Important Information

The managers of Phillip Investment Funds (the "**Fund**"), Phillip Capital Management (S) Ltd (the "**Managers**"), accept full responsibility for the accuracy of information contained in this Prospectus and confirm, having made all reasonable enquiries, that to the best of their knowledge and belief, there are no other facts the omission of which would make any statement in this Prospectus misleading.

No application has been made for the units in the Fund ("**Units**") to be listed on any stock exchange. There is no ready market for the Units in the Fund. Investors may consequently only redeem their Units in accordance with and subject to the provisions of the Deed.

Potential investors should seek independent professional advice to ascertain (a) the possible tax consequences; (b) the legal requirements; (c) any restrictions or requirements under the Central Provident Fund ("**CPF**") (Investment Scheme) Regulations and the terms and conditions in respect of the CPF Investment Scheme ("**CPFIS**") issued by the CPF Board thereunder and (d) any foreign exchange restrictions or exchange control requirements which they may encounter under the laws of the countries of their citizenship, residence or domicile, which may be relevant to the subscription, holding or disposal of Units in the Fund, and should inform themselves of and observe all such laws and regulations in any related jurisdiction that may be applicable to them.

Investors should consider the risks of investing in securities which are summarised in paragraph 9 of this Prospectus.

Phillip Money Market Fund

Phillip Money Market Fund is a money market fund. The purchase of a unit in a money market fund is not the same as placing funds on deposit with a bank or deposit-taking company. Although the Managers may seek to maintain or preserve the principal value of the money market fund, there can be no assurance that the money market fund will be able to meet this objective. A money market fund is not a guaranteed fund, in that there is no guarantee as to the amount of capital invested or return received.

Restriction on U.S. Persons on subscribing to the Fund

Persons to whom a copy of this Prospectus has been issued shall not circulate to any other person, reproduce or otherwise distribute this Prospectus or any information herein for any purpose whatsoever nor permit or cause the same to occur. In particular, please note that the Units have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the "**U.S. Securities Act**") or any other applicable law of the United States. The Fund has not been and will not be registered as an investment company under the U.S. Investment Company Act of 1940, as amended. The Units are being offered and sold outside the United States to persons that are not "U.S. persons" (as defined in Regulation S promulgated under the U.S. Securities Act) in reliance

on Regulation S promulgated under the U.S. Securities Act. The Units are not being offered or made available to U.S. persons and nothing in this Prospectus is directed to or is intended for U.S. persons.

For the purposes of the U.S. Securities Act, the term “U.S. person” means: (i) any natural person resident in the United States; (ii) any partnership or corporation organized or incorporated under the laws of the United States; (iii) any estate of which any executor or administrator is a U.S. person; (iv) any trust of which any trustee is a U.S. person; (v) any agency or branch of a non-United States entity located in the United States; (vi) any non-discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary for the benefit or account of a U.S. person; (vii) any discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary organized, incorporated, or (if an individual) resident in the United States; and (viii) any partnership or corporation if (a) organized or incorporated under the laws of any non-United States jurisdiction and (b) formed by a U.S. person principally for the purpose of investing in securities not registered under the Securities Act, unless it is organized or incorporated, and owned, by “accredited investors” (as defined in Regulation D promulgated under the U.S. Securities Act) who are not natural persons, estates or trusts.

For the purposes of the U.S. Securities Act, the term “U.S. person” does not include: (i) any discretionary account or similar account (other than an estate or trust) held for the benefit or account of a non-U.S. person by a dealer or other professional fiduciary organized, incorporated, or (if an individual), resident in the United States; (ii) any estate of which any professional fiduciary acting as executor or administrator is a U.S. person if (a) an executor or administrator of the estate who is not a U.S. person has sole or shared investment discretion with respect to the assets of the estate and (b) the estate is governed by non-United States law; (iii) any trust of which any professional fiduciary acting as trustee is a U.S. person, if a trustee who is not a U.S. person has sole or shared investment discretion with respect to the trust assets, and no beneficiary of the trust (and no settler if the trust is revocable) is a U.S. person; (iv) an employee benefit plan established and administered in accordance with the law of a country other than the United States; (v) an agency or branch of a U.S. person located outside the United States if (a) the agency or branch operates for valid business reasons and (b) the agency or branch is engaged in the business of insurance or banking and is subject to substantive insurance or banking regulation, respectively, in the jurisdiction where located; and (vi) the International Monetary Fund, the International Bank for Reconstruction and Development, the Inter-American Development Bank, the Asian Development Bank, the African Development Bank, the United Nations, any other similar international organizations, and their respective agencies, affiliates and pension plans.

Foreign Account Tax Compliance Act

The Foreign Account Tax Compliance Act (“**FATCA**”) includes provisions under which the Managers as a Foreign Financial institution (“**FFI**”) may be required to report to the U.S. Internal Revenue Service (“**IRS**”) certain information about Units held by U.S. persons for the purposes of FATCA and to collect additional identification information for this purpose. FFIs that do not enter into an agreement with the IRS and comply with the FATCA regime could be subject to 30% withholding tax on any payment of U.S. source income as well as on the gross proceeds deriving from the sale of securities generating U.S. income made to the Fund.

The Fund is obliged to comply with the provisions of FATCA under the terms of the inter-governmental agreement (“**IGA**”) Model 1 signed between the U.S. Government and the Singapore Government and under the terms of Singapore legislation implementing the IGA.

Distributors and investors should note that it is the existing policy of the Managers that Units are not being offered or sold for the account of U.S. Persons for the purposes of FATCA and that subsequent transfers of Units to such U.S. Persons are prohibited. If Units are beneficially owned by such U.S. Person, the Managers (in consultation with the Trustee) may compulsorily redeem such Units. Investors should note that under the FATCA legislation, the definition of “Specified U.S. Persons” will include a wider range of investors than the current U.S. Person definition. Investors should consult their tax advisors regarding the application of FATCA to their investment. Investors should check with the Managers or their appointed agents or distributors with regard to the documentation that may be required for the purpose of FATCA.

Common Reporting Standard and Automatic Exchange of Information

Following the development by the Organisation for Economic Cooperation and Development (“OECD”) of a common reporting standard (“CRS”) to achieve a comprehensive and multilateral automatic exchange of information (“AEOI”), the Income Tax (International Tax Compliance Agreements) (Common Reporting Standard) Regulations 2016 (the “CRS Regulations”) have been promulgated to allow Singapore to implement the CRS with effect from 1 January 2017. Singapore has committed to commence exchange of information under the CRS in 2018.

The CRS Regulations require certain Singapore financial institutions (as defined in the CRS Regulations) to identify financial asset holders and establish if they are resident for tax purposes in countries with which Singapore has a tax information sharing agreement. Singapore financial institutions will then report financial account information of the asset holder to the Singapore tax authorities, which will thereafter automatically transfer this information to certain competent foreign tax authorities on a yearly basis.

Accordingly, the Managers and/or the Trustee will require investors to provide, amongst other things, information in relation to their identities and tax residences of their accounts (and the controlling persons, if any), account details, reporting entity, account balance/value and income/sale or redemption proceeds and any additional documentation or information, which will then be reported to the Inland Revenue Authority of Singapore and the other relevant tax authorities for purposes of complying with FATCA, the CRS Regulations and any similar automatic exchange of tax information regimes.

You should consult your professional advisors on the possible tax and other consequences with respect to the implementation of the CRS.

Data Protection

For the purposes of, and subject to the provisions in, the Personal Data Protection Act of Singapore (“PDPA”) and its regulations, each investor consents and acknowledges that all personal data of the investor provided to the Fund, the Managers, the Trustee or any delegate, agent or distributor appointed by the Managers or Trustee (including but not limited to the administrator, custodian, sub-custodians, registrar and any other third party service provider which may be applied), may be collected, used, disclosed or otherwise processed to enable each of the aforesaid entities to carry out their respective duties and obligations, or to enforce their respective rights and remedies, in connection with any investment by the investor into the Fund or any law applicable to the respective parties.

All enquiries in relation to the Fund should be directed to the Managers, Phillip Capital Management (S) Ltd, or any agent or distributor appointed by the Managers.

For Phillip Money Market Fund, the Managers are currently offering 6 Classes of Units, namely Class A Units (acc), Class I Units (acc), Class I Units (dist), Class E Units (acc), Class F Units (acc) and Class G Units (acc). Class A Units (acc) are offered to investors who invest SGD500 and above. Class I Units (acc) and Class I Units (dist) are offered to investors who invest SGD250,000 and above. Class E Units (acc), Class F Units (acc) and Class G Units (acc) may only be offered to and subscribed for by such investors as may be permitted by the Managers at their sole discretion.

All Classes will constitute the Sub-Fund and are not separate sub-funds. Any expense, income and/or gain which is attributable to a particular Class shall be deducted from or added to (as the case may be) the value of the Sub-Fund which is attributable to that Class.

