of the Deposited Property in acquiring such Securities comprising the Application Basket by the Manager for the account of the relevant Sub-Fund (after the addition to the relevant purchase prices of any Duties and Charges and any incidental costs associated with such acquisition of Securities), require the Participating Dealer to pay such difference to the Trustee (if the difference is negative), or cause to be paid to the Participating Dealer (if the difference is positive), an amount as is determined by the Manager in its sole discretion up to an amount equal to such difference.

The Manager shall have the right to reject, acting in good faith, any Creation Application under exceptional circumstances, including without limitation the following circumstances:

- (a) any period during which (i) the creation or issue of Units of the relevant Class or Sub-Fund is suspended pursuant to the Trust Deed, (ii) the redemption of Units of the relevant Class or Sub-Fund is suspended pursuant to the Trust Deed, and/or (iii) the determination of Net Asset Value of the Sub-Fund is suspended pursuant to the Trust Deed;
- (b) where in the opinion of the Manager, acceptance of the Creation Application would have an adverse effect on the Sub-Fund;

- (c) where in the opinion of the Manager, acceptance of the Creation Application would have a material impact on the relevant Market on which a Security (that is a component of the Index for the relevant Sub-Fund) has its primary listing;
- (d) where there is in existence any trading restriction or limitation such as the occurrence of a market disruption event, suspected market misconduct or the suspension of dealing in relation to any of the Securities in the relevant Index;
- (e) where acceptance of the Creation Application would render the Manager in breach of any regulatory restriction or requirement, internal compliance or internal control restriction or requirement of the Manager necessary for compliance with all applicable legal and regulatory requirements;
- (f) circumstances outside the control of the Manager make it for all practicable purposes impossible to process the Creation Application;
- (g) any period when the business operations of the Manager, the Trustee, the Custodian or any agent of the Trustee on which the Trustee relies to effect the creation of Units in the relevant Sub-Fund are substantially interrupted or closed as a result of or arising from pestilence, acts of war, terrorism, insurrection, revolution, civil unrest, riot, strikes or acts of God; or
- (h) an Insolvency Event occurs in respect of the relevant Participating Dealer.

Once the Units are created, the Manager shall effect, for the account of the relevant Sub-Fund, the issue of Units to the relevant Participating Dealer in accordance with the Operating Guidelines.

No fractions of a Unit shall be created or issued.

An application for the creation and issue of Units shall only be made or accepted (as the case may be) on a Dealing Day and shall only be in respect of Units constituting an Application Unit size. All Creation Applications shall only be accepted if made by or through a Participating Dealer in accordance with the terms of the Trust Deed and the relevant Participation Agreement. Subject to the Trust Deed, a Creation Application once given cannot be revoked or withdrawn without the consent of the Manager.

The Issue Price of Units of the Phillip SING Income ETF shall be based on forward pricing which means that the Issue Price of the Units shall not be ascertainable at the time of application for Units.

The Issue Price of Units of the Phillip SGD Money Market ETF shall be based on historical pricing which means that the Issue Price of the Units shall be ascertainable at the time of application for Units. The Issue Price will be determined at 8:30 a.m. (Singapore time) on the Dealing Day immediately preceding the date of issue of the Units.

The creation and issue of Units pursuant to a Creation Application shall be effected on the Settlement Day in accordance with the Operating Guidelines but:

- (a) for valuation purposes only, Units shall be deemed created and issued after the Valuation Point on the Dealing Day on which the relevant Creation Application was received or deemed received; and
- (b) the Register will be updated on Settlement Day or the Dealing Day immediately following Settlement Day if the settlement period is extended pursuant to the Trust Deed.

If a Creation Application is received and accepted by the Manager with a trade date specified on a day which is not a Dealing Day, or with no trade date specified or is received and accepted after the Dealing Deadline on a Dealing Day, that Creation Application shall be carried forward and deemed to be received at the opening of business on the next following Dealing Day, which shall be the Dealing Day for the purposes of that Creation Application.

For every successful Creation Application, the Participating Dealer will be sent a confirmation detailing the number of Units allotted within 7 Business Days of the receipt and acceptance of the application by the Manager. Investors who acquire Units constituting an Application Unit size through a Participating Dealer may request the Participating Dealer to apply to the CDP for his/her Units to be entered against his/her name on the records of the CDP in accordance with the CDP's terms and conditions.

The Manager may reject a Creation Application by a Participating Dealer if the application is not in a form and substance satisfactory to, and accompanied by such certifications required in the Operating Guidelines (if any) in respect of creation of Units, together with such certifications and opinions of counsel (if any) as the Trustee and the Manager may consider necessary to ensure compliance with applicable securities and other laws in relation to the creation of Units which are the subject of the Creation Application or other documents as may be required by the Trustee and the Manager in accordance with the Trust Deed, the relevant Participation Agreement and the Operating Guidelines.

The Manager may charge a Transaction Fee in respect of Creation Applications and may on any day vary the amount of the Transaction Fee it charges (but not as between different Participating Dealers). The Transaction Fee shall be paid by or on behalf of the Participating Dealer submitting the Creation Application(s) (and may be set off and deducted against any cash amount due to the Participating Dealer in respect of such Creation Application(s)) for the benefit of the Registrar and/or the Trustee.

Any commission, remuneration or other sum payable by the Manager to any agent or other person in respect of the issue or sale of any Unit shall not be added to the Issue Price of such Unit and shall not be paid from the Deposited Property.

The Trustee shall be entitled to refuse to enter (or allow to be entered) Units in the Register if at any time the Trustee is of the opinion that the provisions of the Trust Deed in regard to the issue of Units, are being or may be infringed.

Numerical example of amount payable in the case of a cash Creation Application

The following is an illustration of the total amount payable by a Participating Dealer in making a cash Creation Application based on one Application Unit of 50,000 Units and a notional Issue Price per Unit of S\$1.200 plus Duties and Charges of S\$50 and the Transaction Fee of S\$450. Please note that these figures are for illustration purposes only. The actual fees and charges payable for each Sub-Fund are provided in the relevant Appendix relating to each Sub-Fund.

(50,000 Units	x	S\$1.200)	+	S\$50	+	S\$450	=	S\$60,500
Number of Units proposed to be subscribed		Issue Price per Unit		Duties and Charges		Transaction Fee		Total amount payable

Note: The above example is for illustration purposes only and should not be taken as any forecast of future performance. Investors subscribing through a Participating Dealer (whether directly or through a

stockbroker) should note that there may be other additional fees and charges (including brokerage fees and charges) payable to the Participating Dealer, and that the Participating Dealer may ultimately pass on fees and charges which it paid to the Manager and/or Trustee for the Creation Application to the end investors. Investors should consult the relevant Participating Dealer for details on all additional fees and charges payable by investors.

13.4 Cancellation of Creation Application of Units and Extension of Settlement Period

The Manager shall instruct the Trustee to cancel Units created and issued in respect of a Creation Application if:

- (a) all the Index Securities and/or the cash equivalent of the Index Securities constituting the Application Basket deposited for exchange have not been vested by or on the relevant Settlement Day in the Trustee or to the Trustee's satisfaction or evidence of title and instruments of transfer satisfactory to the Trustee have not been produced to or to the order of the Trustee; or
- (b) the full amount of (i) any cash payable in connection with the Creation Application and (ii) any Duties and Charges, incidental costs associated with the creation of Units and Transaction Fee payable have not been received in cleared funds by or on behalf of the Trustee by such time on the relevant Settlement Day as prescribed in the Operating Guidelines,

provided that, in either event, the Manager with the approval of the Trustee, may at its discretion extend the settlement period (either for the Creation Application as a whole or for a particular Index Security or all the Index Securities and/or the cash equivalent of the Index Security(ies)), such extension to be on such terms and conditions (including as to the payment of any Extension Fee or collateral to the Manager or the Trustee or their Connected Persons or otherwise as it may determine) as the Manager with the approval of the Trustee, may determine.

Upon the cancellation of any Creation Application as provided for above or if a Participating Dealer otherwise withdraws a Creation Application other than in the circumstances contemplated in the Trust Deed, the Index Securities and/or the cash equivalent of the Index Securities constituting the Application Basket as have been vested in the Trustee and/or cash received by or on behalf of the Trustee in connection with the relevant Creation Application (in either case in respect of such cancelled Units) shall be redelivered to the Participating Dealer (excluding interest) and the relevant Units shall be deemed for all purposes never to have been created and the relevant Participating Dealer therefore shall have no right or claim against the Manager, the Trustee and/or the Registrar in respect of such cancellation provided that:

- (a) the Manager may charge the relevant Participating Dealer (for the account of the Trustee and/or the Registrar) an Application Cancellation Fee;
- (b) the Manager may at its absolute discretion require the Participating Dealer to pay to the account of the relevant Sub-Fund, in respect of each Unit so cancelled Cancellation Compensation, being the amount (if any) by which the Issue Price of each such Unit exceeds the Redemption Value which would have applied in relation to each such Unit if a Participating Dealer had, on the date on which such Units are cancelled, made a Redemption Application in accordance with the provisions of the Trust Deed, together with charges, expenses and losses incurred by the Sub-Fund as a result of any such cancellation;
- (c) the Transaction Fee, Extension Fee (if applicable) and/or Duties and Charges in respect of such Creation Application shall remain due and payable (notwithstanding that the Creation Application shall

be deemed to never have been made) and once paid shall be retained by and for the benefit of the Trustee and/or the Registrar; and

- (d) no previous valuations of the Deposited Property shall be re-opened or invalidated as a result of the cancellation of such Units.

13.5 The Manager's Discretion to Accept Cash Collateral for Creation and Issue of Units

If the Manager determines in its discretion (following an Application by a Participating Dealer) that any Index Security, included in an Application Basket is likely to be unavailable for delivery or available in insufficient quantity for delivery upon the creation of any Application Unit by a Participating Dealer, then the Manager shall have the right in its discretion to accept cash equal to or in excess of the market value at the Valuation Point for the relevant Dealing Day of such Security in lieu of accepting such Index Security as constituting part of the Creation Application.

If the Manager (following an Application by a Participating Dealer) is satisfied upon a Creation Application by a Participating Dealer that the relevant Participating Dealer is restricted by regulation or otherwise from investing or engaging in a transaction in any Security, the Manager shall have the right in its discretion to accept cash equal to or in excess of the market value at the Valuation Point for the relevant Dealing Day of such Security in lieu of accepting such Security constituting part of the relevant Creation Application.

In either scenarios above, the Manager shall be entitled in its discretion to charge (for the account of the Trust or Sub-Fund) to the applicant of any Units for which cash is paid in lieu of delivering any Security in accordance with the Trust Deed such additional sum as represents the appropriate provision for Duties and Charges and any incidental costs associated with the creation of Units (including but not limited to bid/ask spread and price slippage).

13.6 Procedures for Redemption of Units via SGX-ST

Investors who wish to dispose of less than an Application Unit size (as specified in the relevant Appendix) may do so by trading the Units on the SGX-ST. In the case of an investor who has purchased Units with monies from his SRS Account, any monies payable to such investor in respect of such Units shall be paid by transferring the monies to the relevant bank for credit of the investor's SRS Account or otherwise in accordance with the provisions of any applicable law, regulations or guidelines. In the event that the SRS Account has been closed, the monies shall be paid to the investor in cash or otherwise in accordance with any applicable law, regulations or guidelines.

