This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of the Phillip SGD Money Market ETF (the "Sub-Fund"), a sub-fund of the Phillip Legacy Funds (the "Fund"), and complements the Prospectus¹.
- It is important to read the Prospectus before deciding whether to purchase units in the Sub-Fund ("Units"). If you do not have a copy, please contact us to ask for one.
- You should not invest in the Sub-Fund if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the Units, you will need to make an application in the manner set out in the Prospectus.

	KEY PRODUCT FEATURES	
•	AT ARE YOU INVESTING IN? (Prior to 1 July 2023) You are investing in a Sub-Fund that provides investment results that closely correspond, before fees and expenses, to the performance of the Index or any replacement index which references the SORA and provides for the same or substantially similar exposure as the Index. •	(With effect from 1 July 2023) You are investing in a Sub-Fund that provides investment results that closely correspond, before fees and expenses, to the performance of the Index. The Sub-Fund will invest all or substantially all of its assets in high quality	ore_Overnight_ Rate_Average_I ndices_Ground_ Rules.pdffor informationon
•	debt and money market instruments, and deposits with eligible financial institutions. This may include government and corporate bonds, commercial bills and deposits with financial institutions. (Prior to 1 July 2023) The Manager will not be declaring any distributions	the value of the Index and the Index's
•	to investors in respect of the Sub-Fund. (With effect from 1 July 2023) Distributions, if any, will be determined by the Manager. To the extent that any distributions will be determined by	construction methodology.
	the Manager, such distributions will be declared quarterly in January, April, July and October of each year or at such other times as the Manager may determine. Investors should note that the declaration of quarterly distributions is not guaranteed and the Manager may review the distribution policy in the future depending on prevailing market conditions.	
•	The Manager may make distributions out of distributable income and/or the capital of the Sub-Fund. Distributions (whether out of income and/or capital) may have the effect of lowering the Net Asset Value of the Sub- Fund and this will be reflected in the Redemption Value of the Units. Moreover, distributions out of capital may amount to a reduction of an investor's original investment. Investors redeeming their Units may therefore receive an amount less than their initial investment. Such distributions may also result in reduced future returns to investors.	
	Investment Strategy	
•	The Manager will construct the Sub-Fund's portfolio using the Optimisation Strategy. The Manager will undergo a disciplined asset allocation process which focuses on the quality and maturity of the investments of the Sub-Fund. In terms of quality, the Manager will only place the deposited property of the Sub-Fund into high quality debt securities or high quality money market instruments which comply with Appendix 2 of the Code.	Refer to Section B of Appendix II to the Prospectus setting out the description of the investment
•	Out of investments that fulfil the above criteria on quality, the Manager will construct the Sub-Fund's portfolio such that it has an overall weighted portfolio maturity at or below 3 months.	objective, approach and strategy of the Sub-Fund.
•	Through this process, the Manager seeks to manage the liquidity, credit and interest rate risks of the Sub-Fund while at the same time provide diversification to the Sub-Fund. The Sub-Fund should hold a portfolio of investments that display generally the same risk and return characteristics of the Index.	
•	(Prior to 1 July 2023) In the event that the SOR is discontinued, the Sub- Fund will hold a portfolio of investments that display generally the same risk and return characteristics of the replacement index which references the SORA and provides for the same or substantially similar exposure as the Index.