A separate net asset value per Unit will be calculated for each Class. The net asset value per Unit of each Class will be calculated on each Dealing Day² in the currency of the relevant Class. It will be calculated by dividing the net asset value of the Sub-Fund (calculated in accordance with the Deed) attributable to each Class by the number of Units of such Class then in issue. The resultant amount shall be calculated up to five decimal places and truncated at four decimal places (or such other number of decimal places or by such other truncation or rounding method as the Managers may from time to time determine with the approval of the Trustee).

“SGD” or “Singapore Dollars” or “S\$” means the lawful currency of Singapore.

“(acc)” means accumulation Class which does not declare or pay distributions but accumulates investment gains and income in its Net Asset Value.

“(dist)” means distribution Class which declares and pays distributions in accordance with the applicable distribution policy.

7. Investment Objective, Focus and Approach

7.1 Phillip Money Market Fund

The investment objective of Phillip Money Market Fund is to preserve principal value and maintain a high degree of liquidity while producing returns comparable to that of Singapore dollar savings deposits. The Sub-Fund will invest primarily in short term, high quality money market instruments and debt securities. Such investments may include government and corporate bonds, commercial bills and deposits with financial institutions. The Sub-Fund’s

² “Dealing Day”, in connection with the issuance, cancellation and realisation of Units of a particular Sub-Fund, means every Business Day or such other Business Day or Business Days at such intervals as the Managers may from time to time determine Provided That reasonable notice of any such determination shall be given by the Managers to all Holders at such time and in such manner as the Trustee may approve. If on any day which would otherwise be a Dealing Day in relation to Units of any particular Sub-Fund the Recognised Stock Exchange on which Investments or other property comprised in, and having in aggregate values amounting to at least 50% of the net asset value (as at the immediately preceding Valuation Point) of, the Sub-Fund to which Units of that Sub-Fund relate are quoted, listed or dealt in is not open for normal trading, the Managers may determine that that day shall not be a Dealing Day in relation to Units of that Sub-Fund.

“Business Day” means any day (other than a Saturday, Sunday or gazetted public holiday) on which commercial banks are open for business in Singapore or any other day as the Managers and the Trustee may agree in writing.

approach to enhancing returns is to diversify across deposits of varying tenure. The Managers believe that the use of other short term, high quality money market instruments and debt securities, which are normally available to large investors will also help to enhance returns for the investor. The Money Market Funds Investment Guidelines in Appendix 2 of the Code on Collective Investment Schemes issued by the MAS ("**Code**") will apply to this Sub-Fund.

Subject to the provisions of the Code, the Managers may also invest the deposited property of the Sub-Fund into a maximum of 3 money market funds which are authorised or recognised by MAS and which are also classified as Excluded Investment Products and prescribed capital markets products, including money market funds managed by the Managers during such time or times and on such terms as the Managers think fit in accordance with the investment objective and focus of the Sub-Fund. Up to 10% of the net asset value of the Sub-Fund may be invested into each money market fund. The management fees charged by the money market funds managed by the Managers will be rebated to the Sub-Fund, as may be agreed between the Managers and the Trustee.

The Sub-Fund may, subject to the Deed and the Code, participate in securities lending and repurchase transactions and as long as the Units of the Sub-Fund are Excluded Investment Products and prescribed capital markets products, in accordance with and subject to compliance with the limits and/or restrictions (if any) applicable to Excluded Investment Products and prescribed capital markets products.

The Managers may use financial derivative instruments ("**FDIs**") for such purposes as may be permitted under the Code and subject to compliance with the limits and/or restrictions (if any) applicable to Excluded Investment Products and prescribed capital markets products.

7.2 Authorised Investments

The authorised investments ("**Authorised Investments**") of the Fund include:

⁶ "**Unquoted Investment**" means any Investment which is not quoted, listed or dealt in on any Recognised Stock Exchange.

granted within a specified period not exceeding 12 weeks (or such other period as may be agreed between the Managers and the Trustee) or in respect of which the Managers are satisfied that the subscriptions or other transactions will be cancelled if the application is refused;

Investors are advised to check with the relevant distributor if such additional fees and charges are imposed by the distributor. The Managers may share their fees with any distributor appointed by the Managers.

9. Risks

9.1 General risks

Investors should consider and satisfy themselves as to the risks of investing in the Sub-Fund. Generally, some of the risk factors that should be considered by investors are political, regulation and reporting, currency, market, liquidity, settlement, custodial and foreign investment risks.

⁸ Your financial advisor/distributor is required to disclose to you the amount of trailer fee it receives from the Managers.

Prospective investors should be aware that the value of Units and the returns derived from them can fluctuate and can go down as well as up and that investors may not get back their original investment. There can be no assurance that a Sub-Fund will achieve its investment objectives. Past performance of a Sub-Fund should not be construed as an indication of its future performance.

An investment in a Sub-Fund is meant to produce returns over the long-term. Investors should not expect to obtain short-term gains from such investment.

9.2 Specific risks

9.2.1 Political and Repatriation Risks

Investments by the Managers in certain countries included in the investment universe of a Sub-Fund may be adversely affected by requirements for approvals, which may be delayed or denied, by restrictions on investment and repatriation of investment proceeds, and by changes in government policies, regulation, and taxation.

9.2.2 Regulation and Reporting Risks

Government regulation and supervision of stock markets, brokers and listed enterprises in some of the countries included in the investment universe of a Sub-Fund may not be as extensive as those in the countries of the world's leading stock markets. In addition, accounting, auditing and financial reporting standards, practices and disclosure requirements in such countries are not comparable to those applicable to companies quoted on the world's leading stock markets.

9.2.3 Currency/Foreign Exchange Risks

Investments by a Sub-Fund may be made in a variety of currencies, whereas the net asset value of the Sub-Fund or a Class of such Sub-Fund at any time will be computed in the currency of Units invested into. Accordingly, the net asset value of a Sub-Fund or Class of a Sub-Fund may be affected favourably or unfavourably by movements in currency exchange rates, although the Managers may seek to minimize exposure to currency fluctuation to the extent practicable. The Managers may from time to time employ currency hedging techniques to manage the impact of the exchange rate fluctuations on the Sub-Fund or Classes of the Sub-Fund and/or for the purpose of efficient portfolio management. The Managers reserve the discretion to determine if currency exposure should be hedged actively, passively or not at all, in the best interest of the Sub-Fund.

9.2.4 Market and Liquidity Risks

Trading volumes in stock markets of certain countries included in the investment universe of a Sub-Fund can be significantly lower than on the world's leading stock markets and settlement and custody practices in such markets may not be comparable to those of the world's leading stock markets, which may result in fluctuations in the price of units in such Sub-Fund. Also, liquidity may be less than the world's leading stock markets, resulting in the possibility of delays in the

acquisition and disposal of some investments or settlement of such transactions at unfavourable prices.

The Managers have established liquidity risk management policies to identify, monitor and manage the liquidity risks of the Sub-Fund. Such policies, combined with the liquidity management tools available, seek to achieve fair treatment of Holders and safeguard the interests of remaining Holders against the redemption behaviour of other investors and mitigate against systemic risk.

The Managers' liquidity risk management policies take into account the Sub-Fund's liquidity terms, asset class, liquidity tools and regulatory requirements.

The liquidity risk management tools available to manage liquidity risk include the following:

- (a) a Sub-Fund may borrow up to 10 per cent. of the latest available Net Asset Value of the relevant Sub-Fund (or such other percentage as may be prescribed by the Code) at the time the borrowing is incurred and the borrowing period should not exceed one month provided always and subject to the borrowing restrictions in the Code;
- (b) the Managers may pursuant to the Trust Deed, suspend the redemption of Units of the relevant Class or Sub-Fund, and/or delay the payment of any monies and transfer of any Securities in respect of any Realisation Request; and
- (c) the Managers may direct the Trustee to reduce the redemption requests rateably and pro rata amongst all Holders seeking to redeem Units on the relevant Dealing Day and carry out only sufficient redemptions which, in aggregate, amount to 10 per cent (or such higher percentage as the Managers may determine in respect of a Sub-Fund) of the Units in the Sub-Fund then in issue.

The Managers conduct regular assessments of the liquidity profiles of the Sub-Fund's assets by reference to both current and anticipated market conditions and testing against internal liquidity limits of the Sub-Fund. The Managers will exercise their professional judgement in determining reasonable and appropriate factors to be considered in assessing liquidity. For example, potential quantitative factors include size, turnover, bid-ask spreads, transaction costs, and a Sub-Fund's holdings as a proportion of the outstanding issue, and, for fixed income securities, time of issuance and time to maturity. Qualitative factors may include currency denomination and credit quality. The Managers may also conduct stress testing to test a Sub-Fund's ability to withstand and meet anticipated redemption requests under both normal and exceptional liquidity conditions.