Further, in the event that the Units cease at any time to be listed on the SGX-ST and any other stock exchange on which the Units may be listed or quoted on for a continuous period of 30 days, subject to paragraph 18 "Suspension of Dealings", the Manager may, within 14 days (or such other period as may be prescribed by the MAS or SGX-ST) from the end of such 30-day period, commence accepting redemption requests directly from investors subject to the provisions of the Trust Deed, and in the event that the Units are subsequently re-listed on the SGX-ST or a stock exchange, the Manager may, on reasonable notice given to investors, again require redemption requests to be made only through Participating Dealers (for Application Unit size) or SGX-ST (for Units less than an Application Unit size).

13.7 Procedures for Redemption of Application Unit Size

Only Participating Dealers may apply directly to the Registrar to redeem Units. The Manager shall have the exclusive right, at any time and from time to time following a Redemption Application made by a Participating

Dealer in accordance with the Trust Deed, the relevant Participation Agreement and the Operating Guidelines, instruct the Trustee in writing to effect a reduction of the Deposited Property of the relevant Sub-Fund on the relevant Settlement Day by requiring the Trustee to cancel the number of Units specified in such notice.

An application for the redemption and cancellation of Units shall only be made or accepted (as the case may be) on a Dealing Day, shall only be in respect of Units constituting an Application Unit size thereof and shall only be accepted if made by or through a Participating Dealer in accordance with the terms of the Trust Deed and the relevant Participation Agreement.

In the case of the Phillip SING Income ETF, the Redemption Value shall be based on forward pricing which means that the Redemption Value of the Units shall not be ascertainable at the time of application to redeem Units.

In the case of the Phillip SGD Money Market ETF, the Redemption Value shall be based on historical pricing basis which means that the Redemption Value shall be ascertainable at the time of application to redeem Units. The Redemption Value will be determined at 8:30 a.m. (Singapore time) on the Dealing Day immediately preceding the date of redemption of Units.

If a Redemption Application is received and accepted by the Manager with a trade date specified on a day which is not a Dealing Day, or with no trade date specified or after the Dealing Deadline on a Dealing Day, that Redemption Application shall be carried forward and deemed to be received at the opening of business on the next following Dealing Day, which shall be the relevant Dealing Day for the purposes of that Redemption Application.

The Manager shall, on receipt of a valid Redemption Application for a particular Sub-Fund from a Participating Dealer which complies with the requirements of the Trust Deed, effect the redemption of the relevant Units and transfer to the Participating Dealer either (a) the appropriate number of Index Securities constituting the Application Basket for the relevant Units or (b) a cash amount equivalent to the Application Basket Value for the relevant Units; plus, where the Cash Component is a positive value, a cash payment equivalent to the amount of the Cash Component. If the Cash Component is a negative value, the Participating Dealer shall be required to make a cash payment equivalent to the amount of the Cash Component (expressed as a positive figure) to or to the order of the Trustee. In the event that the relevant Sub-Fund has insufficient cash to pay any cash payable, the Manager may effect the sale of all or some of the Deposited Property of the relevant Sub-Fund, or borrow monies in accordance with the Trust Deed, to provide the cash required.

To be effective, a Redemption Application must:

- (a) be given by a Participating Dealer in accordance with the Trust Deed, the relevant Participation Agreement and the relevant Operating Guidelines;
- (b) specify the number of Units which is the subject of the Redemption Application; and
- (c) include the certifications required in the Operating Guidelines (if any) in respect of redemptions of Units, together with such certifications and opinions of counsel (if any) as the Trustee and the Manager may consider necessary to ensure compliance with applicable securities and other laws in relation to the redemption of Units which are the subject of the Redemption Application.

Subject to the Trust Deed, a Redemption Application once given cannot be revoked or withdrawn without the consent of the Manager.

The Manager may deduct from and set off against any cash amount payable to a Participating Dealer on the redemption of Units such sum (if any) which represents the appropriate provision for Duties and Charges, any incidental costs associated with the redemption of Units (including but not limited to bid/ask spread and price slippage), the Transaction Fee and the Extension Fee (if applicable). To the extent that the cash amount is insufficient to pay such Duties and Charges, any incidental costs associated with the redemption of Units (including but not limited to bid/ask spread and price slippage), the Transaction Fee and the Extension Fee (if applicable) payable on such redemption the Participating Dealer shall promptly pay the shortfall in base currency for the Sub-Fund to or to the order of the Trustee. The Trustee shall not be obliged to deliver (and shall have a general lien over) the Index Securities constituting the Application Basket, if applicable, to be transferred in respect of the relevant Redemption Application until such shortfall and any cash amount payable by the Participating Dealer under the Trust Deed, the Transaction Fee and the Extension Fee (if applicable) are paid in full in cleared funds to or to the order of the Trustee.

Unless specifically requested to do so by the Participating Dealer concerned, not later than one month after the relevant Dealing Day, the Trustee shall be under no obligation to check the calculation of the Redemption Value in connection with any redemption or cancellation of Units but shall be entitled at any time before the audited accounts of the Trust, covering the relevant Dealing Day, have been prepared, to require the Manager to justify its calculation of the Redemption Value.

Any Index Securities transferable and cash payable shall be transferred and paid on the Settlement Day in accordance with the Trust Deed provided that a Redemption Application duly signed by a Participating Dealer (to the satisfaction of the Manager and, where any amount is to be paid by telegraphic transfer to a bank account in Singapore, verified in such manner as may be required by, and to the satisfaction of, the Trustee) has been received in accordance with the Operating Guidelines and provided further that the Trustee shall have received the full amount of any cash amount payable to the Participating Dealer and any Duties and Charges, any incidental costs associated with the redemption of Units and the Transaction Fee and the Extension Fee (if applicable) payable have been deducted or otherwise paid in full.

On the relevant Settlement Day in relation to an effective Redemption Application:-

- (a) the Units, which are the subject of the Redemption Application, shall be redeemed and cancelled;
- (b) the Deposited Property shall be reduced by the cancellation of those Units but, for valuation purposes only, such Units shall be deemed to have been redeemed and cancelled after the Valuation Point as at the Dealing Day on which the Redemption Application was received; and
- (c) the name of the Holder of such Units shall be removed from the Register in respect of those Units on the relevant Settlement Day, and

the Trustee shall, if applicable, transfer the Index Securities constituting the Application Basket relevant to the Redemption Application out of the Deposited Property of the relevant Sub-Fund to the Participating Dealer or, if applicable, pay the cash amount equivalent to the Application Basket Value and, where required under the Trust Deed, shall pay any cash amount (with such deductions as are permitted by the Trust Deed) in accordance with and subject to the provisions of the Trust Deed as if the same were a distribution payable to the relevant Participating Dealer

No Index Security shall be transferred and no cash amount shall be paid in respect of any Redemption Application unless Units, which are the subject of the Redemption Application, have been delivered to the Trustee free and clear of any encumbrance for redemption by such time on the Settlement Day as the Trustee and the Manager shall for the time being prescribe for Redemption Applications generally.

Payment will be made within 7 Business Days after the receipt and acceptance of the Redemption Application unless the realisation of Units has been suspended in accordance with paragraph 18 “Suspension of Dealings”.

Numerical example of the amount of redemption proceeds payable in the case of a cash Redemption Application

The following is an illustration of the redemption proceeds a Participating Dealer will receive in making a cash Redemption Application based on one Application Unit of 50,000 Units and a notional Redemption Value per Unit of S\$1.200 minus Duties and Charges of S\$50 and the Transaction Fee of S\$450. Please note that these figures are for illustration purposes only. The actual fees and charges payable for each Sub-Fund are provided in the relevant Appendix relating to each Sub-Fund.

(50,000 Units	x	S\$1.200)	-	S\$50	-	S\$450	=	S\$59,500
Number of Units proposed to be redeemed		Redemption Value per Unit		Duties and Charges		Transaction Fee		Redemption Proceeds

Note: The above example is for illustrative purposes only and should not be taken as any forecast of future performance. Investors redeeming through a Participating Dealer (whether directly or through a stockbroker) should note that there may be other additional fees and charges (including brokerage fees and charges) payable to the Participating Dealer, and that the Participating Dealer may ultimately pass on fees and charges which it paid to the Manager and/or the Trustee for the Redemption Application to the end investors. Investors should consult the relevant Participating Dealer for details on all additional fees and charges payable by investors.

13.8 Cancellation of Redemption Application of Units and Extension of Settlement Period

In the event that Units, which are the subject of a Redemption Application, are not delivered to the Registrar for redemption in accordance with the foregoing:

- (a) the Manager may charge the relevant Participating Dealer (for the account of the Trustee and/or the Registrar) an Application Cancellation Fee;
- (b) the Manager may at its discretion require the Participating Dealer to pay to the account of the Sub-Fund, in respect of each Unit so cancelled Cancellation Compensation, being the amount (if any) by which the Redemption Value of each such Unit is less than the Issue Price which would have applied in relation to each such Unit if the Participating Dealer had, on the final day permitted for delivery of Units which are the subject of the Redemption Application, made a Creation Application in accordance with the Trust Deed plus any other amount as the Manager reasonably determines as representing any charges, expenses and losses suffered by the Sub-Fund as a result of such cancellation;
- (c) the Transaction Fee, the Extension Fee (if applicable) and/or Duties and Charges in respect of such Redemption Application shall remain due and payable (notwithstanding that the Redemption Application shall be deemed to never have been made) and once paid, shall be retained by and for the benefit of the Trustee and/or the Registrar; and
- (d) no previous valuations of the Deposited Property shall be re-opened or invalidated as a result of an unsuccessful Redemption Application.

The Manager with the approval of the Trustee, may at its discretion extend the settlement period, such extension to be on such terms and conditions (including as to the payment of an Extension Fee to the Manager or the Trustee or their Connected Persons or otherwise as it may determine) as the Manager with the approval of the Trustee, may determine but, in any event, not later than one month from the receipt of an effective Redemption Application unless the Market(s) in which a substantial portion of investments of the relevant Sub-Fund is made is subject to legal or regulatory requirements (such as foreign currency controls) thus rendering the payment of redemption proceeds within the aforesaid time period not practicable. In such case, subject to all applicable legal and regulatory requirements, payments may be delayed but the extended time frame for the payment of the redemption proceeds shall reflect the additional time needed in light of the specific circumstances in the relevant Market(s).

The Manager may charge a Transaction Fee in respect of Redemption Applications and may on any day vary the amount of the Transaction Fee it charges (but not as between different Participating Dealers). The Transaction Fee shall be paid by or on behalf of the Participating Dealer submitting the Redemption Application(s) (and may be set off and deducted against any cash amount due to the Participating Dealer in respect of such Creation Application(s)) for the benefit of the Registrar and/or the Trustee.

