

**INVESTMENT OBJECTIVE & FOCUS**

The investment objective of Phillip Global Quality Fund is to seek medium to long term total return for the investors. The Sub-Fund will invest all or substantially all of its assets in the GMO Underlying Fund, namely GMO Quality Investment Fund.

The GMO Underlying Fund is actively managed. The GMO Underlying Fund seeks total return by investing in equities and equity-related securities the GMO Underlying Fund Manager believes to be of high quality. A high quality company is generally one that the GMO Underlying Fund Manager believes has an established business that will deliver a high level of return on past investments and that will utilise cash flows in the future by making investments with potential for high levels of return on capital or by returning cash to shareholders through dividends, share buybacks, or other mechanisms.

The equity securities in which the GMO Underlying Fund may invest shall include, without limitation, common stocks, depository receipts (ADRs, EDRs or GDRs) and related securities such as convertibles, preferred stocks, income trusts, royalty trusts, master limited partnerships, ETFs, REITs, private placements, rights and warrants. The GMO Underlying Fund may use financial derivative instruments ("FDIs") and engage in a repurchase transaction, securities commodities lending and borrowing. A buy-sell back transaction or sell-buy back transaction and a margin lending transaction for efficient portfolio management purposes.

Currently, Class SGD Dis and Class SGD Hedged Dis Units of Phillip Global Quality Fund are being offered.