9.2.5 Economic, Political and Interest Rates Risks

Prices of securities may go up or come down in response to changes in economic conditions, political conditions, interest rates and the market's perception of securities which in turn may cause the price of Units in a Sub-Fund to rise or fall.

9.2.6 Default Risks

A Sub-Fund may invest in debt obligations of governments and companies. Such Sub-Fund will seek to limit such risks by investing in short-term, high quality securities but there can be no assurance that such Sub-Fund may not invest in securities with respect to which the governments or companies subsequently default. Adverse changes in the country or company may cause such Sub-Fund to suffer a loss of interest or principal on any of its holdings of such debt. The government entity or company that controls the servicing of debt obligations may be unwilling or unable to repay the obligations in accordance with their terms.

9.2.7 Settlement Risks

In certain countries included in the investment universe of a Sub-Fund, the Sub-Fund may be exposed to settlement risks. There may be no guarantee of the operation or performance of settlement, clearing and registration of transactions in these countries and where organised securities markets and banking and telecommunications systems are underdeveloped, concerns inevitably arise in relation to settlement, clearing and registration of transactions in securities where these are acquired other than as direct investments. Furthermore, due to local postal and banking systems in these countries, there may be no guarantee that all investments by such Sub-Fund may be realised.

9.2.8 Foreign Investment Risks

While a Sub-Fund may invest in markets which provide for the freedom of nationalisation and expropriation, such freedom may be curtailed unexpectedly upon a change of government or when such nationalisation or expropriation is deemed to be in the public interest. A Sub-Fund may seek, whenever such freedom is curtailed, to obtain adequate compensation.

9.2.9 Derivatives Risks

Use of FDIs

In relation to Phillip Money Market Fund, the Managers may use FDIs for such purposes as may be permitted under the Code and subject to compliance with the limits and/or restrictions (if any) applicable to Excluded Investment Products and prescribed capital markets products.

Types of FDIs

The FDIs which may be used by the Sub-Fund include, but are not limited to futures, options, warrants, forwards, contract for differences, extended settlement contracts, swaps or swap options. The Sub-Fund will not have exposure to commodities through financial derivatives.

Risks Associated with the Use of FDIs

The use of FDIs involves increased risk. A Sub-Fund's ability to use such instruments successfully depends on the Managers' ability to accurately predict

movements in stock prices, interest rates, currency exchange rates or other economic factors and the availability of liquid markets. If the Managers' predictions are wrong, or if the FDIs do not work as anticipated, a Sub-Fund could suffer greater losses than if the Sub-Fund had not used such FDIs.

In addition to the inherent risks of investing in FDIs, a Sub-Fund will also be exposed to credit risk on the counterparties with which it trades particularly in relation to options, futures, contracts and other FDIs that are not traded on a recognised market. Such instruments are not afforded the same protection as may be afforded to participants trading futures or options on organised exchanges, such as the performance guarantee of an exchange clearing house. A Sub-Fund might be subject to the possibility of the insolvency, bankruptcy or default of a counterparty with which that Sub-Fund trades, which could result in substantial losses to that Sub-Fund.

Investments in derivatives may require the deposit of initial margin and additional deposit of margin on short notice if the market moves against the investment positions. If no provision is made for the required margin within the prescribed time, the Sub-Fund's investments may be liquidated at a loss. Therefore it is essential that such investments in derivatives are monitored closely.

Exposure to FDIs

The Managers confirm that the global exposure of a Sub-Fund to FDIs or embedded FDIs will not exceed 100% of the net asset value of that Sub-Fund at any time. Such exposure would be calculated using the commitment approach as described in Appendix 1 of the Code.

Risk Management Process and Compliance Controls

In the event the Managers use FDIs, they are of the view that they have the necessary expertise to control and manage the use of FDIs. Investments in FDIs would normally be monitored and controlled by the Managers with regular marked-to-market valuations, careful research prior to investment and compliance monitoring.

The Managers have set up a formal risk management process, to facilitate compliance with regard to the use of FDIs. This process consists of:

- (a) an appropriate supervisory structure;
- (b) an independent framework of internal controls, varying according to the complexity and sophistication of the derivative strategies; and
- (c) a process of approving the use of new instruments and strategies.

The Managers will ensure that the risk management and compliance procedures and controls adopted are adequate and have been or will be implemented and that they have the necessary expertise to control and manage the risks relating to the use of FDIs and have in place systems to monitor the derivative positions for each Sub-Fund.

Netting

The Sub-Fund intends to net its OTC financial derivative positions.

9.2.10 Securities Lending and Repurchase Transactions

Subject to the provisions of the Deed, the Code and the limits and/or restrictions (if any) applicable to Excluded Investment Products and prescribed capital markets products, Phillip Money Market Fund may carry out securities lending and repurchase transactions on transferable securities and money market instruments for the sole purpose of efficient portfolio management, subject to the following limits:

- (a) The collateral of the securities lending or repurchase transactions should exceed the value of the transferable securities or money market instruments transferred by at least 5% and 2% respectively;
- (b) The counterparty would be required to provide additional collateral to the Sub-Fund or its agent no later than the close of the next business day when the current value of the eligible collateral tendered for the securities lending or repurchase transactions falls below 105% and 102% respectively of the value of the transferable securities or money market instruments transferred;
- (c) For the purposes of securities lending and repurchase transactions, collateral may only consist of:
 - (i) cash;
 - (ii) money market instruments; or
 - (iii) bonds.

For the purpose of the above, money market instruments and bonds should be issued by, or have the benefit of a guarantee from, an entity or trust that has a minimum long-term rating of A by Fitch, A by Moody's or A by Standard and Poor's (including sub-categories or gradations therein) (collectively, "**eligible collateral**").

Notwithstanding the above, securitised debt instruments as well as money market instruments or bonds with embedded financial derivatives are not eligible as collateral;

- (d) The maturity period of a repurchase transaction should not exceed 6 months; and
- (e) The Managers may lend the securities of the Sub-Fund to its related corporations and/or any third party and such transactions will be carried out on an arm's length basis. There will be no revenue sharing arrangement between the Sub-Fund and the Managers.

Risks relating to securities lending or repurchase transactions

Securities lending or repurchase transactions involve counterparty risk/credit risk, liquidity risk, sufficiency of collateral risk, collateral investment risk, delivery risk and operational risk, as described below:

- (a) Counterparty risk/credit risk refers to the risk when a counterparty defaults on its obligations by becoming insolvent or otherwise being unable to complete a transaction.
- (b) Liquidity risk is the risk that the counterparty cannot settle an obligation for the full value when it is due, but would be able to settle on some unspecified date thereafter. This may affect the ability of the Sub-Fund to meet their redemption obligations and other payment commitments.
- (c) Sufficiency of collateral risk. Following a default by a counterparty, the Sub-Fund can sell its collateral in the market to raise funds to replace the lent securities. It will suffer a loss if the value of the collateral securities falls relative to the lent securities.
- (d) Collateral investment risk. The value of the securities in which the Managers invest the cash collateral may decline due to fluctuations in interest rates or other market-related events.
- (e) Delivery risk occurs both when securities have been lent and collateral has not been received at the same time or prior to the loan, and when collateral is being returned but the loan return has not been received.
- (f) Operational risk is risk that the custodian or the lending agent did not administer the program as agreed. This includes the failure to mark to market collateralization levels, call for additional margin, or to return excess margin and to post corporate actions and income including all economic benefits of ownership.

The above should not be considered to be an exhaustive list of the risks which potential investors should consider before investing in the Sub-Fund. Potential investors should be aware that an investment in the Sub-Fund may be exposed to other risks of an exceptional nature from time to time.

10. Subscription of Units

10.1 Subscription procedure

Applications for Units of the Sub-Fund or any Class of Units of the Sub-Fund may be made on the application form which may be obtained from the Managers or through any agent or distributor appointed by the Managers or via the Internet, if applicable.

Investors may subscribe for Class A Units (acc) or Class I Units (acc) or Class I Units (dist) or Class E Units (acc) or Class F Units (acc) or Class G Units (acc) of Phillip Money Market Fund either in cash or Supplementary Retirement Scheme ("**SRS**") monies.

Investors wishing to use their SRS monies to purchase Units shall indicate so on the application form. The application form shall contain the investor's instructions to the SRS operator bank to withdraw the purchase monies from the investor's SRS account in respect of the Units applied for.

Currently, the Managers accept payments of subscription monies for Phillip Money Market Fund in SGD only.

Initial offer period and initial issue price

The initial offer period for Class I Units (dist), Class E Units (acc), Class F Units (acc) and Class G Units (acc) may, at the discretion of the Managers, be launched within the next 12 months. During the initial offer period, Units of the Class I Units (dist), Class E Units (acc), Class F Units (acc) and Class G Units (acc) of the Sub-Fund will be offered at an initial issue price of S\$1.0000 per Unit. For the avoidance of doubt, Class E Units (acc), Class F Units (acc) and Class G Units (acc) may only be offered to and subscribed for by such investors as may be permitted by the Managers at their sole discretion.