14. DIRECTED CASH DEALING

Where a Participating Dealer subscribes or redeems in cash, the Manager may at its sole discretion (but shall not be obliged to) transact with a broker/dealer nominated by the Participating Dealer. Should the nominated broker/dealer default on, or change the terms for, any part of the transaction, the relevant Participating Dealer shall bear all the associated risks and costs. In such circumstances, the Manager has the right to transact with another broker/dealer and amend the terms of the Creation Application or Redemption Application to take into account the default and the changes to the terms.

15. NO CERTIFICATES

Certificates will not be issued in respect of Units in the Sub-Funds. Units will be deposited, cleared and settled by the CDP, and held in book-entry form. CDP is the registered owner (i.e. the sole Holder on record) of all outstanding Units deposited with the CDP and is therefore recognised as the legal owner of such Units. Investors owning Units are beneficial owners as shown on the records of CDP or the Participating Dealers (as the case may be).

16. DETERMINATION OF NET ASSET VALUE

The Net Asset Value of each Sub-Fund will be determined by the Fund Administrator as at each Valuation Point applicable to the relevant Sub-Fund, which may be different from the close of any Market, by calculating the value of the assets of the relevant Sub-Fund and deducting the liabilities of the relevant Sub-Fund, in accordance with the terms of the Trust Deed.

Set out below is a summary of how the assets of the relevant Sub-Fund are valued, subject to the provisions of the Code:

- (a) Securities that are quoted, listed, traded or dealt in on any Market shall unless the Manager (in consultation with the Trustee) determines that some other method is more appropriate and such alternative method has been agreed to by the Trustee and save in the case of the Phillip SGD Money Market ETF, be valued by reference to the price appearing to the Manager to be the official closing price or last known transacted price on the relevant Market, or the last transacted price on the relevant Market as at the Valuation Point in respect of the Dealing Day on which the value is to be determined

or, if there be no such official closing price, last known transacted price or last transacted price, the value shall be calculated by reference to the last traded price on a Market as the Manager may consider in the circumstances to provide fair criterion, provided that (i) if a Security is quoted or listed on more than one Market, the Manager shall adopt the relevant price quoted on the Market which in its opinion provides the principal market for such Security; (ii) if prices on that Market are not available at the relevant time, the value of the Securities shall be certified by such firm or institution making a market in such investment as may be appointed for such purpose by the Manager; (iii) interest accrued on any interest-bearing Securities shall be taken into account, unless such interest is included in the quoted or listed price; and (iv) the Manager and the Trustee shall be entitled to use and rely on electronic price feeds from such source or sources as they may from time to time determine, notwithstanding that the prices so used are not the official closing prices or last traded prices as the case may be;

- (b) the value of each interest in any unlisted mutual fund corporation or unit trust shall be the latest available net asset value per share or unit in such mutual fund corporation or unit trust or if not available or appropriate, the last available bid or offer price for such unit, share or other interest;
- (c) except as provided for in paragraph (a)(iii) or (b) and save in the case of the Phillip SGD Money Market ETF, the value of any investment which is not listed, quoted or ordinarily dealt in on a Market shall be the initial value thereof equal to the amount expended out of the relevant Sub-Fund in the acquisition of such investment (including, in each case the amount of stamp duties, commissions and other acquisition expenses) provided that the Manager may at any time in consultation with the Trustee and shall at such times or at such intervals as the Trustee shall request cause a revaluation to be made by a professional person approved by the Trustee as qualified to value such investments (which may, if the Trustee agrees, be the Manager);
- (d) cash, deposits and similar investments shall be valued at their face value (together with accrued interest) unless, in the opinion of the Manager in consultation with the Trustee, any adjustment should be made to reflect the value thereof;
- (e) in the case of the Phillip SGD Money Market ETF, the value of any Security whether listed, quoted, unquoted or ordinarily dealt in on a Market, shall be valued at its purchase cost after adding or deducting an adjustment factor which is derived by amortising (using the straight line method) the difference between the purchase cost and the redemption value on maturity over the remaining period (calculated in number of days) to maturity (the “**Adjustment Factor**”). The Adjustment Factor will be added (where the purchase cost is less than the redemption value on maturity) or deducted (where the purchase cost is more than the redemption value on maturity) to the purchase cost of such Security. For the purpose of this paragraph, “purchase cost” means the amount expended out of the Phillip SGD Money Market ETF in the acquisition of any Security (including, in each case the amount of stamp duties, commissions and other acquisition expenses); and
- (f) notwithstanding the foregoing, the Manager in consultation with the Trustee may adjust the value of any investment if, having regard to relevant circumstances, it determines that such adjustment is more appropriate to fairly reflect the value of the investment.

The Fund Administrator will perform any currency conversion at the rates which the Trustee and the Manager deem appropriate from time to time.

The above is a summary of the key provisions of the Trust Deed with regard to how the various assets of the relevant Sub-Fund are valued.

Any changes by the Manager to the method of determining the Net Asset Value as provided in Schedule 1 of the Trust Deed will require the prior written approval of the Trustee, and the Trustee shall determine if the Holders should be informed of any such change.

17. ISSUE PRICE AND REDEMPTION VALUE

The Issue Price of Units, created and issued pursuant to a Creation Application, shall be the Net Asset Value per Unit truncated to three decimal places or to such other truncation or rounding as the Manager may from time to time determine with the approval of the Trustee.

The Manager may, subject to the prior written approval of the Trustee, change the method of determining the Issue Price of a Unit as provided under the Trust Deed, and the Trustee shall determine if the Holders, should be informed of any such change.

The Redemption Value of Units tendered for redemption and cancellation shall be the Net Asset Value per Unit truncated to three decimal places or to such other truncation or rounding as the Manager may from time to time determine with the approval of the Trustee.

The Manager may, subject to the prior written approval of the Trustee, change the method of determining the Redemption Value of a Unit as provided under the Trust Deed, and the Trustee shall determine if the Holders, should be informed of any such change.

18. SUSPENSION OF DEALINGS

Subject to the provisions of the Code, the Manager shall, after giving notice to the Trustee, have the right to suspend the creation and/or redemption of Units and/or delay the payment of any monies and transfer of any Securities in respect of any Redemption Application in the following circumstances:

- (a) during any period when trading on the SGX-ST or any other Recognised Stock Exchange is closed;
- (b) during any period when trading on the SGX-ST or any other Recognised Stock Exchange is restricted or suspended;
- (c) during any period when a Market on which a Security (that is a component of the Index for the relevant Sub-Fund) has its primary listing, or the official clearing and settlement depository (if any) of such Market, is closed;
- (d) during any period when dealing on a Market on which a Security (that is a component of the Index for the relevant Sub-Fund) has its primary listing is restricted or suspended;
- (e) during any period when, in the opinion of the Manager, settlement or clearing of Securities in the official clearing and settlement depository (if any) of such Market is disrupted;
- (f) during the existence of any state of affairs as a result of which delivery or purchase of Securities or disposal of investments for the time being comprised in the relevant Sub-Fund cannot, in the opinion of the Manager, be effected normally or without prejudicing the interests of Holders of the relevant Sub-Fund;
- (g) during any period when the Index for the relevant Sub-Fund is not compiled or published;

- (h) during any breakdown in any of the means normally employed in determining the Net Asset Value of the relevant Sub-Fund or the Net Asset Value per Unit of the relevant Class or when for any other reason the Value of any Securities or other property for the time being comprised in the relevant Sub-Fund cannot, in the opinion of the Manager, reasonably, promptly and fairly be ascertained;
- (i) during any period when the determination of the Net Asset Value of the relevant Sub-Fund is suspended pursuant to the Trust Deed;
- (j) any 48 hours period (or such longer period as the Manager and the Trustee may agree) prior to the date of any meeting of Holders, or any adjourned meeting thereof;
- (k) during any period when the business operations of the Manager, the Trustee, the Custodian or any agent of the Trustee on which the Trustee relies to effect the creation/redemption of Units in the relevant Sub-Fund are substantially interrupted or closed as a result of or arising from pestilence, acts of war, terrorism, insurrection, revolution, civil unrest, riot, strikes or acts of God;
- (l) during any period when the market value or fair value of a material portion of the relevant Sub-Fund's Deposited Property cannot be determined;
- (m) during any period when the dealing of Units is suspended pursuant to any order or direction issued by the MAS; or
- (n) during any circumstances as may be required under the provisions of the Code.

Subject to the provisions of the Code, a suspension of the determination of the Net Asset Value shall terminate upon the earlier of:

- (a) the Manager declaring the suspension is at an end; or
- (b) the first Dealing Day on which (i) the condition giving rise to the suspension has ceased to exist and (ii) no other condition under which suspension is authorised under the Trust Deed exists.

Whenever the Manager declares such a suspension, it shall as soon as may be practicable after any such declaration and at least once a month during the period of such suspension, publish an announcement on its website containing information about the suspension of the determination of the Net Asset Value and/or suspension of dealings. Such suspension will also be publicly announced on the SGXNET.

No Units will be created or issued during any period of suspension. The Manager may at any time by notice to the Trustee and the MAS, suspend the issue of Units if, as a result of the issue of such Units, a Sub-Fund would breach a provision of the Code Guidelines, and the relevant provisions relating to suspension of the right of Holders to redeem Units shall also apply in accordance with the provisions of the Trust Deed.

19. DISTRIBUTION POLICY

The Manager will adopt a distribution policy for each Sub-Fund as set out in the relevant Appendix.

The Manager may make distributions out of distributable income and/or the capital of the Sub-Fund. Distributions (whether out of income and/or capital) may have the effect of lowering the Net Asset Value of the Sub-Fund and this will be reflected in the Redemption Value of the Units. Moreover, distributions out of capital may amount to a reduction of a Holder's original investment. Holders redeeming their Units may

therefore receive an amount less than their initial investment. Such distributions may also result in reduced future returns to Holders.

Distributions will only be paid to the extent that they are available for distribution pursuant to the Trust Deed. Distributions are not guaranteed and are subject at all times to the Manager's discretion.

On a distribution, the Trustee, in accordance with the instructions of the Manager, will allocate the amount available for distribution and will pay such amount to the CDP who will in turn allocate and make the necessary payment to the Holders based on the number of Units held by each Holder on the record of the CDP or its depository agents.

Amounts to be distributed in respect of each Unit shall be rounded to the nearest S\$0.01 per Unit. Subject to the Trust Deed, any unclaimed distributions payable to a Holder may at the expiration of 6 years from the date upon which the same became payable be paid into court subject to the right of the Trustee to deduct therefrom any expenses it may incur in making such payment.

20. FEES, CHARGES AND EXPENSES

20.1 Manager's Fee

The Manager is entitled to receive a management fee for each Sub-Fund, accrued daily and calculated as at each Dealing Day and payable monthly in arrears. The current management fee percentage in respect of each Sub-Fund is set out in the relevant Appendix.

Under the terms of the Trust Deed, the Manager may, on giving not less than one month's notice to the Trustee and the Holders of the relevant Sub-Fund, increase the rate of the management fee payable up to the maximum rate as permitted by the Trust Deed without the sanction of an extraordinary resolution.

20.2 General Expenses

Any promotional expenses incurred by any marketing agents and any fees imposed by such marketing agents on their customers investing in a Sub-Fund will not be paid (either in whole or in part) out of the assets of the Sub-Fund.

