MANAGER'S INVESTMENT REPORT

1. The Fund

The investment objective of the Fund is to seek to provide a high level of income and moderate long-term capital appreciation by tracking, as closely as possible, before expenses, the performance of the SGX APAC Ex-Japan Dividend Leaders REIT Index (the "Index"). By tracking the Index which is ranked and weighted by total dividends, the Fund aims to enhance risk-adjusted returns above that of traditional market capitalisation-weighted indices as the 30 REITs comprising the Index will be ranked and weighted according to the highest total dividends paid in the preceding 12 months subject to size, free-float market capitalisation and liquidity constraints.

The total operating expenses do not include (where applicable) brokerage and other transactions costs, performance fees, interest expenses, distribution paid out to unitholders, foreign exchange gains/losses, front or back end loads arising from the purchase or sale of other funds and tax deducted at source or arising out of income received.