Minimum size and other conditions

The Managers reserve the right not to proceed with the launch of the Class I Units (dist), Class E Units (acc), Class F Units (acc) and Class G Units (acc) in the event that the capital raised as at the close of the initial offer period for such Class is less than S\$3 million.

The Managers reserve the right not to proceed with the launch of any Class in the event that the Managers are of the view that it is not in the interest of the investors or it is not commercially viable to proceed with that Class.

In such event, the Managers may at their discretion declare the relevant Class to be deemed not to have commenced, and shall notify the investors of the same and return the subscription monies received (without interest) to the investors no later than 30 Business Days after the close of the initial offer period.

10.2 Minimum Initial Subscription Amount and Minimum Subsequent Subscription Amount

The minimum initial subscription amounts and the minimum subsequent subscription amounts for each Class are as follows:-

	Minimum initial subscription amount	Minimum subsequent subscription amount
Class A Units (acc)	SGD500*	SGD100*
Class I Units (acc)	SGD250,000*	SGD100*
Class I Units (dist)	SGD250,000*	SGD1,000*

As the Class E Units (acc), Class F Units (acc) and Class G Units (acc) may only be offered to and subscribed for by such investors as may be permitted by the Managers at their sole discretion, the minimum initial subscription amount and minimum subsequent subscription amount shall be determined by the Managers.

**(or such other amount as the Managers shall determine with prior notice to the Trustee)*

10.3 Dealing deadline and pricing basis

As Units are issued on a historical pricing basis, the issue price of Units is known at the time of application. The issue price of the Units of the Sub-Fund is determined at the close of business on the calendar day immediately preceding the date of the issue of the Units (or if such calendar day is not a Business Day, at 6 p.m. Singapore time on such day or such other time as may be determined by the Managers with the approval of the Trustee).

In buying Units, an investor pays a fixed amount of money e.g., S\$500 (for Class A Units (acc)) or S\$250,000 (for Class I Units (acc) and Class I Units (dist)), which will buy the investor such number of Units obtained from dividing that sum (net of the Preliminary Charge) by the issue price. As the Class E Units (acc), Class F Units (acc) and Class G Units (acc) may only be offered to and subscribed for by such investors as may be permitted by the Managers at their sole discretion, the number of Units issued shall depend on the subscription amount determined by the Managers. The dealing cut-off time is 3.30 p.m. Singapore time on a Dealing Day. Units in respect of applications received and accepted by the Managers before 3.30 p.m. Singapore time on a Dealing Day will be issued at that Dealing Day's issue price calculated in accordance with Clause 11(B) of the Deed. Applications received after 3.30 p.m. or on a day which is not a Dealing Day shall be treated as having been received on the next Dealing Day.

After the initial offer period, the issue price per Unit of each Class of the Sub-Fund on each Dealing Day shall be an amount equal to the net asset value per Unit of the Class of the Sub-Fund as provided for in Clause 10(C) of the Deed as at the Valuation Point⁹ in relation to such Dealing Day. The Managers may, subject to the prior approval of the Trustee, change the method of determining the Issue Price as provided in Clause 11(B) of the Deed, and the Trustee shall determine if investors should be informed of such change.

The net asset value of each Class of the Sub-Fund shall be calculated by valuing the assets of each Class of the Sub-Fund in accordance with the valuation provisions as provided in paragraph 20.6 of this Prospectus. The resultant sum shall be divided by the number of Units of each Class of the Sub-Fund in issue or deemed to be in issue immediately prior to the relevant Dealing Day, and the resultant amount (calculated up to five decimal places and truncated at four decimal places or such other number of decimal places as the Managers may from time to time determine with the approval of the Trustee) shall be the net asset value of a Unit of each Class of the Sub-Fund on such Dealing Day.

⁹ **"Valuation Point"** (a) in relation to a Sub-Fund which is not a money market fund, means such time on a valuation day as the Managers with the prior approval of the Trustee from time to time determine and the Managers shall notify the Holders of such change if required by the Trustee and (b) in relation to Phillip Money Market Fund, means such time on the calendar day immediately preceding that Dealing Day (or if such calendar day is not a Business Day, at 6 p.m. Singapore time on such day or such other time as may be determined by the Managers with the approval of the Trustee), and the Managers shall notify the Holders of such change if required by the Trustee.

10.4 Numerical examples of how Units are allotted:

The number of Units you receive with an investment of S\$500, based on a notional issue price of S\$1.0000, will be calculated as follows:

e.g	S\$500	-	S\$0	=	S\$500	÷	S\$1.0000	=	500 Units
	Your Investment		Preliminary Charge (which is currently nil)		Your Net Investment		Issue price		No. of Units you will receive

The above examples are not an indication of the future or likely performance or issue price of the Sub-Fund. The value of Units and the resultant income from them may go down as well as up. Investors should read this Prospectus carefully and consult their professional advisers if necessary before investing.

10.5 Confirmation of purchase

A confirmation note detailing the investment amount and the number of Units in the Sub-Fund allocated to the investor will be sent within 7 Business Days from the date of issue of Units for cash applications, and within 14 Business Days for SRS applications.

10.6 Cancellation of initial subscription by investors

Investors shall, subject to Clause 13A of the Deed and to the cancellation terms and conditions attached to the application form, have the right to cancel their purchase of Units in a Sub-Fund within 7 calendar days from the date of subscription or purchase of Units (or such longer period as may be agreed between the Managers and the Trustee or such other period as may be prescribed by the MAS) by providing notice in writing to the Managers or their authorised agent or distributor.

Full details of the provisions relating to the cancellation of Units may be found in the terms and conditions for cancellation of Units attached to the application form for the subscription of Units in the Sub-Fund.

11. Regular Savings Plan

For investors who wish to participate in the regular savings plan scheme (“RSP”), the minimum initial investment and minimum monthly investment for each Class of the Sub-Fund are set out below.

	Minimum Initial Investment	Minimum Monthly Investment
Class A Units (acc)	S\$500*	S\$100*
Class I Units (acc) Class I Units (dist)	S\$250,000*	S\$100*

As the Class E Units (acc), Class F Units (acc) and Class G Units (acc) may only be offered to and subscribed for by such investors as may be permitted by the Managers at their sole

discretion, the minimum initial investment and minimum monthly investment shall be determined by the Managers.

**(or such other amount as may from time to time be determined by the Managers upon giving prior written notice to the Trustee)*

Payment for the RSP will be debited from the investors' bank account or SRS Account (as the case may be) on the 4th calendar day (or next Business Day if that day is not a Business Day) of each month and Units will be allotted within 2 Business Days after payment has been debited.

In the event that the debit is unsuccessful, no investment will be made for that month unless otherwise advised by the investors. After 2 consecutive unsuccessful debits, the RSP will be terminated and no notification of such termination will be sent to the investors.

The Managers shall not assume any liability for any losses arising from the investors' payment for the RSP via direct debit transactions.

An investor may terminate his participation without penalty upon giving 30 days' written notice to the Managers.

Investors should additionally comply with the RSP procedures imposed by the relevant distributor through whom they subscribed for Units.

12. Realisation of Units

12.1 Realisation procedure

An investor may at any time during the life of a Sub-Fund make a written request (a "**Realisation Request**") for the realisation of all Units or a partial realisation of at least 100 Units held by him. The Realisation Request must specify the number of the Units of the relevant Class or Sub-Fund to be realised.

With a view to protecting the interest of all investors, the Managers may, with the approval of the Trustee and in accordance with Clause 14(G)(i) of the Deed, limit the total number of Units to 10% of the total number of Units of the relevant Class or Sub-Fund then in issue, such limitation to be applied *pro rata* to all investors in relation to such Class or Sub-Fund who have validly requested realisations on the relevant Dealing Day.

12.2 Minimum holding and minimum realisation amount

Investors may realise their Units in the Sub-Fund in full or partially. The minimum holding and minimum realisation amount for partial realisation of Units in any Class or Sub-Fund are set out below.

	Minimum Holding	Minimum Realisation Amount
Class A Units (acc)	500 Units	100 Units
Class I Units (acc) Class I Units (dist)	250,000 Units	100 Units

As the Class E Units (acc), Class F Units (acc) and Class G Units (acc) may only be offered to and subscribed for by such investors as may be permitted by the Managers at their sole discretion, the minimum holding and minimum realisation amount under the RSP, if applicable, shall be determined by the Managers.

Units realised may at the option of the Managers be subject to a Realisation Charge¹⁰. However, the Managers are currently not imposing a Realisation Charge.