All the expenses incurred in connection with the convening of meetings of Holders and all other transactional costs and operating costs (relating to the administration of a Sub-Fund) shall be paid out of the assets of the Sub-Fund.

The cost and expenses for the preparation of this Prospectus and any supplementary, replacement or updated prospectus, trust deed and any deeds supplemental or amendment and restating deeds, product highlights sheets, reports and/or other statements to Holders will be borne by the relevant Sub-Fund(s).

The costs of establishing the Trust and the Phillip SING Income ETF (which shall not exceed S\$250,000) may be paid out of the Deposited Property of the Phillip SING Income ETF and may be amortised over a period of up to 5 years from the date of the first issue of Units of the Phillip SING Income ETF.

Trustee’s fee	As specified in the relevant Appendix of a Sub-Fund

21. REPORTS AND ACCOUNTS

The financial year-end of the Trust is 31 December every year. Audited accounts and the annual report will be prepared and made available on the Manager's website at www.phillipfunds.com within three months of each financial year-end (unless otherwise waived or permitted by the MAS). Semi-annual unaudited accounts and the semi-annual report will be prepared and made available on the Manager's website at www.phillipfunds.com within two months of the end of the period covered by the relevant accounts and report (unless otherwise waived or permitted by the MAS). Printed copies of the audited accounts and annual report, semi-annual unaudited accounts and the semi-annual reports are not sent to Holders. Holders may obtain electronic copies of these accounts and reports from the Manager's website at www.phillipfunds.com. However, Holders who would like to receive printed copies of the accounts and reports may submit the relevant request to the Manager. The Trustee will also make available, or cause to be made available, hardcopies of the accounts and reports to any Holder who requests for them within 2 weeks of any request from such Holder (or such other period as may be permitted by the MAS). The contents of the reports will comply with the requirements of the Code and the Listing Rules.

Copies of the audited accounts, the annual reports, the semi-annual unaudited accounts and the semi-annual reports will also be made available on SGXNET.

22. ANNOUNCEMENT OF MATERIAL INFORMATION

The Manager will arrange for all material information that affects the Trust to be announced on SGXNET and on the Manager's website at www.phillipfunds.com.

23. TRUST DEED

The Trust is established under Singapore law by the Trust Deed made between the Manager and the Trustee. All Holders are entitled to the benefit of, are bound by and are deemed to have notice of, the provisions of the Trust Deed. In the event of any conflict between any of the provisions of this Prospectus and those of the Trust Deed or Participation Agreement, the provisions of the Trust Deed or the Participation Agreement shall prevail. The Trust Deed contains provisions for the indemnification of the Trustee and the Manager and their respective agents and their relief from liability in certain circumstances. Holders and intending applicants are advised to consult the terms of the Trust Deed. All material amendments to the Trust Deed will be announced on the SGXNET.

24. MODIFICATION OF TRUST DEED

The Trustee and the Manager may by deed supplemental or restated to the Trust Deed jointly modify, alter or add to the provisions of the Trust Deed provided that in the opinion of the Trustee such modification, alteration or addition (i) does not materially prejudice the interests of Holders in any Sub-Fund and does not operate to release to any material extent the Trustee or the Manager from any responsibility to the Holders in the relevant Sub-Fund, or (ii) is necessary in order to comply with applicable fiscal, statutory or official requirements (whether or not having the force of law) or (iii) is to be made to remove obsolete provisions or to correct manifest errors. In all other cases modifications require the sanction of an extraordinary resolution of the Holders affected passed at separate meetings of the Holders of Units in each Sub-Fund affected by such modification, alteration or addition provided that where, in the opinion of the Manager and the Trustee, all Holders of Units in all Sub-Funds are affected in the same way, then such sanctions may be by way of an extraordinary resolution passed at a meeting of Holders which may be attended by the Holders of Units in all of the Sub-Funds.

25. VOTING RIGHTS

The Trustee or the Manager may (and the Manager shall at the request in writing of Holders together registered as holding not less than one-tenth in value of the Units in issue) at any time convene a meeting of Holders, of Units of any Class or Sub-Fund at such time and place as it may think fit.

These meetings may be used to modify the terms of the Trust Deed, including to increase the maximum fees payable to the service providers, to remove the Trustee or to terminate the Trust or any Sub-Fund at any time. Such amendments to the Trust Deed must be passed by a 75% majority of the votes cast. For meetings to pass ordinary resolutions, Holders will be given at least 14 calendar days' notice (inclusive of the day on which the notice is served or deemed to be served and of the day for which the notice is given) of such meeting. For meetings to pass extraordinary resolutions, Holders will be given at least 21 calendar days' notice (inclusive of the day on which the notice is served or deemed to be served and of the day for which the notice is given) of such meeting.

The Trustee, the Manager, the Custodian and their Connected Persons are prohibited from voting their beneficially owned Units at, or counted in the quorum for, the meeting at which they have a material interest (including, for the avoidance of doubt, interested party transactions (as defined in the Listing Rules and/or the listing rules of other Recognised Stock Exchange) in the business to be contracted).

In respect of voting rights where the Manager may face a conflict between its own interest and that of the Holders, the Manager shall cause such voting rights to be exercised in consultation with the Trustee.

26. RESTRICTIONS ON HOLDERS

Every person purchasing Units will be deemed to have represented, agreed and acknowledged that it is not an Unauthorised US Person.

The Manager and/or the Trustee shall have power to impose such restrictions as it may think necessary for the purpose of ensuring that no Units are acquired or held directly, indirectly or beneficially by:-

- any person in breach of the law or requirements of any country or governmental authority or any stock exchange on which the Units are listed;
- any person or persons in circumstances (whether directly or indirectly affecting such person or persons and whether taken alone or in conjunction with any other persons, connected or not, or any other circumstances appearing to the Manager to be relevant) which in the opinion of the Manager might result in the Trust or any Sub-Fund, the Trustee or the Manager incurring any liability to taxation or suffering any other potential or actual pecuniary disadvantage or would subject the Manager, the Trustee, the Trust or any Sub-Fund, to any regulatory compliance which the Trust or the relevant Sub-Fund, the Trustee or the Manager might not otherwise have incurred, suffered or been subject to; or
- any person in breach of, or reasonably deemed by the Manager to be in breach of, any applicable anti-money laundering or FATCA or identification verification or national status or residency requirements imposed on him (whether under the terms of any underlying investment arrangement or otherwise) including without limitation the issue of any warranty or supporting document required to be given to the Trustee, the Registrar or the Manager.

If it shall come to the notice of the Manager or the Trustee that any Units are owned directly, indirectly or beneficially by any person in contravention of any such restrictions as are referred to in the Trust Deed, the

Manager or the Trustee may give notice to such person requiring him to transfer such Units to a person who would not thereby be in contravention of any such restrictions as aforesaid or to request in writing the redemption of such Units in accordance with the provisions of the Trust Deed. If any person upon whom such a notice is served pursuant to the Trust Deed does not within 30 days after such notice transfer such Units as aforesaid or establish to the satisfaction of the Manager or the Trustee (whose judgment shall be final and binding) that such Units are not held in contravention of any such restrictions he shall be deemed upon the expiration of 30 days after such notice to have requested in writing the redemption of all such Units pursuant to the provisions of the Trust Deed.

A person who becomes aware that he is holding or owning Units in contravention of any such restrictions as are referred to in the Trust Deed shall forthwith either transfer all such Units to a person who would not thereby be in contravention of any such restrictions as aforesaid or request in writing the redemption of all such Units pursuant to the provisions of the Trust Deed.

The Manager or the Trustee may at any time and from to time, by notice in writing, call upon any person holding directly or beneficially any Units to provide to the Manager or the Trustee such information and evidence as they shall require upon any matter concerned with or in relation to such person's holding of or interest in, or the ultimate beneficial owners of (or intermediate holders or owners of), the Units. The exercise by the Manager or the Trustee of the powers conferred by Clauses 3.4, 3.5, 3.6 or 7.23 of the Trust Deed shall not be questioned or invalidated in any case on the ground that there was insufficient evidence of ownership of Units by any person or that the true ownership of any Units was otherwise than appeared to the Manager or the Trustee at the relevant date, provided that the said powers shall have been exercised in good faith. Save where the Manager or the Trustee is found by a court of competent jurisdiction that it has been fraudulent, in wilful default or negligent, the Manager or the Trustee shall have no liability whatsoever to any person for any special, direct, indirect, consequential or any other damages (including lost profits) on account of anything done or omitted by the Manager or Trustee in exercising its duties and right to restrict or prevent ownership of Units by an Unauthorised US Person or any person falling under Clause 3.4 of the Trust Deed.

27. TRANSFER OF UNITS

Units held by Holders may be transferred by an instrument in writing and must be signed (and, in the case of a body corporate, signed on behalf of or sealed) by the transferor and the transferee. The transferor shall be deemed to remain the Holder of the Units transferred until such time as the name of the transferee is entered in the Register pursuant to the transfer. For so long as the Units are listed on the SGX-ST, transfers of Units between depositors (i.e. direct account holders with the CDP and depository agents whose names are entered in CDP's register in respect of Units held by them) shall be effected electronically through the CDP making an appropriate entry in CDP's electronic register of the Units that have been transferred in accordance with CDP trading requirements, and the above paragraph will not apply to such transfers.

28. CONFLICTS OF INTEREST

The Manager may from time to time have to deal with competing or conflicting interests of the Sub-Funds with other funds managed by the Manager. For example, the Manager may make a purchase or sale decision on behalf of some or all of the other funds managed by them without making the same decision on behalf of the Sub-Funds, as a decision whether or not to make the same investment or sale for the Sub-Funds depends on factors such as the cash availability and portfolio balance of the Sub-Funds. The Manager may also make a simultaneous decision to purchase securities on behalf of any other fund, which same securities may be sold by the Manager for the Sub-Funds and vice versa. However, the Manager will use reasonable endeavours at all times to act fairly and in the interests of the Sub-Funds and investors. In particular, after taking into account the availability of cash and relevant investment guidelines of the other funds managed by

the Manager and the Sub-Funds, the Manager will endeavour to ensure that securities bought and sold will be allocated proportionately as far as possible among the Sub-Funds and the other funds managed by the Manager.

The Manager, their directors and related companies may invest in any Sub-Fund. In the event that a conflict of interest does arise, the Manager shall endeavour to ensure that it is resolved fairly and in the interest of investors.

The Manager may also trade with and lend securities to its related corporations and/or any third party. To mitigate any potential conflict of interest, the Manager will conduct the transactions on an arm's length basis. Subject to the Code, the associates of the Trustee may be engaged to provide banking, brokerage or financial services to the Sub-Funds; or buy, hold and deal in any investments; or enter into contracts or other arrangements with the Manager and/or the Trustee and they may make profits from these activities. The Trustee is or may be involved in other financial, investment and professional activities which may on occasion cause conflict of interest within the management of the Sub-Funds. These include trustee and custodial and registrar services and serving as directors, officers, advisers or agents of other funds or other companies, including companies in which the Sub-Funds may invest. The Trustee will ensure that the performance of its duties will not be impaired by any such involvement that it may have. The Trustee shall as soon as practicable and by not more than 90 days after the Manager has indicated its intention to retire, give notice to Holders to convene a meeting of Holders to consider an extraordinary resolution to approve some other person considered by the Trustee to be suitably qualified to act as manager of the Trust.

Any change to the manager of the Trust will be announced forthwith on the SGXNET and on the Manager's website at www.phillipfunds.com.

The Manager shall as soon as practicable after the date when a change of trustee is effective give notice to the Holders of such change of trustee specifying the name and the address of the office of the new trustee in accordance with all applicable legal and regulatory requirements.

33. LIABILITY AND INDEMNITY OF TRUSTEE, MANAGER AND REGISTRAR

Please note that the following paragraphs are extracts from the Trust Deed and investors should refer to the Trust Deed for full details on the clauses relating to exemptions from liability (as well as indemnities) provided to the Trustee and the Manager pursuant to the Trust Deed.

None of the Trustee, the Manager or the Registrar or each of their duly appointed agents or delegates (hereinafter referred to as "**appointees**" for purposes of this paragraph 33 "Liability and Indemnity of Trustee, Manager and Registrar") shall incur any liability in respect of any action taken or thing suffered by them in reliance upon any notice, resolution, direction, consent, certificate, affidavit, statement, certificate of stock, plan of reorganisation or other document of title, or other paper or document believed to be genuine and to have been passed, sealed or signed by the proper parties.

The Trustee, the Manager and each of their appointees may rely upon the established practice and rulings of any Recognised Stock Exchange and any committees and officials thereof on which any dealing in any investment is from time to time effected in determining what shall constitute a good delivery and any similar matters and such practice and rulings shall be conclusive and binding upon all persons under the Trust Deed.

None of the Trustee, the Manager or the Registrar or each of their appointees shall be responsible for acting upon any resolution purporting to have been passed at any meeting of Holders in a particular Sub-Fund or (as the case may be) of all the Holders of Units, in respect whereof minutes shall have been made and signed even though it may be subsequently found that there was some defect in the constitution of the meeting or the passing of the resolution or that for any reason the resolution was not binding upon all the Holders in that Sub-Fund, or (as the case may be) all the Holders of Units.

None of the Trustee, the Manager or the Registrar or each of their appointees shall incur any liability to the Holders or any of them for doing or (as the case may be) failing to do any act or thing which by reason of any provision of any present or future law or regulation made pursuant thereto or of any decree, order or judgment of any court or by reason of any request, announcement or similar action (whether of binding legal effect or not) which may be taken or made by any person or body acting with or purporting to exercise the authority of

any government or regulatory authority (whether legally or otherwise) either they or any of them shall be directed or requested to do or perform or to forbear from doing or performing. If for any reason it becomes impossible or impracticable to carry out the provisions of the Trust Deed, none of the Trustee, the Manager or the Registrar or each of their appointees shall be under any liability therefor or thereby.

The Trust Deed includes indemnities given in favour of the Trustee and the Manager and any indemnity expressly given to the Trustee or to the Manager or each of their appointees in the Trust Deed is in addition to and without prejudice to any indemnity allowed by law.

Nothing in any of the provisions of the Trust Deed shall (i) exempt either the Trustee, the Manager or each of their appointees (as the case may be) from or against any liability to Holders due to its fraud, wilful default or negligence or any liability to Holders imposed by virtue of any Singapore law in relation to its duties nor (ii) indemnify either the Trustee or the Manager (as the case may be) against such liability by Holders or at Holders' expense.

The Trustee and the Manager may act upon any advice of or information obtained from any bankers, accountants, brokers, lawyers, agents or other persons acting as agents or advisers either of the Trustee or of the Manager and shall not be liable for anything done or omitted or suffered in good faith in reliance upon such advice or information.

Any advice or information may be obtained or sent by letter, telegram, facsimile transmission or electronic mail and neither the Trustee nor the Manager shall be liable for acting on any advice or information purported to be conveyed by any such letter, facsimile transmission or electronic mail notwithstanding that the same shall contain some error or shall not be authentic.

None of the Trustee, the Manager or the Registrar or each of their appointees shall be under any liability except such liability as may be expressly imposed by the Trust Deed nor shall any of them (save as herein otherwise appears) be liable for any act or omission of the other of them.

Subject to the terms of the Trust Deed, the Manager and the Trustee and any of their appointees shall be indemnified out of the Deposited Property against any action, costs, claims, damages, liabilities, expenses or demands (other than those arising out of any liability or obligation to the Holders imposed on the Trustee or Manager pursuant to the laws of Singapore or the proper law of the Trust Deed (if different)) to which it may be put as trustee or manager (as the case may be) and for this purpose shall have recourse to the assets of the relevant Sub-Fund in respect of which such action, costs, claims, damages, liabilities, expenses or demands have been made or arose out of or, where such action, costs, claims, damages, liabilities, expenses or demands relate to the Trust as a whole, the Deposited Property or any part thereof. This indemnity, subject to the Trust Deed, shall survive the retirement, removal or discharge of the Trustee or the Manager. For the purposes of such indemnity and reimbursement, the Trustee or the Manager may from time to time realise such property of the Deposited Property in such manner and at such time as the Trustee or the Manager thinks fit upon prior written notice to the Manager or the Trustee, as appropriate.

For the avoidance of doubt, any reference to the Trustee in this paragraph 33 shall be construed to mean the Trustee in its own capacity and, where appropriate, in its capacity as the Registrar of the Trust.

The Trustee or the Manager or the Registrar or any custodian appointed by the Trustee or any Connected Person of those respective parties may contract or enter into any financial, banking or other transaction with one another or with any Holder or any company or body any of whose shares or Securities, financial instruments or investment products form part of any Sub-Fund or may be interested in any such contract or transaction provided that such contract or transaction shall be conducted at arm's length, and the Trustee,

The Trustee shall not be under any obligation to appear in, prosecute or defend any action or suit in respect of the provisions of the Trust Deed or in respect of any Sub-Fund or any part thereof or any corporate or shareholders' action which in its opinion would or might involve it in expense or liability unless the Manager shall so request in writing and the Trustee shall be indemnified out of the Deposited Property of the relevant Sub-Fund to its satisfaction against any costs or expenses in connection with the Trustee appearing, prosecuting or defending such action or suits.

Provided that the Trustee has exercised reasonable care and diligence in the selection, appointment and ongoing monitoring of any agent, nominee, custodian, co-custodian, sub-custodian or delegate (each a "**Correspondent**"), the Trustee shall not be liable for any loss to the Trust (including any Sub-Fund) incurred by reason of any act or omission of, or liquidation, insolvency or bankruptcy of any Correspondent any Correspondent, save where such loss arises directly as a result of the fraud, wilful default or negligence of the Trustee.

Notwithstanding any other provision of the Trust Deed under no circumstances shall the Trustee have any liability:

- (a) for any loss, damage, claim, cost or expense resulting from or caused by the liquidation, bankruptcy, insolvency, administration, act or omission of, any prime broker or central securities depository or clearing system or settlement system or clearing system depository or any other person with which any authorised investments and other property or assets acquired in relation to any Sub-Fund are deposited;
- (b) for any loss, damage, claim, cost or expense resulting from or caused by the authorised investments and other property or assets acquired in relation to any Sub-Fund which have been placed with any portfolio managers, futures commission merchants, bankers, lenders, agents, nominees, brokers, prime brokers or other intermediaries upon the instructions of the Manager or the Manager's delegates;
- (c) for any loss, damage, claim, cost or expense resulting from or caused by the authorised investments and other property or assets acquired in relation to any Sub-Fund not registered in the name of the Trustee or its nominee; and
- (d) for any loss, damage, claim, cost or expense resulting from or caused by the insolvency of or act or omission of any agent, nominee or custodian not appointed by it.

Subject to the terms of the Trust Deed, the Trustee and the Manager shall not be liable to any person for any indirect or consequential loss, loss of business, goodwill, opportunity or profit or any special or punitive damages of any kind whatsoever; in each case however caused or arising and whether or not foreseeable, even if advised of the possibility of such loss or damage.

In the absence of fraud, wilful default or negligence by the Manager or the Trustee, neither of them shall incur any liability by reason of any loss which any Holder may suffer by reason of any depletion in the Net Asset Value of any Sub-Fund which may result from any borrowing arrangements made hereunder by reason of fluctuations in rates of exchange or otherwise and (save as otherwise expressly provided in the Trust Deed) the Manager and the Trustee and its duly appointed agents shall be entitled to be indemnified out of and have recourse to the relevant Sub-Fund in respect of any liabilities, costs, claims or demands which it may suffer arising directly or indirectly from the arrangements referred to in the Trust Deed.

34. EXCHANGE CLEARANCE AND SETTLEMENT

For the purpose of trading on the SGX-ST, a board lot for Units of the Phillip SING Income ETF and Phillip SGD Money Market ETF will comprise 100 Units and 5 Units respectively.

Upon listing and quotation on the SGX-ST, the Units will be traded under the electronic book-entry clearance and settlement system of CDP. All dealings in and transactions of the Units through the SGX-ST will be effected in accordance with the terms and conditions for the operation of Securities Accounts, as amended from time to time.

CDP, a wholly-owned subsidiary of Singapore Exchange Limited, is incorporated under the laws of Singapore and acts as a depository and clearing organisation. CDP holds securities for its accountholders and facilitates the clearance and settlement of securities transactions between accountholders through electronic book-entry changes in the Securities Accounts maintained by such accountholders with CDP.

34.1 Clearance and Settlement under the Depository System

The Units will be registered in the name of CDP or its nominee and held by CDP for and on behalf of persons who maintain, either directly or through depository agents, Securities Accounts with CDP. Persons named as direct Securities Account holders and depository agents in the depository register maintained by CDP will be treated as Holders in respect of the number of Units credited to their respective Securities Accounts. Investors should note that as long as the Units are listed on the SGX-ST, Units may not be withdrawn from the depository register kept by CDP.

Transactions in the Units under the book-entry settlement system will be reflected by the seller's Securities Account being debited with the number of Units sold and the buyer's Securities Account being credited with the number of Units acquired and no transfer stamp duty is currently payable for the transfer of Units that are settled on a book-entry basis.

Units credited to a Securities Account may be traded on the SGX-ST on the basis of a price between a willing buyer and a willing seller. Units credited into a Securities Account may be transferred to any other Securities Account with CDP, subject to the terms and conditions for the operation of Securities Accounts and a transfer fee payable to CDP (investors should refer to the CDP's website at www.sgx.com for the latest applicable transfer fee). All persons trading in the Units through the SGX-ST should ensure that the relevant Units have been credited into their Securities Account, prior to trading in such Units, since no assurance can be given that the Units can be credited into the Securities Account in time for settlement following a dealing. If the Units have not been credited into the Securities Account by the due date for the settlement of the trade, the buy-in procedures of the CDP will be implemented.