12.3 Dealing deadline and pricing basis

Investors may realise their Units of the Sub-Fund or Class of a Sub-Fund on any Dealing Day. Units in respect of realisation forms received and accepted by the Managers by 3.30 p.m. Singapore time on a Dealing Day shall be realised on historical pricing basis at the realisation price determined at the close of business on the calendar day immediately preceding the date of the redemption of the Units calculated in accordance with the provisions of the Deed (as summarised in paragraph 12.3.3 below). Realisation forms received after 3.30 p.m. or on a day which is not a Dealing Day shall be treated as having been received on the next Dealing Day.

The realisation price per Unit of the Sub-Fund or Class of a Sub-Fund on each Dealing Day shall be an amount equal to the net asset value per Unit of the Sub-Fund or Class of a Sub-Fund (as provided for in Clause 10(C) of the Deed) as at the Valuation Point in relation to such Dealing Day, such amount to be calculated up to five decimal places and truncated at four decimal places (or such other number of decimal places as the Managers may from time to time determine with the approval of the Trustee). The amount due to an investor on the realisation of such a Unit shall be the realisation price per Unit (less any Realisation Charge, Fiscal and sale charges¹¹ and any rounding in respect thereof).

The Managers may, subject to the prior approval of the Trustee, change the method of determining the realisation price as provided in Clause 14(F) of the Deed, and the Trustee shall determine if investors should be informed of such change.

¹⁰ "**Realisation Charge**" means a charge upon the realisation of a Unit of any Sub-Fund of such amount as may from time to time be fixed by the Managers generally or in relation to any specific or class of transaction Provided That it shall not exceed 5% of the realisation price.

¹¹ "**Fiscal and sale charges**" means all stamp and other duties, taxes, governmental charges, brokerage, commissions, bank charges, transfer fees, registration fees and other duties and charges whether in connection with the constitution of the deposited property of a Sub-Fund or the increase of the deposited property of that Sub-Fund or the creation, issue, sale, exchange or purchase of Units or the sale or purchase of Authorised Investments or otherwise which may have become or may be payable in respect of or prior to or upon the occasion of the transaction or dealing in respect of which such duties and charges are payable but does not include commissions payable to agents on sales and repurchases of Units.

12.4 Numerical example of how the amount paid to an investor is calculated, based on the sale of 500 Units and based on a notional realisation price of S\$1.0000:

e.g.	500 Units	x	S\$1.0000	=	S\$500	-	S\$0	=	S\$500
	Your Realisation Request		Realisation Price		Your Realisation Proceeds		Realisation Charge (which is currently nil)		Your Net Realisation Proceeds

The above example is for illustration purposes only and is not an indication of the future or likely performance of the Sub-Fund. The actual realisation price will fluctuate according to the net asset value of the Sub-Fund.

12.5 Payment of realisation proceeds

- (a) Realisation proceeds shall normally be directly credited or be paid by cheque usually within 7 Business Days of receipt and acceptance of the realisation form by the Managers unless the realisation of Units has been suspended in accordance with paragraph 15.
- (b) The realisation proceeds will be paid in SGD.
- (c) In the case of an investor who has purchased Units with monies from his SRS Account, any monies payable to such investor in respect of such Units shall be paid by transferring the monies to the relevant bank for credit of the investor's SRS Account or otherwise in accordance with the provisions of any applicable law, regulations or guidelines. In the event that the SRS Account has been closed, the monies shall be paid to the investor in accordance with paragraph 12.5(d) or otherwise in accordance with any applicable law, regulations or guidelines.
- (d) In the case of an investor who has purchased Units with cash, any monies payable to such investor in respect of such Units will be paid by cheque sent through the post to his registered address or by telegraphic transfer to a nominated bank account.

12.6 Compulsory Realisation

The Managers have the right (in consultation with the Trustee) to realise compulsorily any holdings of Units in the Sub-Fund held by:-

- (i) any investor:
 - (a) whose subscription for or holding of Units, in the opinion of the Managers, is or may be in breach of any applicable law or regulation in any jurisdiction; or
 - (b) where such realisation is, in the opinion of the Managers, necessary or desirable for the compliance of the Managers or the Sub-Fund with any applicable law or regulation in any jurisdiction (including any regulatory exemption conditions); or

- (ii) any investor whose holdings, in the opinion of the Managers:
 - (a) may cause the Sub-Fund to lose its authorised or registered status with any regulatory authority in any jurisdiction; or
 - (b) may cause the offer of the Units of the Sub-Fund, the Sub-Fund, this Prospectus, the Deed, the Managers or the Trustee to become subject to any authorisation, recognition, approval or registration requirements under any law or regulation in any other jurisdiction; or
- (iii) any investor whose holdings, in the opinion of the Managers:
 - (a) may cause a detrimental effect on the tax status of the Sub-Fund in any jurisdiction or on the tax status of the investors of the Sub-Fund; or
 - (b) may result in the Sub-Fund or other investors of the Sub-Fund suffering any other legal or pecuniary or administrative disadvantage which the Sub-Fund or investors might not otherwise have incurred or suffered; or
- (iv) any investor who fails any anti-money laundering, anti-terrorist financing or know-your-client checks, or who is unable or unwilling to provide information and/or documentary evidence requested by the Managers for the purposes of any anti-money laundering, anti-terrorist financing or know-your-client checks.

Any compulsory realisation under this paragraph may be carried out by the Managers on any Dealing Day, without prior notice to investors, and shall be carried out in accordance with, and at the realisation price determined under, Clause 14(F)(i) of the Deed on realisations.

13. Switching of Units

Investors may switch Units of the Sub-Fund (the "**original Sub-Fund**") with Units of another Sub-Fund or units of any other collective investment scheme or fund managed by the Managers (the "**new Fund**") in accordance with the provisions of the Deed. Application for switching of Units may be made by submitting to the Managers (or through any agent or distributor appointed by the Managers or through any other applicable sales channel) a notice ("**Conversion Notice**") in such form as the Managers may from time to time require. Switching of Units shall be at the prevailing realisation price. Any partial switching shall be subject to the investor maintaining a minimum holding as described in paragraph 12.2. The minimum holding of units of the new Fund will also need to be complied with in the event of a switch. Units switched may be subject to a Switching Fee of not more than 1% of the realisation price or such percentage as may from time to time be determined by the Managers in consultation with the Trustee (subject always to a minimum of S\$25). Investors should also note the minimum subscription amount of the new Fund and ensure that realisation proceeds of the original Sub-Fund are sufficient to meet such minimum subscription amount of the new Fund. In the case where the original Sub-Fund is Phillip Money Market Fund and the new Fund is not a money market fund, Units switched shall be subject to an additional fee equal to the difference between the Preliminary Charge imposed on the original Sub-Fund and the new Fund.

Subject as hereinafter provided, the switching of Units shall be made on the day which is both a Dealing Day in relation to Units of the original Sub-Fund and a Dealing Day in relation to Units of the new Fund ("**Common Dealing Day**") on which the Conversion Notice is received by the Managers by the Dealing Deadline on such Common Dealing Day. If a Conversion Notice is received on a day which is not a Common Dealing Day or is received after the Dealing Deadline on a Common Dealing Day, such Conversion Notice shall be treated as having been received before the Dealing Deadline on the next Common Dealing Day.

Switching of the Units of the original Sub-Fund shall be effected by the cancellation of such Units and by the issue of Units of the new Fund, such cancellation and issue taking place on the relevant Common Dealing Day, and the number of Units of the new Fund to be issued on switching shall be determined by the Managers in accordance with the provisions of the Deed.

The Managers may at their discretion reject any application by investors to switch their Units for Units of another Sub-Fund or units of any other collective investment scheme or fund managed by the Managers.

Presently, no switching is permitted between the Classes but this may be permitted by the Managers at their discretion, subject to the payment of a Switching Fee which shall be borne by the investor.

14. Obtaining Prices of Units

The indicative issue and realisation prices may be published in The Business Times, Bloomberg, Reuters, websites of the appointed distributors or such other sources as the Managers may decide upon. The actual issue and realisation prices quoted will generally be published two (2) Business Days after the relevant Dealing Day in Singapore dollars.

Investors should note that the frequency of the publication of the prices is dependent on the publication policies of the publisher concerned. Save for publications of the Managers, the Managers do not accept any responsibility for any errors on the part of the publisher concerned in the prices published in the newspapers or such other publication or for any non-publication or late publication of prices by such publisher and shall incur no liability in respect of any action taken or loss suffered by investors in reliance upon such publication.