Trading of the Units on the SGX-ST will be carried out in the currency(ies) as specified in the relevant Appendix, and will be effected for settlement in CDP on a scripless basis. Settlement of trades on a normal "ready" basis on the SGX-ST generally takes place on the second Business Day following the transaction date (or such other period as may be determined by CDP). CDP holds securities on behalf of investors in Securities Accounts. An investor may open a direct account with CDP or a sub-account with any CDP depository agent. A CDP depository agent may be a member company of the SGX-ST, bank, merchant bank or trust company.

34.2 Clearing Fees

A clearing fee and an SGX access fee for trading Units of the Phillip SING Income ETF on the SGX-ST is payable at the rate of 0.0325% and 0.0075% of the transaction value respectively (or such other rate of clearing fee and SGX access fee as the SGX-ST may determine from time to time).

A clearing fee and an SGX access fee for trading Units of the Phillip SGD Money Market ETF on the SGX-ST is payable at the rate of 0.0001% and 0.0001% of the transaction value respectively (or such other rate of clearing fee and SGX access fee as the SGX-ST may determine from time to time).

The clearing fee, access fee, instrument of transfer, deposit fee and unit withdrawal fee may be subject to the prevailing GST.

34.3 Dual Currency Trading

A Sub-Fund may be traded in different currency denominations on the SGX-ST, as specified in the relevant Appendix. Investors can buy and/or sell Units in a currency specified in the relevant Appendix, regardless of the currency in which it was first bought and/or sold.

Unit holdings will be consolidated in investors' CDP accounts so that the total number of Units can be viewed at a glance, for example, 1,000 US\$-denominated Units and 2,000 S\$-denominated Units will be reflected as 3,000 Units in an investor's CDP account.

In most cases, the traded prices in the two currency counters should theoretically be equivalent or close to each other, taking into consideration the prevailing foreign exchange rate. However, in certain cases, due to market supply and demand factors in the respective counters and the market activity of the market makers, the price relationship and difference between the two counters might not necessarily be the foreign exchange rate between both counters.

Investors should refer to the SGX website at www.sgx.com for more information on dual currency trading.

Distributions from Phillip SING Income ETF

Individuals

Individuals (whether resident in Singapore or not) are exempt from Singapore income tax on distributions made by the trustee of any collective investment scheme constituted as a unit trust authorised under Section 286 of the Securities and Futures Act and the units of which are offered to the public for subscription. This tax exemption does not apply to distributions derived by individuals through a partnership in Singapore or from the carrying on of a trade, business or profession.

As Phillip SING Income ETF is a collective investment scheme constituted as a sub-fund of an umbrella unit trust authorised under Section 286 of the Securities and Futures Act and the units of which are offered to the public for subscription, the aforesaid tax exemption will apply to distributions made by Phillip SING Income ETF. Individuals who derive the distributions through a partnership in Singapore or from the carrying on of a trade, business or profession will be subject to tax on distributions of Designated Income at their own applicable tax rates.

Non-individuals

Foreign investors

All distributions of Designated Income to Holders who are “foreign investors” are exempt from Singapore income tax.

A “foreign investor”, in relation to a non-individual, is defined in Section 10(23) of the Income Tax Act as:

- (a) a company which is neither resident in Singapore nor carrying on business through a permanent establishment in Singapore where not less than 80% of the total number of its issued shares are beneficially owned, directly or indirectly, by persons who are not citizens of Singapore and not resident in Singapore; and
- (b) a trust fund where at least 80% of the value of the fund is beneficially held, directly or indirectly, by individuals who are not resident in Singapore or by companies which are foreign investors or by both and, unless waived by the Singapore Minister for Finance or such person as he may appoint, where:
 - (i) the fund is created outside Singapore; and
 - (ii) the trustees of the fund are neither citizens of Singapore nor resident in Singapore, nor do they carry out duties as such trustees through a permanent establishment in Singapore.

In general, any non-Designated Income is subject to a final tax in the hands of the Trustee. Any distributions made out of non-Designated Income will not be subject to further Singapore income tax in the hands of a foreign investor.

Distributions paid by Phillip SING Income ETF out of non-Designated Income that is exempt from income tax will be exempt in the hands of a foreign investor. Non-Designated Income that is exempt from income tax includes Singapore one-tier tax exempt dividend and tax exempt distribution from REITs listed in Singapore.

Other Holders

Other Holders (i.e. those who are neither individuals nor foreign investors) are generally subject to Singapore income tax on the gross amount of the distributions paid out of Designated Income by Phillip SING Income ETF. Such distributions are deemed to be income of such Holders and will be taxed at the Holders' own applicable tax rates. In the case of a corporate Holder, the current income tax rate is 17%. In general, any non-Designated income is subject to a final tax at Phillip SING Income ETF's level. Any distributions made out of non-Designated Income will not be subject to further Singapore income tax in the hands of such Holders.

Distributions paid by Phillip SING Income ETF out of non-Designated Income that is exempt from income tax will be exempt in the hands of such Holders. Non-Designated Income that is exempt from income tax includes Singapore one-tier tax exempt dividend and tax exempt distribution from REITs listed in Singapore.

Deeming of undistributed Designated Income as taxable income to certain Holders

Under Section 10(20B) of the Income Tax Act, any undistributed Designated Income as at the applicable relevant date (which is a date on or after 1 June 2015) will be deemed as income taxable on such relevant date in the hands of certain Holders under the following scenarios:

- (a) the unit trust is dissolved, and is a DUT for the year of assessment for the basis period in which the dissolution occurred;
- (b) the unit trust is not a DUT within the meaning of Section 35 for any year of assessment;
- (c) the trustee fails to elect under Section 35(12B) for Section 35(12) to apply to his income for any year of assessment; or
- (d) the trustee elects under Section 35(12B) for Section 35(12) to apply to his income derived in only a part of the basis period for any year of assessment.

Section 10(20B) of the Income Tax Act applies to the following persons:

- (i) a Holder who is not an individual and not a foreign investor;
- (ii) a Holder who is an individual and not a foreign investor, and who holds the Units for the purposes of a trade, profession or business;
- (iii) a partner who is not an individual and not a foreign investor, of a partnership which is a Holder;
- (iv) a partner who is an individual and not a foreign investor, of a partnership in Singapore which is a Holder.

An individual is not a foreign investor if the individual is resident in Singapore.

Such Holders will be taxed on their proportionate share of the undistributed Designated Income based on the terms of the Trust Deed or their respective holdings in Phillip SING Income ETF as at the applicable relevant date. However, this does not apply to undistributed Designated Income that relates to gains or profits derived from Singapore or elsewhere from the disposal of securities in the case where the Holder is an individual referred to in (ii) and (iv) above.

Upon the approval of the application of the Enhanced-Tier Fund Tax Incentive Scheme (refer below), Phillip SING Income ETF will cease to be a DUT and accordingly, any undistributed Designated Income of Phillip SING Income ETF as at the applicable relevant date (i.e. the day immediately prior to the effective date of the approval) will be deemed as taxable income to certain Holders as described above.

36.2 Phillip Legacy Funds

Taxation of Sub-Funds

The Trust will be applying for the Enhanced-Tier Fund Tax Incentive Scheme (hereinafter referred to as an “**Enhanced-Tier Fund Scheme**”) under to Section 13X of the Income Tax Act. Subject to the approval of the MAS, each of the Sub-Funds, as an Enhanced-Tier Fund, will enjoy tax exemption on Specified Income² (as defined in the Income Tax (Exemption of Income of Prescribed Persons Arising from Funds Managed by Fund Manager in Singapore) Regulations 2010 (the “**Regulations**”)) derived from funds managed in Singapore by the Manager in respect of Designated Investments² (as defined in the Regulations).

The Manager will endeavour to conduct the affairs of the Trust in such a way that it will satisfy the qualifying conditions for the Enhanced-Tier Fund Scheme. Notwithstanding the foregoing, there is no assurance that the Manager will, on an on-going basis, be able to ensure that the Trust will always meet all the qualifying conditions for the Enhanced-Tier Fund Scheme. Upon any such disqualification, the Sub-Funds will be exposed to Singapore tax on its income and gains, wholly or partially as the case may be, at the prevailing corporate tax rate. The Sub-Funds can however, enjoy the tax exemption under the Enhanced-Tier Fund Scheme in any subsequent period if it is able to satisfy the specified conditions in that subsequent period.

Taxable income distribution from REITs listed in Singapore derived by the Sub-Funds will generally be subject to tax withheld at source at the prevailing income tax rate, currently 17%. Such taxable income distribution is not Specified Income and hence, will be subject to tax at the prevailing income tax rate, currently 17% in the hands of the Trustee, the tax liability of which could be offset by the tax withheld at source. Gains or profits derived by the Sub-Funds from the disposal of units in REITs listed in Singapore are Specified Income from Designated Investments.

Distributions made by the Sub-Funds to all Holders will not attract Singapore withholding tax.

Taxation of Holders

Distributions made by the Sub-Funds out of tax-exempt income should be exempt from Singapore income tax in the hands of Holders.

36.3 Disposal or redemption of Units

Singapore does not impose tax on capital gains. Any gains on disposal or redemption of Units are not liable to Singapore income tax provided Units are held as investment assets. Where Units are held as trading assets of a trade or business carried on in Singapore, any gains on disposal or redemption of Units are liable to Singapore income tax under Section 10(1)(a) of the Income Tax Act. Where Units were purchased with the intention or purpose of making a profit by disposal or redemption and not with the intention to be held for

² The list of Specified Income and Designated Investments have been expanded on or after 19 February 2019

long-term investment purposes, any gains on disposal or redemption of Units could be construed as “gains or profits of an income nature” liable to tax under Section 10(1)(g) of the Income Tax Act.

Holders who have adopted or are required to adopt Financial Reporting Standard 109 – Financial Instruments (“**FRS 109**”), Financial Reporting Standard 39 – Financial Instruments: Recognition and Measurement (“**FRS 39**”) or their equivalents under the Singapore Financial Reporting Standard International (“**SFRS(I)**”) for financial reporting purposes may, for Singapore income tax purposes, be required to recognise gains or losses (not being gains or losses in the nature of capital) on Units, irrespective of disposal.

Holders and prospective Holders of the Sub-Funds should consult their own accounting and tax advisers regarding the Singapore income tax consequences of their acquisition, holding or disposal of Units arising from the adoption of FRS 39, FRS 109 or their equivalents under SFRS(I).

B. INVESTMENT OBJECTIVE, APPROACH AND STRATEGY

1. Investment Objective

The investment objective of this Sub-Fund is to replicate as closely as possible, before fees and expenses, the performance of the Morningstar® Singapore Yield Focus IndexSM.

2. Investment Approach

The Manager employs a “passive management” or indexing investment approach designed to track the performance of the Index.

The Manager seeks to achieve this Sub-Fund’s investment objective by investing all or substantially all of this Sub-Fund’s assets in Index Securities in substantially the same weightings as reflected in the Index and aims to deliver an investment performance which closely corresponds to the performance of the Index.

However, various circumstances may make it impossible or impracticable to purchase each component Index Security in such weightings. In those circumstances, the Manager may employ, alone or in combination with, other investment techniques in seeking to closely track the performance of the Index.

The Manager may be unable to purchase each component Index Security in the same proportion as the weightings in the Index if any of the Markets on which such Security has its primary listing is closed or temporarily inaccessible. Such circumstances may make it impossible for the Manager to purchase or sell Index Securities to track the Index accordingly.

If such circumstances were to arise, the Manager may use the Representative Sampling Strategy (as described below), by choosing alternative Securities as the relevant Index Security which has a high level of correlation or a similar valuation or market capitalisation.

As at the date of this Prospectus, the Manager does not intend to invest this Sub-Fund’s assets in commodities and precious metals. The Manager does not intend to invest this Sub-Fund’s assets in unlisted securities on an ongoing basis so long as the Index Securities are listed on the SGX-ST.

As at the date of this Prospectus, the Units of this Sub-Fund are classified as Excluded Investment Products and Prescribed Capital Markets Products.

For so long as the Units of this Sub-Fund are Excluded Investment Products and Prescribed Capital Markets Products, this Sub-Fund does not and will not invest in any product or engage in any transaction which may cause the Units not to be regarded as Excluded Investment Products and Prescribed Capital Markets Products. The Manager may engage in securities lending or repurchase transactions for this Sub-Fund, where such securities lending or repurchase transactions are carried out solely for the purpose of efficient portfolio management and do not amount to more than 50% of the Net Asset Value of this Sub-Fund, and is in line with the Securities and Futures (Capital Markets Products) Regulations 2018 issued by the MAS (as may be amended from time to time). Any securities lending or repurchase transactions which the Manager may engage in will be in accordance with Appendix 1 of the Code.

In the event that the Manager relies on credit ratings issued by credit rating agencies, the Manager will establish a set of internal credit assessment standards and will put in place a credit assessment process to ensure that its investments are in line with these standards. Information on the Manager's credit assessment process will be made available to investors upon request.

3. Investment Strategy

In managing this Sub-Fund, the Manager may adopt either a Replication Strategy or a Representative Sampling Strategy (both as described above). The Manager may swap between the two strategies, without prior notice to investors, in its absolute discretion as often as it believes appropriate in order to achieve the investment objective of this Sub-Fund.

Hence, if the Manager believes that a Replication Strategy is not the most efficient means to track the Index, the Manager may decide to adopt a Representative Sampling Strategy instead.

The Manager will seek to construct the portfolio of this Sub-Fund such that, in the aggregate, its capitalisation, industry and fundamental investment characteristics perform like those of the Index.

As at the date of this Prospectus, this Sub-Fund intends to carry out its investment strategy via a Replication Strategy as described above. However, if the Manager believes that a Replication Strategy is not the most efficient means to track the Index, the Manager may decide to adopt a Representative Sampling Strategy instead.

The Manager may use or invest in FDIs in accordance with the Securities and Futures (Capital Markets Products) Regulations 2018 and Appendix 1 of the Code. Such FDIs may include, but are not limited to futures, options, warrants, forwards, contract for differences, extended settlement contracts, swaps or swap options. Subject to the provisions of the Securities and Futures (Capital Markets Products) Regulations 2018, the Manager may use or invest in FDIs for the purposes of hedging, efficient portfolio management, optimising returns or a combination of all three.

The Manager confirms that the global exposure of this Sub-Fund to FDIs or embedded FDIs will not exceed 100%. Such exposure would be calculated using the commitment approach.

There will be no change to the investment objective and/or investment policy of this Sub-Fund during the 3-year period commencing from 24 September 2018, unless any such change is approved by an extraordinary resolution of Holders in a general meeting or such prohibition on changes to the investment objective and/or investment policy of this Sub-Fund is waived by the SGX-ST. Where there is any change to the investment strategy adopted for this Sub-Fund, such changes will be announced by the Manager through SGXNET. A list of the holdings of this Sub-Fund will be published in the monthly fund factsheet which is available on the Manager's website at www.phillipfunds.com.

In addition to the risk factors described under paragraphs 6 “Risk Factors” and 7 “Risk Factors Relating to the Indices” of this Prospectus, the Index Securities are comprised of stocks listed on the SGX-ST and may be less diversified compared to a broad-based fund, such as a global or regional equity fund. In addition, the Index Securities are exposed to assets in other jurisdictions notwithstanding that such constituents are listed on the SGX-ST. The performance of such stocks is dependent on and affected by economic and political developments, changes in interest rates and perceived trends in stock prices in these markets. Any adverse developments in these foreign markets may impact the performance of such stocks and adversely impact this Sub-Fund's performance.

D. DISTRIBUTION POLICY

To the extent that any distributions will be determined by the Manager, such distributions will be declared to Holders semi-annually in June and December of each year or at such other times as the Manager may determine. B. INVESTMENT OBJECTIVE, APPROACH AND STRATEGY

1. Investment Objective

The investment objective of this Sub-Fund is to seek to provide investment results that closely correspond, before fees and expenses, to the performance of the FTSE SGD 3-month SOR Index or any replacement index which references the SORA and provides for the same or substantially similar exposure as the FTSE SGD 3-month SOR Index.

The FTSE SGD 3-month SOR Index is expected to be discontinued as a result of the expected discontinuation of USD LIBOR, following the announcement by the UK regulatory authorities that the benchmark will not be sustained by regulatory powers after the end of 2021. The Singapore Swap Offer Rate (“**SOR**”) relies on the USD LIBOR in its computation methodology and the likely discontinuation of LIBOR after the end of 2021 directly impacts the future sustainability of the SOR and the FTSE SGD 3-month SOR Index. The Singapore Overnight Rate Average (“**SORA**”) has been identified by the Association of Banks in Singapore and the Singapore Foreign Exchange Market Committee as the alternative interest rate benchmark for the SOR.

¹ A Transaction Fee (which includes the transaction charges and out-of-pocket expenses) is payable by a Participating Dealer to the Trustee and/or the Registrar (as the case may be).

² The Application Cancellation Fee is payable by a Participating Dealer to the account of the Trustee and/or the Registrar on each occasion that a Creation or Redemption Application is cancelled by the Participating Dealer or the Trustee where applicable.

³ The Extension Fee is payable by a Participating Dealer to the Manager and/or the Trustee on each occasion that the Manager, upon a Participating Dealer’s request, grants the Participating Dealer an extended settlement in respect of an Application.

In the event that the SOR is discontinued as mentioned above, the Manager will identify or agree with the Index provider or any other index provider terms for the use of a replacement index which references the SORA and provides for the same or substantially similar exposure as the FTSE SGD 3-month SOR Index. Any such replacement index which may be identified will be notified to Holders via an announcement on SGXNET.

2. Investment Approach

In order to achieve the investment objective, this Sub-Fund will invest all or substantially all of its assets in high quality debt and money market instruments, and deposits with eligible financial institutions. This Sub-Fund's investments may include government and corporate bonds, commercial bills and deposits with financial institutions. This Sub-Fund's approach to enhancing returns is to diversify across deposits of varying tenure. The Manager believes that the use of other high quality debt and money market instruments, which are normally available to large investors will also help to enhance returns for the investor. Appendix 2 of the Code will apply to this Sub-Fund.

As at the date of this Prospectus, the Manager does not intend to invest this Sub-Fund's assets in options, warrants, commodities and precious metals. The Manager may invest this Sub-Fund's assets in futures contracts and unlisted securities in accordance with the investment objective, investment approach and investment strategy of this Sub-Fund, and in compliance with the Code.

As at the date of this Prospectus, the Units of this Sub-Fund are classified as Excluded Investment Products and Prescribed Capital Markets Products.

For so long as the Units of this Sub-Fund are Excluded Investment Products and Prescribed Capital Markets Products, this Sub-Fund does not and will not invest in any product or engage in any transaction which may cause the Units not to be regarded as Excluded Investment Products and Prescribed Capital Markets Products. The Manager may engage in securities lending or repurchase transactions for this Sub-Fund, where such securities lending or repurchase transactions are carried out solely for the purpose of efficient portfolio management and do not amount to more than 50% of the Net Asset Value of this Sub-Fund, and is in line with the Securities and Futures (Capital Markets Products) Regulations 2018 issued by the MAS (as may be amended from time to time). Any securities lending or repurchase transactions which the Manager may engage in will be in accordance with Appendix 1 and Appendix 2 of the Code.

In the event that the Manager relies on credit ratings issued by credit rating agencies, the Manager will establish a set of internal credit assessment standards and will put in place a credit assessment process to ensure that its investments are in line with these standards. Information on the Manager's credit assessment process will be made available to investors upon request.

3. Investment Strategy

In order to achieve the investment objective, the Manager will be adopting the Optimisation Strategy as the investment strategy of this Sub-Fund.

In constructing this Sub-Fund's portfolio using the Optimisation Strategy, the Manager will undergo a disciplined asset allocation process which focuses on the quality and maturity of the investments of this Sub-Fund. In terms of quality, the Manager will only place the deposited property of this Sub-Fund into high quality debt securities or high quality money market instruments which comply with Appendix 2 of the Code.

Subject to Appendix 2 of the Code, the Manager will be investing into high quality debt securities or high quality money market instruments which (i) hold a minimum short-term rating of F-2 by Fitch, P-2 by Moody's or A-2 by Standard and Poor's, or where it only has a long-term rating, such a rating of A by Fitch, A by Moody's or A by Standard and Poor's (including such sub-categories or gradations therein), (ii) are issued by supranational agencies or other foreign entities and rated other than by the aforementioned credit rating organisations, for which the Manager has satisfied the Trustee that the quality of the debt security or money market instrument is comparable to those with the aforementioned ratings, or (iii) are issued by a Singapore entity, including the Singapore Government and statutory boards, and are not rated, for which the Manager has satisfied the Trustee that the quality of the debt security or money market instrument is comparable to those with the aforementioned ratings.

The Manager will be placing deposits with eligible financial institutions which complies with Appendix 2 of the Code. Under Appendix 2 of the Code, an eligible financial institution is defined as (i) a financial institution which has a minimum short-term rating of F-2 by Fitch, P-2 by Moody's or A-2 by Standard and Poor's (including such sub-categories or gradations therein), (ii) a financial institution rated other than by the aforementioned credit rating organisations for which the Manager has satisfied the Trustee that its short-term rating is comparable to the aforementioned ratings, or (iii) a Singapore-incorporated bank licensed under the Banking Act (Cap. 19) which is not rated, but has been approved under the Central Provident Fund Investment Scheme to accept fixed deposits.

Out of investments that fulfil the above criteria on quality, the Manager will construct this Sub-Fund's portfolio such that it has an overall weighted portfolio maturity at or below 3 months. In doing so, the Manager may place the deposited property of this Sub-Fund into deposits with eligible financial institutions, or high quality debt securities or high quality money market instruments, of differing maturities. For instance, the Manager may deploy the deposited property of this Sub-Fund into investments which have maturities exceeding 3 months. This ensures that this Sub-Fund will hold a portfolio of investments with staggered maturities, which effectively mitigates the risks of interest rate fluctuations. This will also ensure that this Sub-Fund's performance will have a high correlation to the FTSE SGD 3-month SOR Index.

Through this process, the Manager seeks to manage the liquidity, credit and interest rate risks of this Sub-Fund while at the same time provide diversification to this Sub-Fund. This Sub-Fund should hold a portfolio of investments that display generally the same risk and return characteristics of the FTSE SGD 3-month SOR Index.