15. Suspension of Dealing

15.1 The Managers may, subject to the provisions of the Code and with the prior approval of the Trustee, suspend the issue, cancellation and realisation of Units of the Sub-Fund or Class of the Sub-Fund during:

- (i) any period when the Recognised Stock Exchange on which any Authorised Investments forming part of the deposited property (whether of any particular Sub-Fund or of the Fund) for the time being are listed or dealt in is closed (otherwise than for ordinary holidays) or during which dealings are restricted or suspended;
- (ii) the existence of any state of affairs which, in the opinion of the Managers and the Trustee might seriously prejudice the interests of the Holders (whether of any

particular Sub-Fund or of the Fund) as a whole or of the deposited property (whether of any particular Sub-Fund or of the Fund);

- (iii) any breakdown in the means of communication normally employed in determining the price of any of such Authorised Investments or the current price on that Recognised Stock Exchange or when for any reason the prices of any of such Authorised Investments cannot be promptly and accurately ascertained (including any period when the fair value of a material portion of the Authorised Investments cannot be determined);
- (iv) any period when remittance of money which will or may be involved in the realisation of such Authorised Investments or in the payment for such Authorised Investments cannot, in the opinion of the Managers and the Trustee, be carried out at normal rates of exchange;
- (v) in respect of any Sub-Fund or Class of the Sub-Fund for which a meeting of the Holders is proposed to be convened, any 48 hours (or such longer period as the Managers and the Trustee may agree) prior to the date of any meeting of the Holders of the said Sub-Fund or Class of the Sub-Fund (or any adjourned meeting thereof);
- (vi) any period where dealing of Units is suspended pursuant to any order or direction of the MAS;
- (vii) any period when the business operations of the Managers or the Trustee in relation to the operation of the Fund are substantially interrupted or closed as a result of or arising from pestilence, acts of war, terrorism, insurrection, revolution, civil unrest, strikes or acts of God; or
- (viii) any period as may be required under the provisions of the Code.

15.2 The Managers may also suspend the realisation of Units during any period of consultation or adjustment arising from the provisions of Clause 14(F) of the Deed.

15.3 Subject to the provisions of the Code, such suspension shall take effect forthwith upon the declaration in writing thereof by the Managers to the Trustee and the Authority and shall terminate on the day following the first Business Day on which the condition giving rise to the suspension shall have ceased to exist and no other conditions under which suspension is authorised under this paragraph 15 shall exist upon the declaration in writing thereof by the Managers.

16. Performance of the Sub-Fund

16.1 Past performance of the Sub-Fund and respective benchmarks (as of 30 October 2020)¹²

¹² Source: Bloomberg L.P.. Performance is calculated on a NAV-NAV basis (taking into account the Preliminary Charge of 0% (for Phillip Money Market Fund) and Realisation Charge (if any)) and with dividends (if any) reinvested taking into account any charges which would have been payable upon such reinvestment. Investors should note that the Preliminary Charge may vary between distributors.

Sub-Fund/Benchmark	One Year	Three Years (average annual compounded return)	Five Years (average annual compounded return)	Ten Years (average annual compounded return)	Since Inception ¹³ (average annual compounded return)
Phillip Money Market Fund (Class A Units (acc))	0.65%	1.02%	0.96%	0.74%	1.05%
Bank Savings Deposit	0.15%	0.16%	0.16%	0.14%	0.23%
Phillip Money Market Fund (Class I Units (acc))	0.89%	N.A.	N.A.	N.A.	1.25%
Bank Savings Deposit	0.14%	N.A.	N.A.	N.A.	0.15%

As the Class I Units (dist), Class E Units (acc), Class F Units (acc) and Class G Units (acc) of Phillip Money Market Fund have not yet been incepted as at the date of this Prospectus, a track record of at least one year is not available.

With effect from 31 March 2015, as Phillip Money Market Fund aims to manage liquidity and risk whilst providing a return comparable to that of the Singapore Dollar savings deposits, the Managers will manage the Sub-Fund against a new benchmark, namely the Bank Savings Deposit. This comprises the average rate compiled from that quoted by 10 leading banks and finance companies and is listed on the website of the MAS.

The past performance of the Sub-Fund is not necessarily indicative of the future performance of the Sub-Fund.

16.2 Expense ratio

The expense ratio for the Sub-Fund for the year as of 31 December 2019 is as follows:

Phillip Money Market Fund (Class A Units (acc))	0.48%
Phillip Money Market Fund (Class I Units (acc))	0.27%

The expense ratio is calculated in accordance with the requirements in the Investment Management Association of Singapore's guidelines on the disclosure of expense ratios and based on figures in the Sub-Fund's latest audited accounts. The following expenses are excluded from the calculation of the expense ratio:

- (a) interest expense;
- (b) brokerage and other transaction costs associated with the purchase and sales of investments (such as registrar charges and remittance fees);
- (c) foreign exchange gains and losses of the Sub-Fund, whether realised or unrealised;

¹³ Inception date for Class A Units (acc) of Phillip Money Market Fund is 16 April 2001. Inception date for Class I Units (acc) of Phillip Money Market Fund is 3 April 2018.

- (d) front end loads, back end loads and other costs arising on the purchase or sale of a foreign unit trust or mutual fund, including any costs arising where a Singapore feeder fund invests into an off-shore parent-fund. Such expenses would generally be capitalised into the cost of the investment and will subsequently be reflected as a diminution in net asset value when the investment is first marked to market after purchase;
- (e) tax deducted at source or arising on income received, including withholding tax; and
- (f) dividends and other distributions paid to investors.

16.3 Turnover ratio

The turnover ratio for the Sub-Fun for the year as of 31 December 2019 is as follows:

Phillip Money Market Fund	0.16%
---------------------------	-------

The turnover ratio is calculated in accordance with the guidelines set out in the Code. The calculation of the turnover ratio is based on the total value of purchases (or sales) of the underlying investments divided by the weighted average daily net asset value. Total value of purchases (or sales) does not include brokerage and other transaction costs. The total value of bonds matured during the year is not included in the computation of the turnover ratio.

17. Soft Dollar Commissions or Arrangements

The Managers shall be entitled to and intend to receive or enter into soft-dollar commissions or arrangements in respect of the Sub-Fund. The Managers will comply with applicable regulatory and industry standards on soft-dollars. The soft-dollar commissions which the Managers may receive include research and advisory services, economic and political analyses, portfolio analyses including valuation and performance measurements, market analyses, data and quotation services, computer hardware and software or any other information facilities to the extent that they are used to support the investment decision making process, the giving of advice, or the conduct of research or analysis and custodial services in relation to the investments managed for clients. The soft dollar credits utilised are not allocated on a specific client basis. The brokers also execute trades for other funds managed by the Managers.

Soft-dollar commissions or arrangements shall not include travel, accommodation, entertainment, general administrative goods and services, general office equipment or premises, membership fees, employees' salaries or direct money payment.

The Managers will not accept or enter into soft dollar commissions or arrangements unless such soft-dollar commissions or arrangements would, in the opinion of the Managers, be reasonably expected to assist the Managers in their management of the Sub-Fund, provided that the Managers shall ensure at all times that transactions are executed on a "best execution" basis taking into account the relevant market at the time for transactions of the kind and size concerned, and that no unnecessary trades are entered into in order to qualify for such soft-dollar commissions or arrangements.

The Managers do not, and are not entitled to, retain cash or commission rebates for their own account in respect of rebates earned when transacting in securities for account of the Sub-Fund.

18. Conflicts of Interest

The Managers may from time to time have to deal with competing or conflicting interests of the Sub-Fund with other funds managed by the Managers. For example, the Managers may make a purchase or sale decision on behalf of some or all of the other funds managed by them without making the same decision on behalf of the Sub-Fund, as a decision whether or not to make the same investment or sale for the Sub-Fund depends on factors such as the cash availability and portfolio balance of the Sub-Fund. However, the Managers will use reasonable endeavours at all times to act fairly and in the interests of the Sub-Funds and investors. In particular, after taking into account the availability of cash and relevant investment guidelines of the other funds managed by the Managers and the Sub-Fund, the Managers will endeavour to ensure that securities bought and sold will be allocated proportionately as far as possible among the Sub-Fund and the other funds managed by the Managers.

The Managers, their directors and related companies may invest in the Sub-Fund. In the event that a conflict of interest does arise, the Managers shall endeavour to ensure that it is resolved fairly and in the interest of investors.

The Managers may also trade with and lend securities to its related corporations and/or any third party. To mitigate any potential conflict of interest, the Managers will conduct the transactions on an arm's length basis.

Associates of the Trustee may be engaged to provide financial, banking and brokerage services to the Sub-Fund. Such services where provided, will be on an arm's length basis and they shall not be liable to account to any person for any profits or benefits made or derived by them in connection with any such services.

Where applicable, the Trustee is presently also acting as registrar and transfer agent to the Sub-Fund while the Custodian (a related party to the Trustee) is presently providing fund administration and custody services to the Sub-Fund. These services will be provided on an arm's length basis and the fees for these services are permitted to be paid out of the deposited property of the Sub-Fund under the provisions of the Deed.

The Trustee shall conduct all transactions with or for the Sub-Fund on an arm's length basis. In the event of a conflict of interest, the Trustee will endeavour to resolve such conflict quickly and in the interest of the Holders in an equitable manner.