The Manager may use or invest in FDIs in accordance with the Securities and Futures (Capital Markets Products) Regulations 2018, Appendix 1 of the Code and Appendix 2 of the Code. Such FDIs may include, but are not limited to futures, forwards, contract for differences, extended settlement contracts, or swaps.

The Manager confirms that the global exposure of this Sub-Fund to FDIs or embedded FDIs will not exceed 100%. Such exposure would be calculated using the commitment approach.

The following is an example of a portfolio constructed using the Optimisation Strategy. In this example, the Manager focuses on allocations to fixed deposit and cash as well as money market instruments, with the target weighted average days of maturity of the portfolio being at 90-days. By adopting the Optimisation Strategy, the Sub-Fund will achieve net yields that are similar to the returns of the Index.

Proposed Portfolio	Allocation (as a % of the Sub- Fund's Net Asset Value)	Estimated Yield	Weighted Average Yield	FTSE SGD 3- month SOR Index (being the benchmark)
Fixed deposits and cash (consisting of various maturities with a target weighted average days of maturity at 90-days)	80%	0.395%	0.316%	0.190%
Money market instruments (consisting of various maturities with a target weighted average days of maturity at 90-days)	20%	1.000%	0.200%	
Total			0.516%	
Estimated expense ratio (before Management Fee)			(0.140%)	
Management Fee (estimate)			(0.100%)	
Net Yield			0.276%	

Note: The above example is for illustrative purposes only and should not be taken as any forecast of future performance.

There will be no change to the investment objective and/or investment policy of this Sub-Fund during the 3-year period commencing from 22 September 2020, unless any such change is approved by an extraordinary resolution of Holders in a general meeting or the change of the investment objective and policy is required pursuant to the requirement of any regulatory authority in Singapore or elsewhere or pursuant to the change in the laws and regulations in any jurisdiction, or the change of the investment objective or policy is not material. Where there is any change to the investment strategy adopted for this Sub-Fund, such changes will be announced by the Manager through SGXNET. A list of the holdings of this Sub-Fund will be published in the monthly fund factsheet which is available on the Manager's website at www.phillipfunds.com.

The SGX-ST has granted an exemption from compliance with Rules 404(4) and 617 of the Listing Rules. As such, investors' approval need not be sought for the change of this Sub-Fund's investment objectives and policies if (i) the change of the investment objective and policy is required pursuant to the requirement of any regulatory authority in Singapore or elsewhere or pursuant to the change in the laws and regulations in any jurisdiction, or (ii) the change of the investment objective or policy is not material.

In the event that the SOR is discontinued and a replacement index is chosen, the Manager will reach out to the SGX-ST to clarify that the proposed change in investment objective or policy is not material. The Manager will, as far as practicable, ensure that all the necessary procedures and applications (including seeking the Holders' approval (if required)) are proceeded upon in a timely manner for a seamless transition to the replacement index.

In the event that the SOR is discontinued, this Sub-Fund will hold a portfolio of investments that display generally the same risk and return characteristics of the replacement index that references the SORA and provides for the same or substantially similar exposure as the FTSE SGD 3-month SOR Index.

C. WAIVER FROM THE MAS IN RELATION TO THE CODE

The MAS has granted waivers in respect of (i) paragraphs 4(d) and 4(e) of Appendix 5 of the Code in respect of the requirement for an index to be sufficiently diversified, and (ii) 7(d) of Appendix 5 of the Code in respect of the requirement to disclose the top 10 largest constituents of an index as of a date within a month of the date of the Prospectus.

Given this waiver, investors should note that this Sub-Fund does not fulfil all of the Code's requirements in relation to an Index Fund. This should be considered by each investor before investing in this Sub-Fund.

Prior to the discontinuance of the SOR as mentioned above, the Manager may have to submit a fresh waiver application to the MAS in respect of the replacement index. The Manager will, as far as practicable, ensure that all the necessary procedures and applications are proceeded upon in a timely manner in order to obtain a similar waiver from the MAS in respect of the replacement index.

D. SPECIFIC RISK FACTORS

In addition to the risk factors described under paragraphs 6 "Risk Factors" and 7 "Risk Factors Relating to the Indices" of this Prospectus, investors should also consider the specific risks associated with investing in this Sub-Fund set out below before deciding whether to invest in this Sub-Fund.

(a) Investment not a deposit

Investors should note that the purchase of a Unit in this Sub-Fund is not the same as placing funds on deposit with a bank or deposit-taking company. This Sub-Fund does not guarantee principal and the Manager has no obligation to redeem the Units at the offer value. This Sub-Fund is also not protected by a deposit guarantee scheme.

(b) Risks associated with bank deposits

This Sub-Fund may make investments in the form of deposits with financial institutions. These deposits will be subject to the credit risks associated with the relevant financial institutions. The deposits may not be protected by any deposit guarantee schemes or may not be protected by the deposit guarantee schemes to the extent of the full amount deposited by this Sub-Fund. Therefore, if the relevant financial institution defaults, this Sub-Fund may suffer losses as a result.

(c) Risks associated with debt securities

- (i) *Short-term debt instruments risk:* As this Sub-Fund invests in short-term debt instruments with short maturities, the turnover rates of this Sub-Fund's investments may be relatively high, and this may result in increased transaction costs from the purchase or sale of short-term debt instruments. This may have a negative impact on the Net Asset Value of this Sub-Fund.
- (ii) *Credit/Counterparty risk:* This Sub-Fund is exposed to the credit/default risk of issuers of the debt securities that it may invest in.

- (iii) *Interest rate risk*: Investments in this Sub-Fund are subject to interest rate risk. In general, the prices of debt securities rise when interest rates fall, whilst their prices fall when interest rates rise.
 - (iv) *Sovereign debt risk*: This Sub-Fund's investment in debt instruments issued or guaranteed by governments may be exposed to political, social and economic risks. In adverse situations, the sovereign issuers may not be able or willing to repay the principal and/or interest when due or may request this Sub-Fund to participate in restructuring such debts. This Sub-Fund may suffer significant losses when there is a default of sovereign debt issuers.
 - (v) *Credit rating risk and downgrading risk*: Credit ratings assigned by rating agencies are subject to limitations and cannot guarantee the creditworthiness of the security and/or issuer at all times. The credit rating of a debt instrument or its issuer may subsequently be downgraded by the rating agency. In the event of such downgrading, the value of this Sub-Fund may be adversely affected. The Manager may or may not be able to dispose of the debt instruments that are being downgraded.
 - (vi) *Valuation risk*: Valuation of this Sub-Fund's investments may involve uncertainties. If such valuations turn out to be incorrect, this may affect the Net Asset Value calculation of this Sub-Fund.
 - (vii) *Risks relating to repurchase agreements*: In the event of the failure of the counterparty with which collateral has been placed, this Sub-Fund may suffer losses due to delays in recovering collateral placed out or because the cash originally received is less than the collateral placed with the counterparty due to inaccurate pricing of the collateral or market movements.
- (d) Risks associated with historical pricing
- Units in this Sub-Fund are issued and realised on a historical pricing basis. The Issue Price and Realisation Price of such Units will be based on the Net Asset Value per Unit at 8:30 a.m. (Singapore time) on the Dealing Day immediately preceding the date of issue or redemption of the Units. As such, the issue and realisation prices of this Sub-Fund may not be reflective of the actual Net Asset Value of the Units of this Sub-Fund as at the date of issue or realisation. Any adjustments or shortfalls as a result will be borne by this Sub-Fund.
- (e) Risks associated with the discontinuation of SOR

- (i) *Transition from SOR to SORA*: On 30 August 2019, the MAS announced the establishment of the Steering Committee for SOR Transition to SORA ("**SC-STs**"). The SC-STs will oversee an industry-wide interest rate benchmark transition from SOR to SORA. The transition is expected to take place from 2019 to 2021, starting with the deepening of new SORA-based markets, and thereafter the transition of SOR based legacy contracts. As part of this transition, the MAS will publish, on a daily basis, SORA averages for various tenors and a SORA index.

SORA has been identified as the alternative interest rate benchmark for SOR. This transition is necessary given the expected discontinuation of USD LIBOR, following the announcement by the UK regulatory authorities that the benchmark will not be sustained by regulatory powers after the end of 2021. SOR relies on USD LIBOR in its computation methodology and the likely discontinuation of LIBOR after the end of 2021 directly impacts the future sustainability of SOR.

In the event that the FTSE SGD 3-month SOR Index is no longer available for use by a Sub-Fund as a result of SOR being discontinued, the Manager will source for a replacement index that references the SORA and provides for the same or substantially similar exposure as the FTSE SGD 3-month SOR Index. Any such replacement index will be notified to Holders via SGXNET. In sourcing for a suitable replacement index, the Manager will make determinations, decisions, elections, calculations and adjustments that could affect the value of this Sub-Fund. In particular, the Manager will work with the Index provider or any other index provider to calculate term SORA, using methodology consistent with SC-STS recommendation or using any other appropriate methodology. In making the determinations, decisions, elections, calculations and adjustments, the Manager may have economic interests that are adverse to investors' interests, and such determinations, decisions, elections, calculations and adjustments may adversely affect the value of this Sub-Fund.

Investors should also note that there is no guarantee that the Manager will be able to identify or agree with the Index provider or any other index provider terms for the use of a suitable replacement index, or that the replacement index will be available prior to any discontinuation of SOR. In such circumstances, this Sub-Fund may be terminated by the Manager.

- (ii) *Composition and Characteristics of SORA are not the same as those of SOR:* SORA has been identified as the alternative interest rate benchmark for SOR. However, the composition and characteristics of SORA are not the same as those of SOR. This means that the SORA is not the economic equivalent of SOR for two key reasons. First, SOR is the effective rate of borrowing SGD synthetically, by borrowing USD and swapping for SGD, whereas SORA is the average rate of unsecured overnight interbank SGD transactions brokered in Singapore. Second, SOR's methodology and inputs are based on the volume-weighted average rate of USD/SGD FX swap transactions, with USD LIBOR as an input. In contrast, SORA is based on the volume-weighted average rate of transactions reported by brokers in Singapore to the MAS. As a result, there can be no assurance that SORA will perform in the same way as SOR would have at any time, including, without limitation, as a result of changes in interest and yield rates in the market, market volatility or global or regional economic, financial, political, regulatory, judicial or other events. For the same reasons, there is no guarantee that SORA is comparable as a substitute for SOR.

Therefore, there remains a possibility that market participants will not consider SORA a suitable substitute or successor for all of the purposes for which SOR historically has been used. If the performance of SORA is unfavorable, this could adversely affect the value and return on any investment which tracks an index based on SORA.

- (iii) *The MAS may make changes that could change the value of SORA or discontinue SORA:* The MAS, as the administrator of SORA, may make methodological or other changes that could change the value of SORA, including changes related to the method by which SORA is calculated, eligibility criteria applicable to the transactions used to calculate SORA, or timing related to the publication of SORA. In addition, the MAS may alter, discontinue or suspend calculation or dissemination of SORA.