The Trustee may own, hold, dispose or otherwise deal with Units in the Sub-Fund as though it was not a party to the Deed. In the event that there is a conflict of interest which arises from such a dealing, the Trustee shall resolve such a conflict in a just and equitable manner as it shall deem fit. Such dealings, where entered into, will be on an arm's length basis.

19. Reports

Financial year-end and distribution of reports and accounts

The financial year-end of the Sub-Fund is 31 December each year. The annual report, annual accounts and the auditor's report on the annual accounts shall be prepared in accordance with the provisions of the Code and sent or made available to investors (whether by post or such electronic means as may be permitted under the Code) within 3 months of the financial year-end (or such other period as may be permitted by the MAS). The semi-annual report and semi-annual accounts will be prepared in accordance with the provisions of the Code and sent or made available to investors (whether by post or such electronic means as may be permitted under the Code) within 2 months of the financial half-year end (or such other period as may be permitted by the MAS), i.e. 30 June.

In cases where the accounts and reports are available in electronic form (as permitted under the Code), investors will receive a hardcopy letter or an email (where email addresses have been provided for correspondence purposes) informing them that the accounts and reports are available and how they may be accessed. Investors may also request for hardcopies of the accounts and reports within 1 month (or such other period as may be permitted by the Authority) from the notification of the availability of the accounts and reports. The Trustee will also make available, or cause to be made available, hardcopies of the accounts and reports to any investor who requests for them within 2 weeks of any request from such investor (or such other period as may be permitted by the Authority). Investors may also at any time opt for hardcopies for all future reports and accounts at no cost to them.

20. Other Material Information

20.1 Information on investments

At the end of each month, investors will receive a statement showing the value of their investment, including any transactions during the month.

20.2 Distribution of income and net capital gains

The Managers have the sole discretion to determine whether any distribution of income and/or net capital gains of the Sub-Fund should be made. Any distributions made out of capital will reduce the net asset value of the Sub-Fund. However, investors should note that distributions are not guaranteed and are subject to the discretion of the Managers.

20.3 Exemptions from liability

20.3.1 The Trustee and the Managers shall incur no liability in respect of any action taken or thing suffered by them in reliance upon any notice, resolution, direction, consent, certificate, affidavit, statement, certificate of stock, plan of reorganisation or other paper or document believed to be genuine and to have been passed, sealed or signed by the proper parties.

20.3.2 The Trustee and the Managers shall incur no liability to the investors or to any other person for doing or (as the case may be) failing to do any act or thing which by reason of any provision of any present or future law or regulation made pursuant

thereto, or of any decree, order or judgment of any court, or by reason of any request, announcement or similar action (whether of binding legal effect or not) which may be taken or made by any person or body acting with or purporting to exercise the authority of any government (whether legally or otherwise) either they or any of them shall be directed or requested to do or perform or to forbear from doing or performing. If for any reason it becomes impossible or impracticable to carry out any of the provisions of the Deed neither the Trustee nor the Managers shall be under any liability therefor or thereby.

- 20.3.3** Neither the Trustee nor the Managers shall be responsible for any authenticity of any signature or of any seal affixed to any transfer or form of application, endorsement or other document (whether sent by mail, facsimile, electronic means or otherwise) affecting the title to or transmission of Units or be in any way liable for any forged or unauthorised signature on or any seal affixed to such endorsement, transfer or other document or for acting upon or giving effect to any such forged or unauthorised signature or seal. The Trustee and the Managers respectively shall nevertheless be entitled but not bound to require that the signature of any such person to any document required to be signed by him under or in connection with the Deed shall be verified to its or their reasonable satisfaction.
- 20.3.4** Any indemnity expressly given to the Trustee or the Managers in the Deed is in addition to and without prejudice to any indemnity allowed by law; provided nevertheless that any provision of the Deed shall be void insofar as it would have the effect of exempting the Trustee or the Managers from or indemnifying them against any liability for breach of trust or any liability which by virtue of any rule of law would otherwise attach to them in respect of any negligence, default, breach of duty or trust of which they may be guilty in relation to their duties where they fail to show the degrees of diligence and care required of them having regard to the provisions of the Deed.
- 20.3.5** Nothing contained in the Deed shall be construed so as to prevent the Managers and the Trustee in conjunction or the Managers or the Trustees separately from acting as managers or trustees of trusts separate and distinct from the Fund.
- 20.3.6** Neither the Trustee nor the Managers shall be responsible for acting upon any resolution purported to have been passed at any meeting of the Holders in respect whereof minutes shall have been made and signed by the Chairman even though it may be subsequently found that there was some defect in the constitution of the meeting or the passing of the resolution or that for any reason the resolution was not binding upon all the Holders.
- 20.3.7** The Trustee shall be responsible for the safe custody of the deposited property. Any Authorised Investments forming part of the deposited property of the relevant Sub-Fund shall, whether in bearer or registered form, be paid or transferred to or to the order of the Trustee forthwith on receipt by the Managers and be dealt with as the Trustee may think proper for the purpose of providing for the safe custody thereof. The Trustee may from time to time upon notification in writing to the Managers appoint such person or persons as it thinks fit (including itself or its associates) as

agents, nominees, custodians, sub-custodians in respect of any of the deposited property of the relevant Sub-Fund and such persons to exercise any or all of the obligations of the Trustee under the Deed, and the fees and expenses of such agents, nominees, custodians, sub-custodians and other such persons shall be paid out of the deposited property of the relevant Sub-Fund. The Trustee shall not be liable for any act or omission of any depository or clearing system with which Investments may be deposited. In relation to any investment, the Trustee shall not be liable for any act or omission of any agent, nominee, custodian, joint custodian, sub-custodian or other such persons appointed by it except where the Trustee has not acted in good faith in the appointment and monitoring thereof. The Trustee may at any time procure that:

- (i) the Trustee; or
- (ii) any officer or responsible official of the Trustee jointly with the Trustee; or
- (iii) any nominee appointed by the Trustee; or
- (iv) any such nominee and the Trustee; or
- (v) any custodian, joint custodian or sub-custodian appointed pursuant to the provisions of this paragraph 20.3.7; or
- (vi) any company operating a recognised clearing system in respect of the Authorised Investments of any Sub-Fund; or

20.6 Valuation

Except where otherwise expressly stated and subject always to the requirements of the Code, the value of the assets comprised in each Sub-Fund with reference to any Authorised Investment which is:

- (A) a deposit placed with a bank or other financial institution or a bank bill, shall be determined by reference to the face value of such Investments and the accrued interest thereon for the relevant period;
- (B) a unit or share in a unit trust or mutual fund or collective investment scheme shall be valued at the latest published or available net asset value per unit or share, or if no net asset value per unit or share is published or available, then at their latest available realisation price;
- (C) an Investment (other than any deposit or bank bill or unit or share in an open-ended collective investment scheme referred to sub-paragraphs (A) and (B) above) of Phillip Money Market Fund shall be valued at its purchase cost after adding or deducting an Adjustment Factor (hereinafter defined). The Adjustment Factor is derived by amortising (using the straight line method) the difference between the purchase cost and the redemption value on maturity over the remaining period (calculated in number of days) to maturity. The Adjustment Factor will be added (where the purchase cost is less than the redemption value on maturity) or deducted (where the purchase cost is more than the redemption value on maturity) to the purchase cost of such Investment;
- (D) an unquoted Investment (other than any deposit or bank bill or unit or share in an open-ended collective investment scheme referred to in sub-paragraphs (A) and (B) above), shall be calculated by reference to the mean of bid and offered prices quoted by such persons, firms, or institutions determined by the Managers to be dealing or making a market in that investment at the close of trading in the relevant market on which the particular Investment is traded. However, if such price quotations are not available, value shall be determined by reference to the face value of such Investments, the prevailing term structure of interest rates and the accrued interest thereon for the relevant period; and

- (E) a quoted Investment, shall be calculated, as the case may be, by reference to the official closing price, the last known transacted price or the last transacted price on such recognised stock exchange and, if there be no such official closing price, last known transacted price or last transacted price, the value shall be calculated by reference to the mean of bid and offered prices quoted on such recognised stock exchange.

Provided that, if the quotations referred to in (B), (C), (D) and (E) above are not available, or if the value of the Authorised Investment determined in the manner described in (A), (B), (C), (D) or (E) above, in the opinion of the Managers, is not representative, then the value shall be such value as the Managers may with due care and in good faith consider in the circumstances to be fair value and is approved by the Trustee who shall decide if a notice to notify the investors of such change in the value is required. For the purposes of this proviso, the "fair value" shall be determined by the Managers in consultation with an approved stockbroker or an approved valuer and with the approval of the Trustee in accordance with the Code.

In exercising in good faith the discretion given by the proviso above, the Managers shall not, subject to the provisions of the Code, assume any liability towards the Fund, and the Trustee shall not be under any liability, in accepting the opinion of the Managers, notwithstanding that the facts may subsequently be shown to have been different from those assumed by the Managers.

In calculating the net asset value of any Sub-Fund or any proportion thereof:

- (i) every Unit relating to such Sub-Fund agreed to be issued by the Managers shall be deemed to be in issue and the deposited property of such Sub-Fund shall be deemed to include not only cash or other assets in the hands of the Trustee but also the value of any cash, accrued interest on bonds or other assets to be received in respect of Units of such Sub-Fund agreed to be issued and (in the case of Units issued against the vesting of Authorised Investments) any moneys payable out of the deposited property pursuant to Clause 11 of the Deed;
- (ii) where Authorised Investments have been agreed to be purchased or otherwise acquired or sold but such purchase, acquisition or sale has not been completed, such Authorised Investments shall be included or excluded, respectively, and the gross purchase, acquisition or net sale consideration excluded or included as the case may require as if such purchase, acquisition or sale had been duly completed; and
- (iii) where in consequence of any notice or request in writing given pursuant to Clause 13, 13A or 14 of the Deed a reduction of the Fund by the cancellation of Units of such Sub-Fund is to be effected but such reduction has not been completed the Units in question shall not be deemed to be in issue and any amount payable in cash and the value of any Authorised Investments to be transferred out of the deposited property of such Sub-Fund shall be deducted from the net asset value of such Sub-Fund.

In calculating the net asset value of any Sub-Fund, there shall be deducted any amounts not provided for above which are payable out of the deposited property of such Sub-Fund in the following order:

- (i) any amount of management fee, the remuneration of the Trustee, the valuation agent's fees, the registrar's fees, the securities transaction fee, amortisation of other preliminary expenses and any other expenses accrued but remaining unpaid attributable to such Sub-Fund;
- (ii) the amount of tax, if any, on net capital gains (including any provision made for unrealised capital gains) accrued and remaining unpaid attributable to such Sub-Fund;
- (iii) the amount in respect of tax, if any, on net capital gains realised prior to the valuation being made as in the estimate of the Managers will become payable attributable to such Sub-Fund;
- (iv) the aggregate amount for the time being outstanding of any borrowings for the account of such Sub-Fund effected under Clause 17(C) of the Deed together with the amount of any interest and expenses thereon accrued pursuant to Clause 17(C)(v) of the Deed and remaining unpaid;
- (v) there shall be taken into account such sum as in the estimate of the Managers will fall to be paid or reclaimed in respect of taxation related to income up to the time of calculation of the net asset value of the deposited property of such Sub-Fund;
- (vi) there shall be added the amount of any tax, if any, on capital gains estimated to be recoverable and not received attributable to such Sub-Fund;
- (vii) any value (whether of an Authorised Investment or cash) otherwise than in Singapore dollars and any non-Singapore dollar borrowing shall be converted into Singapore dollars at the rate (whether official or otherwise) which the Managers shall after consulting with or in accordance with a method approved by the Trustee deem appropriate to the circumstances having regard *inter alia* to any premium or discount which may be relevant and to the costs of exchange; and
- (viii) where the current price of an Authorised Investment is quoted "ex" dividend, interest or other payment but such dividend, interest or other payment has not been received the amount of such dividend, interest or other payment shall be taken into account.

20.7 Duration and Termination of the Fund

20.7.1 The Fund constituted by the Deed is of indeterminate duration and may be terminated as provided in Clause 35 of the Deed.

20.7.2 Either the Trustee or the Managers may in their absolute discretion terminate the Fund by not less than three months' notice in writing to the other given so as to expire at the end of the accounting period current at the end of the tenth year after the date of the Principal Deed or any year thereafter. Either the Trustee or the Managers shall be entitled by notice in writing as aforesaid to make the continuation

of the Fund beyond any such date conditional on the revision to its or their satisfaction at least three months before the relevant date of its or their remuneration thereunder. In the event that the Fund shall fall to be terminated or discontinued the Managers shall give notice thereof to all investors not less than three months in advance. Subject as aforesaid the Fund shall continue until terminated in the manner hereinafter provided in paragraphs 20.7.3 to 20.7.5.

20.7.3 Subject to Section 295 of the SFA, the Fund may be terminated by the Trustee by notice in writing as provided in any of the following events, namely:

- (i) if the Managers shall go into liquidation (except a voluntary liquidation for the purpose of reconstruction or amalgamation upon terms previously approved in writing by the Trustee) or if a receiver is appointed over any of their assets or if a judicial manager is appointed in respect of the Managers or if any encumbrancer shall take possession of any of their assets or if they shall cease business;
- (ii) if any law shall be passed, any authorisation withdrawn or revoked or any direction issued by the MAS which renders it illegal or in the opinion of the Trustee impracticable or inadvisable to continue the Fund;
- (iii) if within the period of three months from the date of the Trustee expressing in writing to the Managers the desire to retire the Managers shall have failed to appoint a new trustee within the terms of Clause 32 of the Deed; and
- (iv) if within the period of three months from the date of the Trustee removing the Managers the Trustee shall have failed to appoint new managers within the terms of Clause 33 of the Deed.

The decision of the Trustee in any of the events specified in this paragraph 20.7.3 shall be final and binding upon all the parties concerned but the Trustee shall be under no liability on account of any failure to terminate the Fund pursuant to this paragraph 20.7.3 or otherwise. The Managers shall accept the decision of the Trustee and relieve the Trustee of any liability to them therefor and hold it harmless from any claims whatsoever on their part for damages or for any other relief.

20.7.4 Any Sub-Fund may be terminated by the Managers in their absolute discretion by notice in writing as hereinafter provided (i) if the aggregate net asset value of the deposited property of that Sub-Fund shall be less than S\$3,000,000 after the end of the fifth year from the commencement date of that Sub-Fund or any time thereafter or (ii) if any law shall be passed, any authorisation withdrawn or revoked or any direction issued by the MAS which renders it illegal or in the opinion of the Managers impracticable or inadvisable to continue that Sub-Fund. Any Class of a Sub-Fund may be terminated by the Managers in their absolute discretion by notice in writing as hereinafter provided (i) if the aggregate net asset value of the deposited property of that Class shall be less than S\$3,000,000 or (ii) if any law shall be passed, any authorisation withdrawn or revoked or any direction issued by the MAS which renders it illegal or in the opinion of the Managers impracticable or inadvisable to continue that Class. The Fund may be terminated by the Managers in their

absolute discretion by notice in writing hereinafter provided (i) if the aggregate net asset value of the deposited property of the Sub-Fund shall be less than S\$3,000,000 after the end of the fifth year from the commencement date of the Sub-Fund or any time thereafter or (ii) if any law shall be passed, any authorisation withdrawn or revoked or any direction issued by the MAS which renders it illegal or in the opinion of the Managers impracticable or inadvisable to continue the Fund.

20.7.5 The party terminating the Fund or the relevant Sub-Fund or Class of a Sub-Fund shall give notice thereof to the investors fixing the date at which such termination is to take effect which date shall not be less than the relevant period provided in the Deed after the service of such notice and the Managers shall give written notice thereof to the MAS not less than seven days before such termination.

20.8 Use of Credit Rating Agencies

As the Managers may rely on ratings issued by credit rating agencies in any of their investments, the Managers have established a set of internal credit assessment standards and have in place a credit assessment process to ensure that their investments are in line with these standards. Information on the Managers' credit assessment process will be made available to investors upon request.

20.9 Liquidation of the Managers, the Trustee or the Custodian

Subject to the provisions of the Deed, if the Managers or the Trustee go into liquidation (except for a voluntary liquidation for the purpose of reconstruction or amalgamation), a new manager or a new trustee (as the case may be) may be appointed or the Fund may be terminated. Please refer to Clauses 32, 33 and 35 of the trust deed for further details.

In the event that the Custodian becomes insolvent, the Trustee may terminate the appointment of the Custodian and, in accordance with the trust deed, appoint such person as the new custodian to provide custodial services to the Fund.

Custodial Risks

There are risks involved in dealing with a custodian who holds the Fund's investments or settles the Fund's trades. It is possible that, in the event of the insolvency or bankruptcy of a custodian, the Fund would be delayed or prevented from recovering its assets from the custodian, or its estate, and may have only a general unsecured claim against the custodian for those assets. In recent insolvencies of financial institutions, the ability of certain customers to recover their assets from the insolvent financial institutions' estate has been delayed, limited, or prevented, often unpredictably, and there is no assurance that any assets held by the Fund with a custodian will be readily recoverable by the Fund. In addition, there may be limited recourse against sub-custodians, if appointed by the custodian, in those situations in which the Fund invests in markets where custodial and/or settlement systems and regulations are not fully developed, including emerging markets, and the assets of the Fund have been entrusted to such sub-custodians.
